

Eco News -What's going on at Headley Park?

The whole school are doing their bit for the environment. Children are bringing in their used batteries to be recycled. Thank you Mrs Rudge for organising the collection.

At the end of each term we always give any unwanted fruit to Hartcliffe City Farm. The animals do not mind if it is a little bruised or passed its best before!

Eco - Hot Spot!

Nursery have been improving their bug hotel. We are now ready for our insects to come and stay!

How can you help?

Do not forget that we are collecting empty crisp packets in school to be recycled. We are happy for you to bring in ones from home too. The bin is placed by the gate in the morning and after school.

Home Project

When mowing your grass, make room for nature. Leave a small section to grow. Bugs love the long grass. To find out more watch 'The British Garden: Life and Death on Your Lawn.' Available on 7th July 2019 on BBC 1.

Global Eco News

David Attenborough's new documentary 'Climate Change-The Facts' on BBC1 made us really think about how we use the planets resources. If you have not seen it yet, it is definitely worth a watch!
