

# Health & Safety Policy Statement

## General statement of policy

The Board of Directors of Pruce Newman Pipework Ltd. Declares that it is their policy is to achieve and maintain a safe and healthy environment for all whom may be affected by the Company's operations. The promotion and preservation of safety and health and the protection of the environment are of fundamental importance in the conduct of the Company's operations. The board believes that excellence in the management of health and safety is an essential element in its ability to deliver success within its overall business plan.

The Company will maintain and endeavour to continually improve its good record of safe, responsible activity, by the careful planning, organisation, monitoring, control and training of its staff and the application of the best trade practices and codes of conduct. The risks to employees and all others who may be affected by the activities of the Company will be assessed, those assessments reviewed as required and arrangements made to eliminate or control the risks so assessed.

The Company requests, requires and expects all persons who are employed by the Company, contracted to the Company, visiting the Company's premises (or sites of operation), to co-operate with and conform to, the Safety Policy and Procedures of the Company. Also all persons to whom the Company owes a duty of care, or over whom the Company exercises control are also expected to co-operate with and conform to, the Safety Policy and Procedures of the Company.

Mr Graham Newman, MANAGING DIRECTOR, is ultimately responsible for the health & safety programme of Pruce Newman Pipework Ltd. He has nominated Mr Tim Moore, OPERATIONAL DIRECTOR, to deputise in his absence.

The company's Policy and Procedures will be continually reviewed, and revised as required to meet the changing needs of the Company, technical innovation and legislative developments.

In order to ensure that the company's safety management systems are properly structured and independently audited, the company shall continually apply to maintain its OHSAS 18001:2007 accreditation for its Occupational Health and Safety (OH&S) management system for its current scope of "The Fabrication and Erection of Pipework, Steelwork and the Installation of Plant & Equipment".

The full Policy and Procedures are available for inspection at the Company offices at Wymondham and Wickford and at all the company's operational sites.
