

RÄUM
ALUMINIUM WINDOWS AND DOORS

WELCOME

The RÄUM brand signifies luxury and ultimate style, giving you confidence all RÄUM products are designed to offer superior aesthetics, operate smoothly, and are also built to last. As such, RÄUM is positioned at the high-end of the door market, where there is high demand for systems which embrace innovation, luxury and performance.

All RÄUM products come covered by our comprehensive **10-Year Manufacturing Guarantee** – including locks, handles, profiles, laminates, and all other components used in the finished product.

INTRODUCING
THE NEW
STANDARD
IN GLAZING

High performance meets stand-out aesthetics with RÄUM: A new premium collection of products aimed at the high-end of the home improvement market. Influenced by the German word for 'space', RÄUM encapsulates superior quality, functionality and style to raise the bar in standards for double and triple glazed solutions.

When it comes to installation, we've got you covered – members of our RÄUM Registered Installer Scheme have been rigorously trained, assessed and vetted to give you complete peace of mind, and ensure your project is completed to the very highest standards. All of our registered installers carry the industry-approved MTC Skills Card.

We hope this brochure gives you plenty of inspiration for your next home improvement project – and if you'd like any more information, please don't hesitate to give your Registered RÄUM Installer a call.

SECURITY

Your home and your family are the most precious things in life, so never compromise on security. RÄUM doors are designed with enhanced security features to keep out even the most determined intruders. All products have been rigorously tested and are Secured by Design accredited.

PANORAMIC VIEWS

Our range of RÄUM aluminium doors will complement your home with striking panoramic views. The slim aluminium profiles are designed to give you a structurally sound product that will last for many years and requires minimal maintenance.

PERFORMANCE

RÄUM offers you a wide and diverse range of windows and doors that will provide structural integrity, weather performance, thermal enhancement and security. RÄUM windows and doors comply with and in many cases exceed current building regulations. U values as low as 1.1 depending on size, configuration and sealed unit performance.

GUARANTEE

All RÄUM aluminium windows and doors come covered by our comprehensive **10-Year Manufacturing Guarantee** – including locks, handles, profiles, laminates, and all other components used in the finished product.

COLOUR & FINISHES

There are literally hundreds of colours to choose from and you can have a different colour inside and out. You can choose between a matt or gloss finish, or opt for our special Coatex finish. You can even choose one of our realistic wood effect finishes if you prefer.

We offer three colours as standard, Black, White and Grey as well as any RAL colour finishes to order

COATEX PREMIUM FINISH

Low maintenance, scratch resistant, metallic Coatex finish available in 4 colours as standard.

RÄUM BI-FOLDING DOORS

Uncompromising design and performance

It's simple and effortless to fold back a wall of bifold door leafs and let guests wander freely between your home and garden. Then, if the weather is changeable, the bifold doors can be partially or fully closed – and opened again – quickly and without fuss.

Truly bespoke bifolding doors

For those who demand the absolute best, our bifolding doors can be designed to fit almost any space, size, or configuration. Industry-leading maximum sizes facilitate the design of bifolding doors up to a very impressive 3m in height, and that is just the start. The flexibility of our design means we can create solutions with a single traffic door.

Truly bespoke bifolding doors

RÄUM offers a sleek contemporary appearance, smooth functionality and optimal performance in air and weathertightness. This style can be used to replace an existing patio or French door or used to open up entire walls, with 2 to 7 panel combinations creating entranceways up to 7m across.

A must-have home improvement product

The RÄUM is favoured for its ability to completely open up a room to outside, flooding it with light and creating the sense of increased height and space. Can be configured in left, right and split openings, with a traffic door option available for easy access to outside without having to fully slide open the door.

RÄUM BI-FOLDING DOORS

Superior air, wind and water resistance up to 600pa

U-Value 1.1W/m2K

Wide-span designs achievable up to 3m high and 7m wide

Smooth functionality; high-spec steel rollers means door can be opened and closed in seconds

Glazing thickness between 12mm and 55mm can be accommodated including triple glazing

BI-FOLDING DOOR HANDLE OPTIONS

STANDARD HANDLE OPTIONS

The Standard Bi-Fold Handles and hinges are available in 5 colour finishes:

- Satin Silver
- Chrome
- Anthracite Grey
- Black
- White

All with hinges and intermediate door handles to match.

PURITY HANDLE OPTIONS

For people who desire the ultimate in design, RÄUM offers the Purity handle range. This range is designed by Italian designer, Leo De Carlo, and they are 100% hypo-allergenic, 100% non-corrosive - perfect for any environment. Available in 4 stunning finishes.

Purity Handle

LIFT & SLIDE DOORS

If you want to keep at the cutting edge of what is possible in the world of sliding doors, then look no further than the RÄUM Lift and Slide Door

Combining uninterrupted views, flexible design and fantastic aesthetics the RÄUM Lift and Slide Door also has an impressive specification. Despite the slim sightlines the RÄUM Lift and Slide Door carries up to 300kg of weight allowing you to span large apertures with fewer panels and reach heights of up to 2700mm. The size of double or triple glazed units does not affect the smooth single finger operation of the opening mechanism, and creates beautiful light open spaces.

