### CLEVERTOUCH<sup>®</sup> / Product Specifications

# Pro Series

#### Interactive Flat Panel for Enterprise

Our complete enterprise solution is easy to use, simple to install, will work with your current system set up and is designed for over 50,000 hours of use. With low maintenance and no ongoing subscriptions, Clevertouch provides the only complete all in one solution for Enterprise.

#### INAVATION AWARDS

Display Technology for Collaboration and Conferencing InAVation Awards 2018 - Winner

Manufacturer of the Year AV Awards 2015 – Winner

Collaboration Product of the Year Install Awards 2018 – Finalist

## The award winning all-in-one solution

#### **Flexible Solution**

Our Pro Series solution is designed to be flexible and works with your existing VC solutions and software. Our open platform approach and embedded Windows OS gives you access to cloud-based applications such as Skype for Business, Slack, Zoom and Google Hangouts.

Clevertouch offers long-term savings and increased return on investment.

#### **Networking and Security**

Our touchscreens are designed to integrate with your current system set up. With remote management tools, increased security and network options, and the most comprehensive warranty on the market.

#### **Dynamic Messaging**

With Clever Message send dynamic messages to your Clevertouch screens. Your IT department or office can create messages for 24/7 use with live alerts and announcements.

#### Natural, Fluid Writing

Our Super Glide Surface technology provides a natural and fluid writing experience with no lag, reminiscent of a pen and whiteboard. Erase with your palm. Pinch and pult to zoom. Switch between finger-touch, pen, and dual-pen instantly without needing to alter settings.

#### Blade PC

With an optional slot-in Windows 10 Pro Intel® Core™ 15/17 PC, you can load your existing apps and software from your network, enabling you to collaborate securely across the globe, and access the same features as your colleagues, wherever they are based.

#### Open Platform Video Conferencing Solutions

### **CLEVERTOUCH®**

### **Pro Series**

#### **Clever Message** Application For Cloud based company

branding and messaging

#### **Optional Blade PC**

Choose from an i5 or i7 Intel Core PC with Windows 10 Pro with 4/8 GB RAM and 128/256 GB SSD, and integrated Intel® HD Graphics and Intel H110 Express Chipset.

> Audio Built-in high-end speakers

#### **High end** integrated tablet mode

Compatible with Windows, Mac, iOS, Android and Chrome.

**Fully customisable** 

Local team with expert knowledge

**Energy efficient**

#### Clever Message

### 24/7 digital signage

Turn your Clevertouch into an interactive digital signage kiosk.

#### Branded power-up screen

Get your organisation's daily news when you power-up each day.

### Live video streaming

Broadcast live or prerecorded audio and video to your screens.

#### Instant messaging

Send instant or timed messages to any of your Clevertouch screens remotely.

#### Alerts

Send important announcements at the touch of a button.

### Group your screens

Send messages to groups of Clevertouch displays simultaneously.

### **Pro Series Range**

	Capacitive Touch	E-CAP	High Precision
	Capacitive is our multi award winning premium panel for Enterprise. This true-bonded touchscreen is the most sleek, stylish 4K panel on the market. Designed with the latest technology available, capacitive gives the most natural, responsive and accurate touch experience. A true-bonded capacitive screen delivering an end-user experience unmatched by any other display.	The new E-CAP is a blend of two technologies, combining infrared technology, excellent for gesture control, and EMR (Electro Magnetic Resonance), best for accuracy and responsiveness. The combination of IR technology adds the benefit of gesture control using your hand or the choice of finger touch or active stylus depending on your preferred experience.	This high precision infra-red technology. An enhancement on standard technology where our touch frames can now recognise the varied stylus to give the ability to assign different colour to different stylus's or to you stylus and finger. The ultra-precise writing experience and great gesture control is guaranteed.

#### **Remote Management (MDM)**

# Control multiple Clevertouch devices, wherever they are

The Clevertouch MDM system enables help desks, IT administrators and project leaders to centrally manage and support hundreds of Clevertouch devices, wherever they are. Reaching well beyond the local network boundaries, our Centralised Management System delivers a bird's-eye view of an entire device fleet, enabling administrators to give the best support possible with optimal conditions for decision-making.

Extend your support umbrella, control capabilities and manage Clevertouch screens wherever they are located and operating, both inside and beyond the organisation's network. Manage mission critical and complex IT infrastructures and simplify demanding operation and maintenance work on multiple devices.

#### Control hundreds of Clevertouch devices remotely

- Create groups to make sure each screen has the most suitable apps and files for where it is used, such as C-Suite, Design Studios, Maths Class, Reception Class, corporate boardroom, huddle room, etc.
- Take control of the Clevertouch screen from your desktop
- Install APKs, policies and files
- Push messages directly to the Clevertouch display, ideal for security announcements
- Anti-theft module Lock, unlock and reset displays
- Restart or shutdown multiple screen/s remotely by a single click
- Wipe the screen
- Run diagnostics

Optionally, Clevertouch MDM can serve as the basis for managing other devices in the organisation (Android, Windows, iOS and Chrome OS) from a single console, such as desktops, laptops, tablets and smartphones.

#### Instant Updates (OTA)

#### Updates delivered instantly

The new Over-the-Air technology means that new features, bug fixes, software and hardware updates can be seamlessly delivered to every Clevertouch screen.

With just the click of a button the Clevertouch screen will search for the latest firmware update and install it, giving you instant access to the latest apps and features.

Patch fixes no longer have to be downloaded onto a USB and uploaded manually, giving IT Managers more time and less hassle.
