

VPM400 – Video Plate Mounter

Accurate Plate Mounting Optimizes Workflow Efficiency

To support workflow optimization, the VPM400 was designed with Business Responsive Technology providing you high-quality video plate mounting at a cost-effective price. With new camera locations, an advanced video system and adjustable mounting table, accurate plate mounting has never been faster. All with the heavy-duty construction and durability you expect from Mark Andy.

Features

- Dual HD cameras
- HD flat screen monitors
- Adjustable mounting table
- Precision camera and plate cylinder mounting rails
- LED lighting mounted directly to the camera
- Conveniently located tape holder
- Laser pointer for quick alignment

Benefits

- Enhanced verification capability
- Reduced waste
- Faster changeovers
- Increased productivity
- Complements Lean manufacturing initiatives

Technical Details