The cornerless opening allows you to open up the interior of a property like never before and creating a breathtaking architectural statement.

Lift & Slide
Cornerless Sliding Door

LIFT & SLIDE DOOR SYSTEM

Customise your Door

The RÄUM Lift and Slide 130LS is available in the full RAL range of colours with dual colour also available as well as Coatex textured finish and a selection of designer handles the doors can truly be customised.

Choose High Performance

Together with high energy performance and the stylish customisable looks, our doors make an excellent solution for the low-energy contemporary architecture.

LIFT & SLIDE DOORS ENVIRONMENTAL ENHANCEMENTS

SECURITY

Your home and your family are the most precious things in life, so never compromise on security. RÄUM doors are designed with enhanced security features to keep out even the most determined intruders. All products have been rigorously tested and are Secured by Design accredited.

INSULATION

Our exclusively designed polyamide thermal break system and multi-chambered profile enables us to achieve industry-leading thermal performance in all our aluminium windows and doors. Combine this with high performance glazing and our sliding patio doors will help keep your house cosy and warm.

DESIGN OPTIONS

Choose from a comprehensive range of designs using one, two or even three tracks with multiple sliding doors. Our sliding doors come in industry-leading maximum sizes, maximising the glass area and giving you unobstructed views.

SAFETY

Class one safety glass (that complies with Building Regulations part N) is fitted as standard to all our doors, which means that if it breaks there are no dangerous shards of glass to worry about.

COLOUR & FINISHES

There are literally hundreds of colours to choose from and you can have a different colour inside and out. You can choose between a matt or gloss finish, or opt for our special Coatex finish. You can even choose one of our realistic wood effect finishes if you prefer.

We offer three colours as standard, Black, White and Grey as well as any RAL colour finishes to order

LIFT & SLIDE DOOR DESIGNS

Choose from a comprehensive range of designs using one, two or even three tracks with multiple sliding doors. Our sliding doors come in industry-leading maximum sizes, maximising the glass area and giving you unobstructed views.

Open-corner option: 2 sliding units open up a corner

The corner option sliding door allows you to invite nature inside, adding an extra dimension to your living area. Two doors glide apart to open up the whole corner with no fixed post to obstruct your view, which help you to create a unique, stylish look and improve the functionality of the room at the same time.

RÄUM ALUMINIUM SLIMLINE WINDOWS

Whether you are building your dream house, designing a new extension, adding roof windows to an existing extension, enhancing an existing room with a picture window, or simply fitting new aluminium windows for their contemporary look, our made-to-measure systems can be designed to meet your specific requirements.

Aluminium window systems are low maintenance

Once fitted, the only maintenance aluminium window systems require is an occasional clean with a damp cloth. They will not rot, rust, or ever need repainting. Fitting a bespoke aluminium window system will not only keep your house looking good, it will keep repair work to an absolute minimum. Simply install them, then sit back and enjoy your home and garden without any further fuss.

Large, sleek windows

Aluminium is an inherently strong material. In fact, it is two and a half times stronger than uPVC. This core strength means aluminium window systems typically have a narrower frame and can support significantly larger areas of glass than plastic or timber-frame equivalents. In essence, fitting an aluminium window system gives you the ability to fit bigger and better looking windows.

WHY CHOOSE RÄUM?

Our aluminium windows are engineered for uncompromising performance and stunning aesthetics, but equally important are the options. As with all our products, you can choose from literally hundreds of colours in matt or gloss finishes, select one of the latest textured metallic finishes or even opt for one of our range of wood-grain effects. You can even have a different colour inside and out.

THE BENEFITS OF RÄUM WINDOWS

DURABILITY

Aluminium is a stable material. It isn't prone to great expansion or contraction as the weather changes and it won't suffer the warping problems common with windows manufactured from other materials. Whatever the weather, aluminium window systems will open and close as intended time and again.

INSULATION

Our exclusively designed polyamide thermal break system and multi-chambered profile enables us to achieve industry-leading thermal performance in all our panoramic windows. Combine this with high performance glazing and our windows will help keep your house cosy and warm. We can even supply a system that achieves the exceptionally demanding Passive House standard.

SECURITY

Our windows are fitted with a state-of-the-art multi-point locking system and our internal glazing bead on sash windows prevents the removal of the glass from the outside. Combined with some clever design, this means our aluminium window systems are amongst the most secure on the market, meeting and often exceeding the requirements for some stringent British and European security standards.

WEATHER PROOFING

A combination of multiple weather gaskets and a rebated frame profile helps to keep out cold draughts. The multiple chambers in both the aluminium profile and the thermal break further help keep the British weather outside.

COLOUR & FINISHES

There are literally hundreds of colours to choose from and you can have a different colour inside and out. You can choose between a matt or gloss finish, or opt for our special Coatex finish. You can even choose one of our realistic wood effect finishes if you prefer.

We offer three colours as standard, Black, White and Grey as well as any RAL colour finishes to order

COATEX PREMIUM FINISH

Low maintenance, scratch resistant, metallic Coatex finish available in 4 colours as standard.
