NOTES

* **MATERIALS:** Frame material - Alum = Aluminium, Wood = Ash & Birch; Skin material - PVC = Valmex high-grade, or Hyp = Hypalon (ultimate). Aluminium frames are lighter and more compact; wood frames are stiffer, quicker to put together and have greater aesthetic appeal.

** **Expedition Spec boats**, over Touring, have ultra-durable Hypalon skin (in lieu of PVC), upgraded seats, and paddle storage pockets on deck.

*** **Stabilairs** are Nautiraid's integrated side tubes, for buoyancy and heeled stability. All kayaks/canoes have them, except Naraks, where they are optional on 460, not offered on 550, standard on Grand Narak.

DELIVERY, Kayaks & Canoes (UK mainland) £60, or COLLECT FREE from our warehouse in Christchurch, Dorset. This applies to UK stock, and/or orders that can be added to scheduled collections from France. Remote areas, specials, urgent deliveries from France, EPOA.

KAYAK OPTIONS
