## Commercial and Industrial Door Systems

Whether you are looking for a new door system installation or you need to have your doors serviced or repaired to comply with the latest Health and Safety and Work Equipment regulations, you need to be able to call upon the services of reliable and knowledgeable door engineers to help you ensure you make the right choices.

### Design & Installation

There are many variables to which type of door or shutter system best suits your needs and premises, not to mention the regulatory requirements that you need to understand to ensure the safe and free movement of people, goods and materials through your doors.

Our knowledgeable and experienced surveyors will help you design a solution to meet your exact needs and our fully qualified installation engineers will install, test and train your operatives on the health and safety and operation of your new doorset installation.

**Call 0800 1444 338 for Free survey**

### Emergency Repair

Door and shutter systems fail! Door and shutter systems get damaged!

When this happens to you, you need the comfort of knowing that your doors or shutters will be secured or repaired within a few hours.

Anglia Door Systems Limited offer a comprehensive 24 hour 7 days a week service for the repair and maintenance of all doorsets. We offer a fast response to your service call with engineers based in key areas around the East Anglia region.

**Call 0800 1444 338 24hrs a day.**

### Service & Maintenance

Door systems comprise of many complex parts that can be subjected to constant wear and tear.

Regular servicing and maintenance of your door system is a requirement of the

Workplace (Health, Safety and Welfare) Regulations 1992 (applies to all doors)

and

The Provision and Use of Work Equipment Regulations 1998 (applies to powered doors & shutters)

In addition, the regular service and maintenance of your doors can prolong its' life and identify issues before they become a real problem.

All our engineers are trained in the service and maintenance of many types of door systems and knowledgeable in the provisions of the regulations as they are applied to different door systems, allowing them to provide you with the advice you need for the best possible maintenance of your doors.

*"I was surprised at how fast you guys were able to come round and do all the work. The whole thing was completely painless and a lot less than I was expecting. Thank you very much indeed."*

David Charles - Cambridge

*"When our Roller Shutter Door broke down on us, Anglia Doors had an engineer to us very quickly and the door repaired and working again within the day. Saving us the worry of how we were going to secure the site overnight."*

Mary Chapman - Kings Lynn

# Anglia Door Systems Ltd
