

## Environmental Policy

Accuro Environmental Limited works with industry and individuals in South East England. The company's operational activities pose a potential risk to the environment.

The company operates a Company Environmental Policy which aims to minimise the risk of damage to the environment through clear and defined policies and procedures.

The company is committed in its efforts to the protection of the environment, including prevention of pollution, and manages its impact on the environment through continual improvement, compliance obligations and applicable legislation.

In order to promote our commitment to the environment, employees are educated and trained in environmental issues and the effects of their activities on the environment

The company's Environmental Policy aims to address areas including:

- **Prevention of pollution**
- **To minimize energy and material usage and the production of waste**
- **Effective and responsible waste management and disposal**
- **Promoting product reuse and recycling**
- **Maintaining high workforce awareness of environmental issues**
- **Involving suppliers, contractors and clients in environmental initiatives**

Accuro Environmental Limited are committed to ensuring that The Company Environmental Policy is communicated to everyone within the organisation and that it will become best practise and underpin all areas within the business.
