

A person wearing a dark polo shirt is seated and holding a red Solo Smoke Aerosol canister in their left hand. The canister is white with a red base and has 'A10s' and 'HC-FREE SMOKE' printed on it. In their right hand, they are holding a black detector testing device with a nozzle pointing towards the canister. The background is a plain, light-colored wall.

**SOLO SMOKE AEROSOLS.  
A NEW RANGE OF CHOICE.**

Approved and used worldwide, our Solo range is the industry's number one choice for functional testing of detectors.

# SOLO A10 & SOLO A5

Following a year of change that saw new regulations and new products introduced, we are pleased to confirm that our full 2018 range of smoke aerosols is now available.

- Detector manufacturer approved
- Fully compliant with latest regulations
- Safe formula – for user and detector
- Compatible with the Solo 330 dispenser

## SOLO A10

**WORKING WHERE NON-FLAMMABLE IS ESSENTIAL?**

Solo A10 is your new solution. Available in the standard 250ml can or as a 150ml - which is similar in price to the Solo A3

## SOLO A5

**THE IDEAL GENERAL PURPOSE TESTER.**

Common with other pressurised aerosols, Solo A5 is a flammable product. Available in a standard 250ml can similar in price to Solo A3.
