Product Kettle Buster

Revision date 08 October 2018

Revision 1

# **Safety Data Sheet (SDS)**

# Section 1: Identification of the substance/preparation and of the company/undertaking

### 1.1 Product identifier

Product name Kettle Buster

**Synonyms, Trade names** No information available.

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Identified uses** No specific uses identified.

**Uses advised against**No uses advised against are identified.

# 1.3 Details of the supplier of the safety data sheet

**Supplier** Wes-Chem Products International Ltd.

Drumduffy Drumkeeran Co. Leitrim N41 T998 Ireland

Tel: 071 96 22555 info@weschem.ie

Contact person

1.4 Emergency telephone number

**Emergency telephone** Emergency medical information: 8am-10pm (seven days) contact National Poisons

Information Centre, Beaumont Hospital, Dublin 9. Tel 01 8092566

# **Section 2: Hazards identification**

# 2.1 Classification of the substance or mixture

Classification (EC 1272/2008)

Physical and chemical hazards Not classified

Human health Skin Corr. 1B - H314, Eye Dam. 1 - H318

Environment Not classified

# 2.2 Label elements

Contains phosphoric acid ... %, orthophosphoric acid ... %

Label in accordance with (EC) no. 1272/2008

Signal word Danger

**Hazard statements** H314 Causes severe skin burns and eye damage.

Precautionary statements Prevention

P260 Do not breathe dust/fume/ gas/mist/vapours/spray.

P280 Wear protective gloves/ protective clothing/eye protection/face protection.

Response

 ${\tt P303 + P361 + P353 \ IF \ ON \ SKIN \ (or \ hair): Remove/Take \ off \ immediately \ all \ contaminated}$ 

clothing. Rinse skin with water/ shower.

P304 + P340 IF INHALED: Remove victim to fresh air and keep at rest in a position

comfortable for breathing.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER or doctor/physician.

### 2.3 Other hazards

None known.

## **Section 3: Composition/identification of ingredients**

#### 3.1 Substance

Not applicable.

### 3.2 Mixtures

Name	Product identifier	Reg. EU 1272/2008	%
phosphoric acid %, orthophosphoric acid %	CAS-No.: 7664-38-2 EC No.: 231-633-2	Skin Corr. 1B - H314	30-60%

The full text for all hazard statements are displayed in section 16.

**Composition comments** The data shown are in accordance with the latest EC Directives.

# **Section 4: First aid measures**

## 4.1 Description of first aid measures

**General information** Provide general first aid, rest, warmth and fresh air. As a general rule, in case of doubt or if

symptoms persist, always call a doctor. Seek medical attention for all burns and eye injuries, regardless how minor they may seem. First aid personnel must be aware of own risk during

rescue.

**Inhalation** Remove person to fresh air and keep comfortable for breathing. If not breathing, give

artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.

**Ingestion** If this product is ingested, remove victim immediately from source of exposure. Rinse mouth

thoroughly. Do not induce vomiting. Provide fresh air, warmth and rest. Get medical

attention. Never give anything by mouth to an unconscious person.

**Skin contact** Remove victim immediately from source of exposure. Remove contaminated clothing, shoes

and jewelry and wash before reuse. Wash the skin immediately with water. Obtain medical

attention if irritation persists or if blistering occurs.

**Eye contact** Do not rub eye. If this product contacts the eyes, gently flush eyes with water for at least

fifteen (15) minutes, lifting the upper and lower eyelids occasionally. Remove contact lenses if present and easy to do so. Avoid contaminating unaffected eye. Seek medical attention.

### 4.2 Most important symptoms and effects, both acute and delayed

**General information** The severity of the symptoms described will vary dependent on the concentration and the

length of exposure.

**Inhalation** Inhalation of mist or vapor may cause respiratory tract irritation. There may be shortness of

breath with a burning sensation in the throat. Exposure may cause coughing or wheezing. Exposure to liquid product may cause moderate to severe irritation and possible burns to

inner linings of mouth, esophagus and gastrointestinal tract.

Skin contact Contact with liquid and mist may result in skin irritation and burns. Progressive ulceration

will occur if treatment is not immediate.

Eye contact Extreme irritation of eyes and mucous membranes, including burning and tearing. Corneal

burns may occur. May cause permanent damage.

# ${\bf 4.3\ Indication\ of\ any\ immediate\ medical\ attention\ and\ special\ treatment\ needed}$

**Notes to the physician** Treat symptomatically.

### **Section 5: Fire-fighting measures**

### 5.1 Extinguishing media

Ingestion

**Extinguishing media**Use extinguishing media appropriate for surrounding fire - Dry chemicals, CO2, foam, water-

spray.

Unsuitable extinguishing media None noted.

### 5.2 Special hazards arising from the substance or mixture

Hazardous combustion products When heated, toxic and corrosive vapours/gases may be formed. During fire, toxic gases (CO,

CO2) are formed.

Unusual fire & explosion hazards

Specific hazards

No unusual fire or explosion hazards noted. If heated, harmful vapours may be formed.

### 5.3 Advice for firefighters

**Special fire fighting procedures** If possible, fight fire from protected position. Avoid breathing fire vapours. Ventilate closed

spaces before entering them. Containers close to fire should be removed immediately or

cooled with water if safe to do so.

**Protective equipment for firefighters** Fire-fighters should wear appropriate protective equipment and self-contained breathing

apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard

EN 469 will provide a basic level of protection for chemical incidents.

### Section 6: Accidental release measures

# 6.1 Personal precautions, protective equipment and emergency procedures

**Personal precautions** Wear protective clothing as described in Section 8 of this safety data sheet. Provide

adequate ventilation. Eliminate all sources of ignition. Avoid inhalation of vapours and contact with skin and eyes. In case of inadequate ventilation, use respiratory protection. Do not touch or walk through spilled material. If necessary evacuate surrounding areas.

For emergency responders Follow safe handling advice and personal protective equipment recommendations for normal

use of product.

### **6.2 Environmental precautions**

**Environmental precautions** Do not discharge onto the ground or into water courses.

### 6.3 Methods and material for containment and cleaning up

Spill clean up methods Stop leak if possible without risk. DO NOT touch spilled material! When dealing with a

spillage, wear necessary protective equipment. Eliminate all ignition sources. Ventilate and evacuate the area. Absorb spillage with non-combustible, inert absorbent material. Ensure that waste and contaminated materials are collected and removed from the work area as soon as possible in a suitably labelled container. Wash thoroughly after dealing with

a spillage. Use non - metallic tools/containers for clean up.

# 6.4 Reference to other sections

**Reference to other sections** See section 1 for emergency contact. For personal protection, see section 8. For waste

disposal, see section 13.

# **Section 7: Handling and storage**

# 7.1 Precautions for safe handling

**Handling** Read and follow manufacturer's recommendations. Use proper personal protection when

handling (refer to Section 8). Do not handle broken packages without protective equipment.

Do not use contact lenses.

Keep away from heat, sparks and open flame. Avoid spilling, skin and eye contact. Do not eat, drink or smoke when using the product. Wash thoroughly after handling. Do not mix with other chemicals. Avoid contact with metals. To dilute, always pour the acid carefully into the water – never pour water into acid.

# ${\bf 7.2\ Conditions\ for\ safe\ storage,\ including\ any\ incompatibilities}$

**Storage precautions** Keep upright, locked up and out of reach of children. Keep the product in its original

container. Store in cool dry areas away from direct sunlight or sources of ignition. Keep

away from incompatible materials (see section 10).

**Storage class** Corrosive storage.

7.3 Specific end use(s)

**Specific end use(s)**The identified uses for this product are detailed in Section 1.2. **Usage description**Use only according to directions. Replace and tighten cap after use.

## Section 8: Exposure controls/Personal protection

### **8.1 Control parameters**

Component	STD	TWA (8 Hrs)		STEL (15mins)		Notes
phosphoric acid %, orthophosphoric acid %	OEL		1 mg/m <sup>3</sup>		2 mg/m <sup>3</sup>	

**Ingredient comments** 

Ireland, Occupational Exposure Limits 2018.

