{ 8TH ANNIVERSARY }

# The Hoste annual supercar event

The Hoste in Burnham Market once again welcomed millions of pounds worth of cars to the annual classic and supercar event. Now celebrating its eighth year, the list of cars for this year's event was impressive, encompassing everything from rare legends such as the 4.5 litre Bentley blower to some of the most indulgent modern supercars such as the Ferrari 458 Spider and the iconic Aston Martin DB5. More than

40 vehicles both modern and vintage worth an estimated £20 million attended this year's event from all over the country. The event raised more than £2,000 for Wells Community Hospital and will go towards maintaining the wide range of flexible and integrated health and wellbeing services it provides for the community it serves, such as preventative clinical services and non-clinical therapeutic support. ♦
