

Datasheet for Drain cloth: 10-00.003

Features

With decades of filtration experience Filtration Group B.V. has developed a cloth range to give a solution to all your filtration challenges.

Our broad range of drain cloths is developed in such a way that depending on the demanded temperature range, chemical resistance and selectivity the best solution for your process can be chosen.

A drain cloth maximizes the throughput and the lifetime of the top cloth.

Characteristics

- No seam (round weave) - no breaks. This brings stand-down time to a minimum.
- Optimized weave, making the best throughput-cost ratio.
- Packed in plastic bags to prevent the cloths from becoming dirty.
- A sticker on the plastic bag identifies the cloths. Because the identification sticker does not touch the cloth itself there is no risk of ink or glue going into hygienic applications.

Specifications

Cloth code	10-00.003
Cloth use	Drain cloth
Material	PP
Cloth structure	Twill 2/2
Surface treatment	Heat-set @ 130°C
Filter fineness [µm]	270
Air permeability [l/dm ² /min] at 200 Pa	-
Maximum temperature [°C]	90

Approvals

Approved according to 2004/1935/EG, declaration of conformity available on request.

Approved according to FDA, declaration of conformity available on request.

Wash the filter cloth before use.

Recommendations

Use in combination with top cloth 10-XX.XXX.

Order Information

Element type	Length	Ordering Code
Type I	620	-
	750	-
	1000	72415485
	1500	72415493
	2000	-
Type II	1000	-
	1500	72415497
	2000	72415502
	2500	72415505
