self build

.....we can help you to create your **dream** home.

We can help you:

- with the selection and **purchase of a site**, in terms of access and service infra-structure.
- with the **placement of the building** on the site, topography, maximised views, shelter.
- with the **arrangement of accommodation** to win the greatest spatial benefit at optimum cost.
- with the selection and utilisation of the **most effective passive energy systems** for your location.
- to reduce or eliminate **your fuel bills**.
- to create a **zero energy** house
- to choose a structural system that is **easy to assemble**.
- to create clear and **easy to understand constructional details**.
- to choose **ecologically benign materials**.
- to manage the **budgeting and cost** of the project.
- to find **reliable consultants and tradesmen**.
- to **manage the construction** contract as and when necessary.
- to maximise **natural light and ventilation**.
- to build a symbiotic relationship with **the context and landscape**.

.....to add **delight** each new day, to life in your family home.
