HOUSTON

Hotel Reservations

Attendees are responsible for making their travel and lodging arrangements. In addition, our host hotels provide a *limited* number of rooms for McCoy attendees at a discount. To take advantage of this opportunity, please make your reservations early and let your reservation agent know you are with McCoy's group.

Government Per Diem Rate

For federal employees, most of our hotels set aside a limited number of rooms at the government per diem rate. Visit mccoyseminars.com/schedule.cfm for more information.

Seminar Format and Hours

The RCRA Refresher seminar format is two consecutive days. Sessions begin at 8:00a.m. and end at 5:00p.m.

Meals

An assortment of pastries, breads, and coffee and tea is included and is served from 7:00a.m. to 8:30a.m. on each of the two days of the seminar (snacks are also provided). Catered group lunches are served both days.

Course Materials

Course materials include *McCoy's RCRA Reference*, which contains the full text of 40 CFR Parts 260-280 and Part 148, and *McCoy's RCRA Unraveled*, a guidance manual for the hazardous waste regulations.

In addition, we provide extensive daily course notes that are updated before each seminar. This gives you another valuable resource available only to seminar attendees.

Post-Seminar Tech Support

We value group discussions and we intentionally take the time to answer questions, review case studies, and clarify a range of examples during our seminars. However, if you have questions after completing the seminar, call 303-526-2674 and speak with our technical staff, or send an email to info@mccoyseminars.com.

In general, we're able to respond to questions within a few days, but we appreciate your patience, since the volume of technical questions has steadily increased over the years.

Certification

After completing this public seminar, you'll receive a McCoy certificate indicating hours attended, seminar dates and location, and continuing education units (CEUs) awarded. In addition, certification maintenance points (CMPs) for certified hazardous materials managers, certified industrial hygienists, and limited continuing legal education (CLE) credits are available.

Regarding CLE credits, McCoy and Associates is accredited in Colorado and Texas. However, acceptance of and the ability to transfer CLE credits varies in each state. To obtain accurate information, please contact the Board of Continuing Legal and Judicial Education or Bar Association in your state.

Visit understandrcra.com, click on the certification link, and download our continuing education document for more details.

Cancellations

Cancellations are handled on an individual basis. Please contact us at 303-526-2674 if your attendance plans change.

Guarantee

Your satisfaction is our guarantee. If you are not completely satisfied with a McCoy seminar, simply return the course materials to one of our instructors who will arrange for a full refund of your registration payment.

Onsite Training Opportunities

In addition to our public seminars, we offer two- and three-day RCRA "in-house" seminars conducted at your facility. We'll help train your staff so that everyone has a unified understanding of the regulatory requirements and uses the same compliance reference materials. Call 303-526-2674 to reserve seminar dates.

If you have experience with RCRA, our Refresher is a great choice.

We've taken most of the content in our 5-day RCRA seminar and compressed it into an efficient 2-day framework. This means you'll satisfy your RCRA training requirements in a fast and economical way—and still gain a thorough understanding of these complex regs. That's critical when you need to make tough compliance decisions.

Though the pace is accelerated, we schedule time to answer questions, cover complex examples, and discuss case studies. We bring two instructors so you can listen to the presentation or meet one-on-one with the speaker who's not in front of the group. Our publications and our course notes are smart, well-organized, and detailed. This enables you to concentrate more fully on the lectures. After the seminar, the course materials are a lifeline. And that's a straight line to getting the RCRA answers you need.

Day 1

Rules for Hazardous Waste Generators

We begin with a review of solid and hazardous waste identification and the major exclusions and exemptions that make compliance easier and less expensive. Then we summarize the primary requirements for hazardous waste generators. The day ends with a challenging class-participation case study.

On Day 1, we cover the following topics:

- ☒ Solid and hazardous waste identification;
- ☒ The mixture and derived-from rules;
- ☒ Exclusions and exemptions;
- ☒ 90/180-day accumulation and satellite accumulation;
- ☒ Container standards;
- ☒ Eight ways to treat hazardous waste without a permit;
- ☒ The universal waste regulations;
- ☒ Problem wastes (electronic devices, aerosol cans, wipes);
- ☒ Used oil management;
- ☒ Most common RCRA violations; and
- ☒ Case study.

Day 2

Land Disposal Restrictions and Other Advanced Topics

Day 2 features a comprehensive review of LDR, including treatment standards, underlying hazardous constituents, and paperwork requirements. Remediation issues are covered on this day, helping those involved with site cleanup and demolition. We also provide summaries of new RCRA rules issued in the past two years and take a look at rules under development.

On Day 2, we cover the following topics:

- ☒ Land disposal restrictions, universal treatment standards, and underlying hazardous constituents;
- ☒ Alternative treatment standards for hazardous soil and debris;
- ☒ Dilution rules;
- ☒ The contained-in policy;
- ☒ How spills and spill residues are regulated;
- ☒ Recycling exemptions;
- ☒ Training requirements;
- ☒ Air emission control requirements of Subparts AA, BB, and CC;
- ☒ Corrective action and remediation issues;
- ☒ Significant rule changes during the past two years;
- ☒ Update on future rulemakings; and
- ☒ Case study.

Registration Fee: \$1,050

Include a McCoy Sherpa

- Yes, I'd like to include a *McCoy Sherpa* in my registration fee (\$295 additional)

Our policy is to ship Sherpas when payment is received. Thus, to expedite shipment of your Sherpa, we recommend using a credit card to pay for your registration.
