**WNS 20swg (1.0mm) FLANGE FOLDER** is the ideal machine when forming regular sized flanges. Designed to create a right angle flange on pre-cut sheet, this machine provides quick and easy folding of material up to 1.0mm thickness (mild steel). There is no need to keep measuring, nor clamping. The WNS Flange Folder also has the advantage of being 'open ended' allowing the user to also form inside flanges. Ideal for use with Pittsburgh Lock Rollformers.

SPECIFICATIONS				
Model:	Folding Length:	Maximum Thickness:	Minimum Flange:	Maximum Flange:
FF20	1000mm	1.0mm	7.0mm	25mm
Length:	Width:	Height:	Weights - net/gross:
