Hormann RollMatic Garage Doors

Price list 2019

RollMatic Garage Doors

Universally applicable

Roller garage doors and overhead garage doors open vertically and require minimum space inside the garage. This construction principle means you can make full use of the space inside and in front of the garage. The shape of the garage door opening is not of prime importance when fitting roller garage doors. Whether square, chamfered, with segmental or Norman arch – a Hörmann roller garage door always fits.

With the roller garage door RollMatic the ceiling remains free and can be used for lamps or as an additional storage space. The RollMatic is also available as an external roller garage door for fitting with low headroom and/or sideroom.

The overhead garage door RollMatic OD offers a minimum headroom and is ideally suited for modernisation in tight spaces.

All prices are approximate and subject to a full site survey.

Rollmatic Garage Doors

11 Equally priced colours

The smooth surface of the aluminium profiles looks modern and elegant, a high-quality coating on the inside and outside of the door's surface makes it easy to clean. Hormann Rollmatic laths are 19mm insulated with polyurethane rigid foam for quiet door travel. Hormann offer all of the above 11 colours equally priced.

Decograin Surface Finish

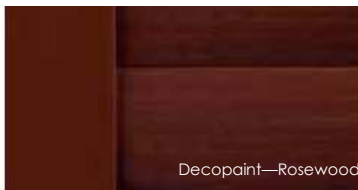

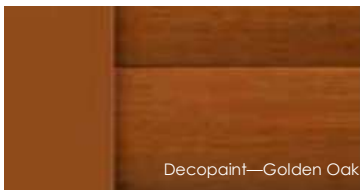

From £308.00 Inc VAT

Decograin is available in two natural-looking timber designs. An embossed wood grain gives it an authentic timber character. The door remains beautiful for a long time thanks to the special surface protection of the UV-resistant plastic film coating on the outside of the steel laths.

All prices are approximate and subject to a full site survey.

RollMatic Garage Doors

Decopaint Surface Finish

The Decopaint decors Golden Oak and Rosewood are an inexpensive alternative to Decograin finishes. The interior and exterior of the profiles are painted to look like timber. An elegant Anthracite Metallic paint is used for the colour Noir 2100 Sablé

Matching Side door

At Hormann, side doors are given just as much consideration, as the overall appearance is only perfect if the side door matches the roller garage door.

The side door NT 60 is thus available in all surface finishes and colours.

The high-quality 60-mm aluminium frame construction is the ideal frame for the door infill and is fastened with glazing beads as standard

From £765.00 Inc VAT

All prices include installation and well as removal of your old door if required.
All prices are approximate and subject to a full site survey.

RollMatic Garage Doors

Reliable counterbalance.

RollMatic doors are especially quiet and subject to minimum wear due to the standard operators with soft start and soft stop. The counterbalance system and the reliable automatic safety cut-out securely stops the door if it encounters an obstacle. For even more protection and safety, we recommend fitting a non-contact photo-cell.

Reliable automatic safety cut-out.

A counterbalance system integrated in the side guides supports the operator during the opening and closing of the door and prevents damage to the operator mechanism. The multiple spring assemblies and the double lifting cables prevent the door leaf from crashing to the floor in every position. In case of emergency, the door can be easily opened by hand.

Compact roller garage door.

Roller garage doors RollMatic are the best choice if the ceiling area of your garage should remain free and if your garages are too small for a overhead garage door or sectional door. The door curtain compactly winds up into the lintel of the door opening, thus allowing you to use the ceiling for lamps or as an additional storage space.

All prices include installation and well as removal of your old door if required. All prices are approximate and subject to a full site survey.
