

# Workshop Safety / Machine & LEV Maintenance

For all enquiries please email:  
[contact@hme-tech.com](mailto:contact@hme-tech.com)

**HME LOGISTICS** specifically helps schools maintain their equipment to the required standards through annual safety inspections of machinery and extraction systems, in line with regulations and recommendations from the HSE (Health and Safety Executive), CLEAPSS and D&T

- HSG258 issues guidelines to help ensure that any LEV system is working effectively and efficiently
- Regulation 9 of COSHH (Control of Substances Hazardous to Health) Regulations states that LEV systems should be inspected at least once in every 14 month period
- PUWER and BS4163 Regulations and Requirements state that there must be ongoing
