Our Private Client Safes Have Been... Forensically Marked!

Insafe and SelectaDNA have teamed up to bring you a complete security solution to protect your safe.

All our Private Client safes have been marked with a unique and inconspicuous synthetic DNA formula which is virtually impossible to remove.

By registering your safe on the Police and Insurance Approved Secure Asset Register, if your safe is stolen and later recovered, police from around the world will be able to quickly and easily identify it and return it to you.

**FORENSIC DNA

Property Marking Kits.

NON-EVASIVE PROTECTION FOR: Jewellery • Watches • Fine Art • Antiques • Sentimental Items
Mobile Phones • Bikes • Garden Equipment • Sun Glasses • Valuables... and so much more!

As well as marking and protecting your safe Insafe also offer a fully comprehensive synthetic DNA security solution to protect your jewellery, fine art and valuables in a Property Marking Kit.

Working in conjunction with our safe, the forensic marking kit offers the world's most powerful crime prevention solution. The kit has been designed to mark items of value with an inconspicuous, unique, synthetic DNA formula which is virtually impossible to remove.

Instructions are included in the kit for you to register your marked possessions on the Police and Insurance Approved Secure Asset Register. Then if the worst should happen and your marked possessions are lost or stolen, but are later recovered, police from around the world will be able to identify them and return them quickly and easily.

The pack also contains warning stickers to deter thieves and warn them that your possessions are protected.
