**WNS PITTSBURGH LOCK SEAM CLOSERS / LOCKERS (SC10) & (SC12)** are the ideal machines for use with Lockformers/Rollformers for closing straight or curved Pittsburgh Lock seams on ducting. They have the ability to close Pittsburgh Lock up to a maximum thickness of 1.25mm mild steel on the SC12 and a maximum of 1.0mm on the SC10, automatically adjusting in accordance to the sheet thickness. The Seam Closers / Lockers are powered by a 1400 watt speed adjustable motor, enabling the user to achieve high quality and tightly joined seams with ease.

SPECIFICATIONS					
Model:	Maximum Thickness:	Flange Height:	Working Speed:	Minimum Inner Radius:	Minimum Outer Radius:
SC10	0.50mm - 1.0mm	9.0mm - 11mm	4.0m - 7.0m/min	150mm	300mm
SC12	0.75mm - 1.2mm	11mm - 13mm			
Motor Power:	Supply Voltage:	Length:	Width:	Height:	Weight:
1400 Watts, 50/60Hz	240v, Single Phase	220mm	170mm	430mm	5.4Kg
