

# ADVANCED<sup>®</sup>

**Diesel Generators  
& Bespoke Acoustic Enclosures**

**Advanced** - Your project, custom built with you in mind.

**Genset Modification**

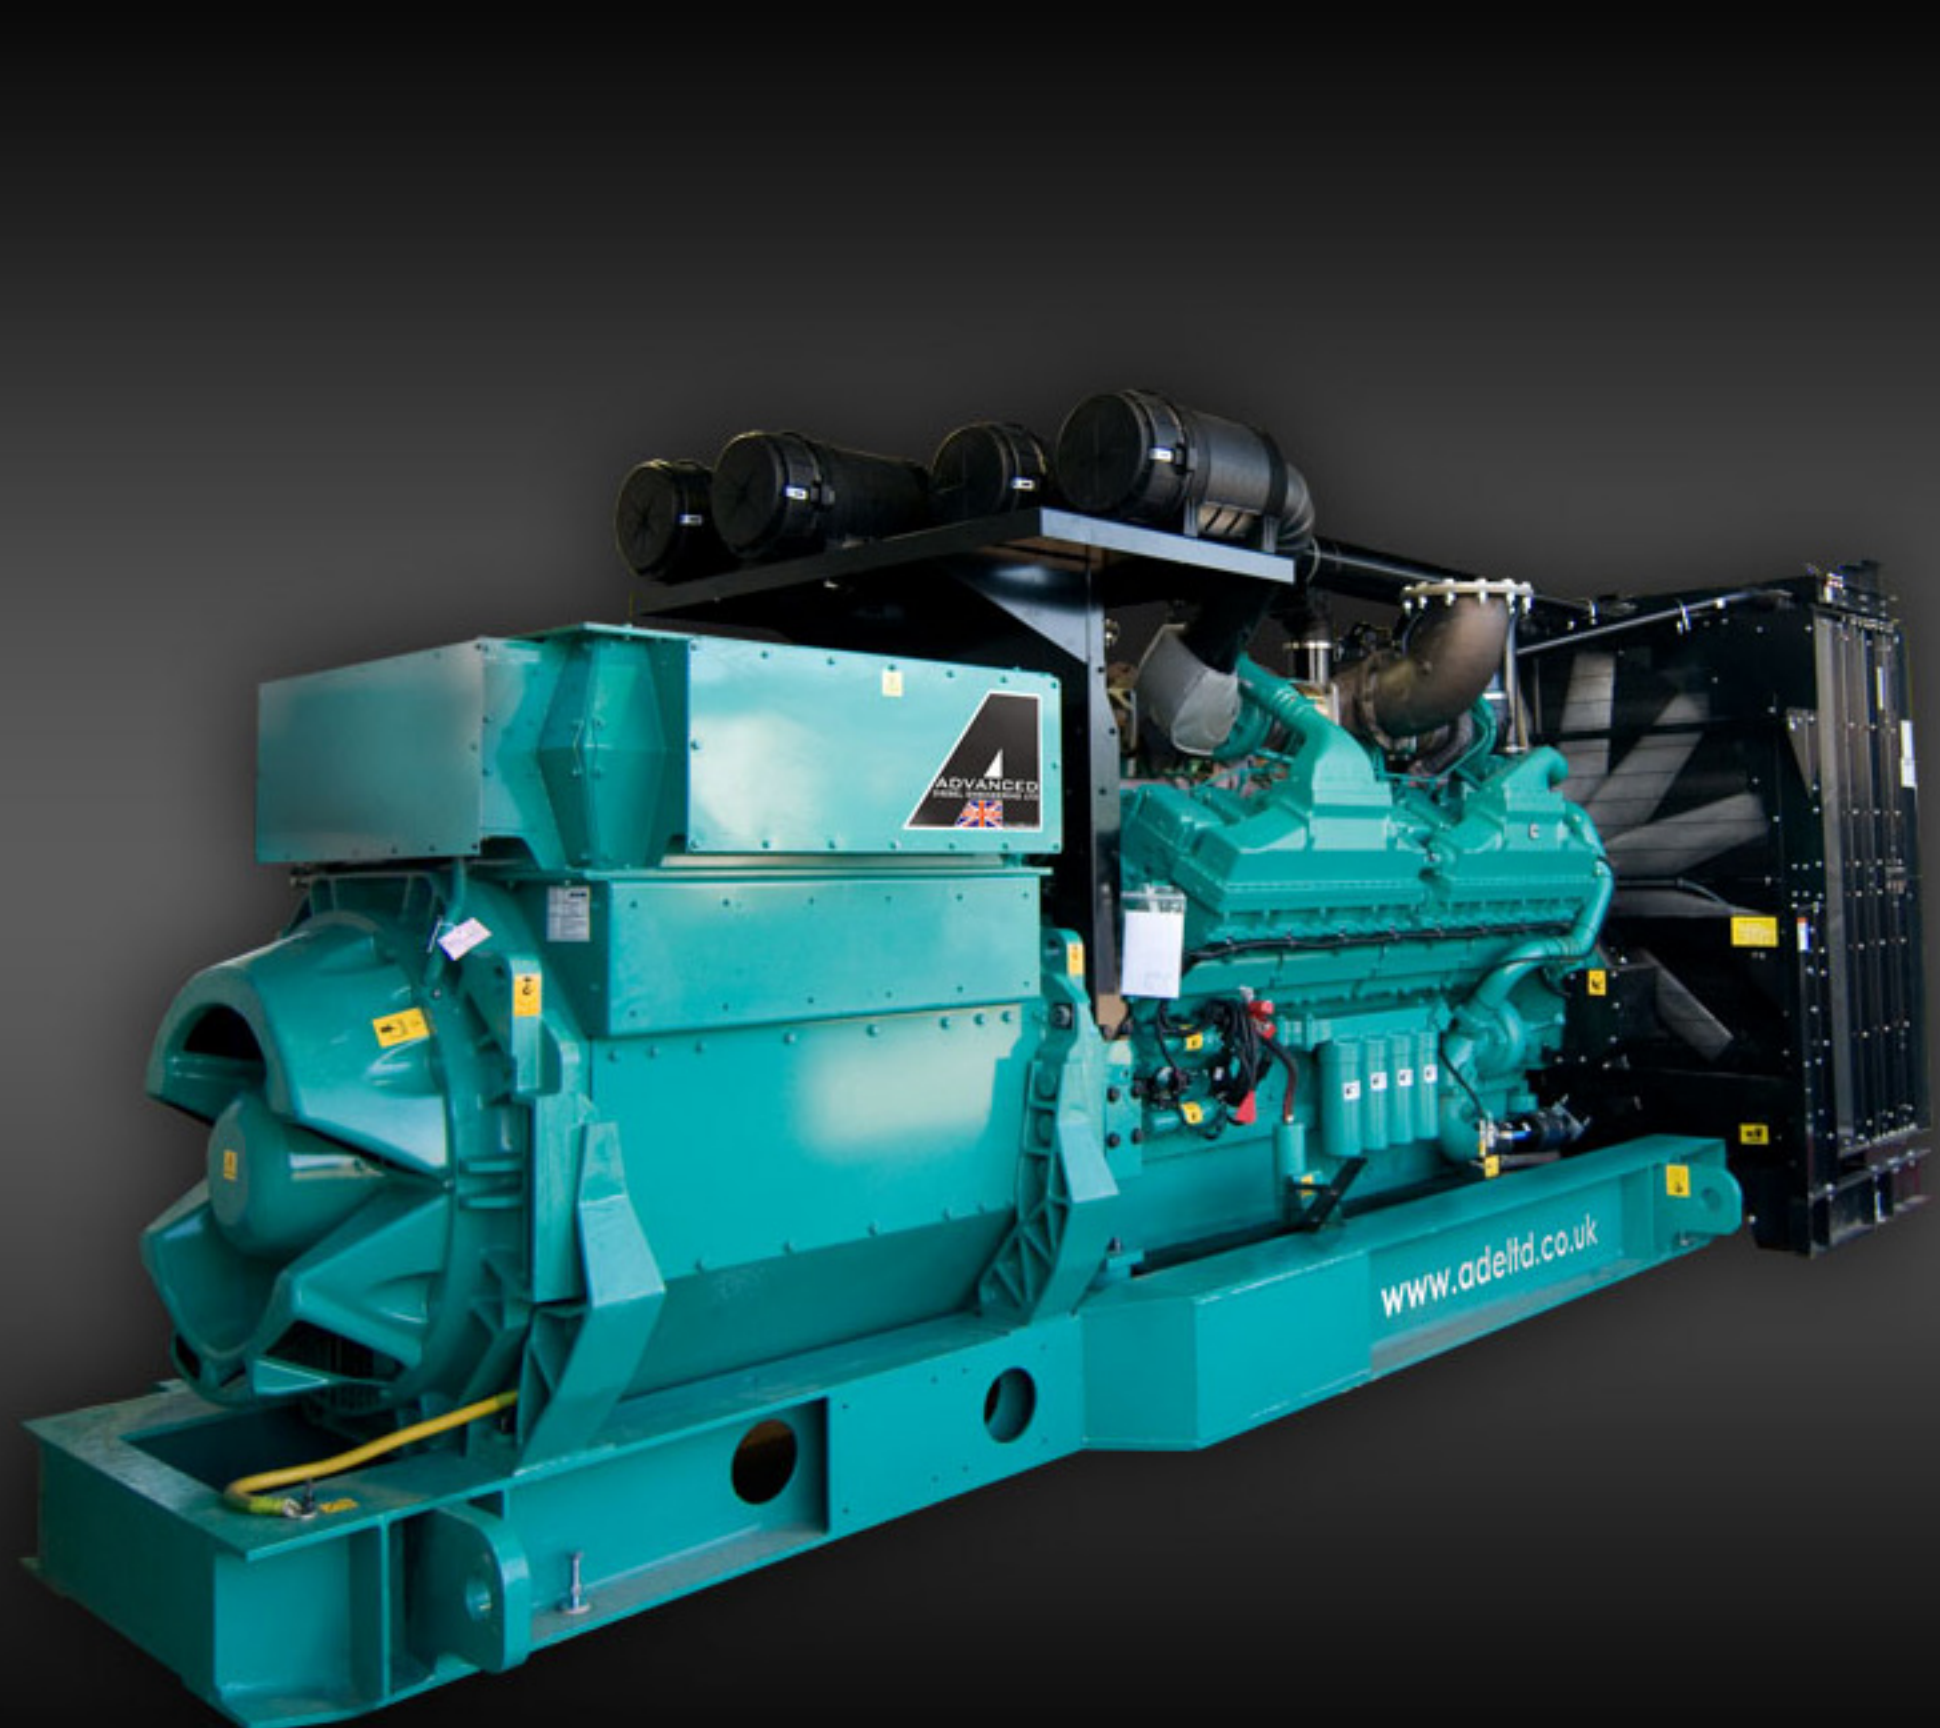

**Acoustic Enclosures**

**Multi Mega Watts Projects**

Advanced is the UK's only generator supplier to design and build their own **acoustic packaging solutions** and fuel storage systems all under one roof. Specialising in bespoke ultra-low noise packaging and plant room attenuation, our extensive workforce of designers, fabricators, painters, and electrical engineers, coupled with an extensive inventory of generators held in stock will deliver your project to the tightest of timescales, whilst still maintaining the **highest standards possible**.

- Open & Silenced Diesel Generators
- Bespoke Acoustic Enclosures
- Service & Maintenance

- Critical Power Protection (Data Centres)
- Fuel Storage & Transfer System
- Worldwide Shipping