## **8.2 Exposure Controls**

### **Protective equipment**

**Engineering measures** Provide adequate ventilation, including appropriate local extraction, to ensure that the

defined occupational exposure limit is not exceeded.

**Respiratory equipment** If ventilation is inadequate, suitable respiratory protection must be worn. EN

 $136/140/145/143/149. \ The \ specific \ respirator \ selected \ must \ be \ based \ on \ contamination \ levels \ found in the \ work \ place. \ Where \ risk \ assessment \ shows \ air-purifying \ respirators \ are$ 

appropriate a full face respirator conforming to EN143 should be used, and suitable respirator cartridges as a backup to engineering controls.

**Hand protection** Where hand contact with the product may occur the use of gloves approved to relevant

standards (e.g. Europe: EN374) is recommended. (EU Directive 89/686/EEC). Gloves must be inspected prior to use. Consult manufacturer for advice. Selection of the glove material depends on consideration of the penetration times, rates of diffusion and degradation, and concentration specific to the workplace. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory

practices.

**Eye protection** Wear safety goggles or face shield to prevent any possibility of eye contact. Use equipment

for eye protection tested and approved under appropriate government standards such as EN

166(EU).

**Other protection** Wear appropriate clothing to prevent skin contact. Acid resistant protective clothing. The

selected clothing must satisfy the European norm standard EN 943. Personal protective equipment for the body should be selected based on the task being performed and the risks

involved and should be approved by a specialist before handing this product.

**Hygiene measures** Observe normal hygiene standards. Wash promptly if skin becomes contaminated. When

using do not eat, drink or smoke. Wash hands after use.

**Process conditions** Ensure that eye flushing systems and safety showers are located close by in the work place.

# **Section 9: Physical and chemical properties**

### 9.1 Information on basic physical and chemical properties

AppearanceLiquid.ColourPale purple.

**Odour** No odour information available.

Odour threshold - lower No information available.

**Odour threshold - upper** No information available.

pH-Value, Conc. Solution 1 - 2

**pH-Value, Diluted solution** No information available.

Melting point No information available.

Initial boiling point and boiling

range

No information available.

Flash point No information available.

**Evaporation rate** No information available.

Flammability state No information available.

Flammability limit - lower(%) No information available.

Flammability limit - upper(%) No information available.

Vapour pressure No information available.

Vapour density (air=1) No information available.

Relative density 1.24 kg/l

**Bulk density** No information available.

**Solubility** No information available.

**Decomposition temperature** No information available.

Partition coefficient; n-

Octanol/Water

No information available.

**Auto ignition temperature (°C)** No information available.

Viscosity No information available.

**Explosive properties** Not classified as explosive.

Oxidising properties No information available.

9.2 Other information

Molecular weight No information available.

**Volatile organic compound** No information available.

**Other information** None noted.

# Section 10: Stability and reactivity

10.1 Reactivity

**Reactivity** Stable under normal conditions.

10.2 Chemical stability

**Stability** Stable under normal temperature conditions and recommended use.

10.3 Possibility of hazardous reactions

**Hazardous reactions** None under normal processing.

**Hazardous polymerisation Polymerisation description**Will not polymerise.
Not applicable.

**10.4 Conditions to Avoid** 

Conditions to avoid Heat, sparks, open flames, temperature extremes and direct sunlight.

### 10.5 Incompatible materials

Materials to avoid Avoid strong oxidising agents. Strong acids.

## 10.6 Hazardous decomposition products

Hazardous decomposition products Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or

vapours

### **Section 11: Toxicological information**

### 11.1 Information on toxicological effects

**Toxicological information** No toxicological information for the overall finished product.

Acute toxicity (Oral LD50)

Acute toxicity (Dermal LD50)

Acute toxicity (Inhalation LD50)

No information available.

No information available.

**Serious eye damage/irritation** Causes severe skin burns and eye damage.

**Skin corrosion/irritation** No information available.

Respiratory sensitisationNo information available.Skin sensitisationNo information available.

