Printed tape with Test Valley packaging

We can produce custom made professional standard printed tape in a wide range of materials and in large format with multi-coloured printing. This approach can strengthen your brand reduce bespoke carton costs and improve the security of goods in transit.

Call Test Valley Packaging on: **01722 414 800** for more details on how we can produce what you require with a competitive price guaranteed.

Test Valley Packging are experts in creating bespoke printed: Tape, Cartons and Polythene Bags. We can help you develop your brand as well as protect your goods in transit.

TAPE DISPENSERS

50mm STD TAPE DISPENSER

CODE: PD712
50mm pistol grip dispenser for standard tapes. Provides a good solid operation and easy application.

75mm STD TAPE DISPENSER

CODE: PD742
75mm pistol grip dispenser for standard tapes. Provides a good solid operation and easy application.

50mm DELUX TAPE DISPENSER

CODE: PD702
A deluxe version of the PD712/PD742 with a steel construction and safety blade feature.

75mm DELUX TAPE DISPENSER

CODE: PD782
A deluxe version of the PD712/PD742 with a steel construction and safety blade feature.

50mm Crossweave
Dispenser (Fully Enclosed)
CODE: PD150R

A fully enclosed 50mm crossweave tape dispenser with cutter.

BAG SEALING DISPENSER

CODE: PD221
A bag sealing dispenser which takes 9mm tape. The gathered bag head is pushed down through the mechanism which binds it tightly with a tape band.

25mm BENCH DISPENSER

CODE: PD327
A 25mm bench dispenser for assembly and packing lines. Easy one handed operation and mobile.

50mm BENCH DISPENSER

CODE: PD332
A 50mm bench dispenser with a heavy duty plastic construction and extra strong core holder. Ideal for more demanding packing situations where extra heavy use is expected.

HOTMELT GLUE SYSTEMS

CODE: P-412

Glue gun for light industrial uses.
12mm Low melt glue sticks.
Operates from 100-240v AC.

CODE: P-912-ECO

Economically priced blister packed tool powered by a self-regulating PTC heater allowing an adhesive output of up to 1.8kg/hr. Tool weighs 450gms. Operates from 100-240v AC

CODE: P543-ECO

A professional, high capacity glue gun designed to take 43mm glue slugs. Extremely robust, all electric industrial glue gun with removable integral stand incorporating a nozzle spanner. The powerful 300 watt cartridge heater gives adhesive output up to 3.0kg/hr Weight: 1.15kg.

CORDLESS GLUE GUN BUTANE POWERED

CODE: P-600G
Fully portable, powered with butane gas filled LEC™ cartridges giving about 1.5 hours use, refillable with standard cigarette lighter gas canisters. USES 12mm hot melt glue sticks. Piezo ignition with visible ignition indicator adhesive output up to 1.7kg/hr, weighs 390gms and has flip-up stand tool is blister packed and comes supplied with 2 refillable (LEC™) gas cartridges (empty)

Invaluable where no power source is available!!

GLUESTICKS

All configurations and sizes of glue sticks and slugs are available in 2-3 days and can be put into stock when usage permits.

GLUESTICKS			
CODE	SIZE (mm)	SPECIFICATION	WEIGHT
FP12-T	12 x 300 mm	Fast Packaging Tan	5 kg

MANUAL STAPLING EQUIPMENT

Test Valley Packaging are able to offer a variety of robust and reliable hand held staplers in various styles and sizes to suit many applications.

HEAVY DUTY PLIER STAPLER

CODE: R31
Heavy duty pliers with a capacity up to 70 sheets of paper. Ideal for use with cartons and mailing bags. Uses 78/8, 73/10 and 73/12 staples.

GENERAL PURPOSE PLIER STAPLER

CODE: R1/24
General purpose stapling pliers with a capacity up to 50 sheets of paper. Uses 24/6 and 24/8 staples.

HEAVY DUTY PLIER STAPLER

CODE: R34
Heavy duty hand tacker for stapling cardboard, polythene and most fabrics. Fitted with a pressure adjustment to allow firing through tough materials. Uses 140/6, 140/8, 140/10 and 140/12 staples.

GENERAL PURPOSE PLIER STAPLER

CODE: R13
Lightweight hand tacker for lighter duty applications. Ergonomically designed for easy use. Uses 13/4, 13/6, 13/8 and 13/10 staples.

STAPLES

MACHINE STAPLING EQUIPMENT

B561PN

A foot operated carton base stapler to complement the carton top stapler. With a long base arm to keep the operation at a comfortable operator height, this tool can be used to secure the base of cartons, staple large trays and join boards together where both hands are required.

JK35-590

An excellent pneumatic, heavy duty hand tacker which provides an instant fixing solution for many materials.

The wide crown staples used ensure that materials are not punched through but are secured to maximum effect. Widely used in securing cardboard packaging to wooden pallets to help secure loads in transit and prevent migration of large cartons.

C561

Perfect poise, a comfortable grip and a half-kilo (one pound) less to carry make this tool very handy. One squeeze on the trigger always makes for perfect stapling, at any speed.

This extremely strong the tool housing is made of fibre-reinforced plastic, and all moving parts are metal. The rounded, clean lines are both functional. You get maximum efficiency during job after job.

Select the staples and leg lengths

The c.561 top stapler is available in two variants; with leg lengths of 15-18 mm (5/8" to 3/4") and for 22 mm (7/8") leg length. The stapling depth is set by means of a simple knob on the front of the tool (which has five positions). The change between 15 and 18 mm (5/8" and 3/4") leg lengths is made by a screw at the front.

COMPLETE PACKING LINES

Endoline offer complete packing lines incorporating either robotic or cartesian pick and place case loading devices. Endoline products are designed to simultaneously address customer demand for improved product protection while delivering substantial reductions in packaging and product waste.

Case Erectors

Endoline's extensive range of case erecting machinery is unrivalled in terms of quality, performance, reliability and usability.

Case Sealers

Our high specification case sealers are designed to increase the productivity and efficiency of your case sealing operation.

Case Loaders

Our case loading and packing machinery offers a highly efficient solution for packing products in to cases, trays or crates.

Conveyor Systems

Testimonials

"Endoline delivered the machine to us on time, and the training they gave us was fantastic - very professional, clear and thorough. It was very easy to understand as well as providing some basic trouble-shooting advice. Our production team is very happy and the case erector has been running well since day one."

RICHARD BUXCEY
PLANT AND MAINTENANCE ENGINEER AT FARÉCLA PRODUCTS LIMITED

"We have 102 case formers and 710 case sealers and we don't require a service from Endoline because the machines are so good they never have problems."

GEORGE ELLIOTT
SCOTTS BAKERY
