

Roller Banner

Installation Instructions

Roller Banner Diagram
Example shows standard
roller banner

Assembly

1. Remove your roller banner from its carry bag.
2. Remove the support poles stored in the underside of the cassette.
3. Fold out stabilising legs of cassette and place on flat ground.
4. Take the pole, unfold and allow all three sections to click together. There is a slot at one end, this is the top.
5. Insert the base of the pole into the cassette, ensuring that it is fully located.
6. Slowly pull the banner rail, from the cassette, upwards taking care not to damage the banner.
7. Secure the top rail into the slot located at the top of the pole.