**Germ cell mutagenicity** No information available.

**Carcinogenicity** No information available.

Specific target organ toxicity - Single exposure:

**STOT - Single exposure** No information available.

**Specific target organ toxicity - Repeated exposure:** 

**STOT - Repeated exposure** No information available.

**Inhalation** Inhalation of mist or vapor may cause respiratory tract irritation. There may be shortness of

breath with a burning sensation in the throat. Exposure may cause coughing or wheezing.

**Ingestion** Exposure to liquid product may cause moderate to severe irritation and possible burns to

inner linings of mouth, esophagus and gastrointestinal tract.

Skin contact

Contact with liquid and mist may result in skin irritation and burns. Progressive ulceration

will occur if treatment is not immediate.

Eye contact Extreme irritation of eyes and mucous membranes, including burning and tearing. Corneal

burns may occur. May cause permanent damage.

Waste management When handling waste, consideration should be made to the safety precautions applying to

handling of the product.

**Routes of entry** No information available.

**Target organs** Eyes and skin.

**Aspiration hazards:** No information available. **Reproductive toxicity:** No information available.

## **Section 12: Ecological information**

## **12.1 Toxicity**

Acute toxicity - Fish

Acute toxicity - Aquatic invertebrates

No information available.

Acute toxicity - Aquatic plants

Acute toxicity - Microorganisms

Chronic toxicity - Fish

Chronic toxicity - Aquatic

No information available.

No information available.

No information available.

invertebrates

Chronic toxicity - Aquatic plants
Chronic toxicity - Microorganisms
No information available.
No information available.

**Ecotoxicity** No Ecological information on the finished product.

**Eco toxilogical information** No ecological toxicity available on the overall finished product.

### 12.2 Persistence and degradability

Degradability

Biodegradable.

Biological oxygen demand Chemical oxygen demand No information available. No information available.

12.3 Bioaccumulative potential

Bioaccumulative potential Bioaccumulation factor

No bioaccumulation potential. No information available.

Partition coefficient; n-

No information available.

Octanol/Water

12.4 Mobility in soil

**Mobility** 

Readily absorbed into soil.

## 12.5 Results of PBT and vPvB assessment

Results of PBT and vPvB assessment This product is not identified as a PBT/vPvB substance.

### 12.6 Other adverse effects

Other adverse effects

Negligible ecotoxicity.

## **Section 13: Disposal considerations**

Waste management

When handling waste, consideration should be made to the safety precautions applying to

handling of the product.

# 13.1 Waste treatment methods

Disposal methods

Dispose of waste and residues in accordance with local authority requirements.

# **Section 14: Transport information**

# 14.1 UN number

 UN no. (ADR)
 UN3264

 UN no. (IMDG)
 UN3264

 UN no. (IATA)

### 14.5 Environmental hazards

ADR No IMDG No IATA No

### 14.6 Special precautions for user

EMS F-A, S-B
Emergency action code A3 A803
Hazard no. (ADR) 80
Tunnel restriction code (E)

### 14.7 Transport in bulk according to annex II of MARPOL73/78 and the IBC code

Not applicable.

# **Section 15: Regulatory information**

## 15.1 Safety, health and environmental regulations/Legislation specific for the substance or mixture

EU legislation Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16

December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 with amendments. The UN Globally Harmonized System (GHS) Safety Data Sheet format (Annex IV) is implemented as Annex II of REACH EU No 453/2010 of 20th

May 2010 amending regulation (EC) No 1907/2006.

Approved code of practice 2018 Code of Practice for the Chemical Agents Regulations in accordance with section 60 of

the Safety, Health and Welfare at Work Act 2005 (No. 10 of 2005).

**Chemical safety assessment** No chemical safety assessment has been carried out.

## **Section 16: Other information**

General information This Safety Data Sheet is in accordance with Reach Regulation (EC) No 453/2010.

**Revision comments**This is a first issue. **Revision date**08 October 2018

Revision

Safety data sheet status Approved.

# **Hazard statements in full**

H314 Causes severe skin burns and eye damage.

### Disclaimer

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
