

ALL NEW PAEDIATRIC FEET

AllPro Junior

The new AllPro Junior foot from Fillauer is an all-in-one foot, allowing users to switch between daily activities and high impact sports. This truly versatile foot can be worn in everyday and sporting shoes meaning patients can work and play like a pro.

Features and Benefits

Carbon composite design for dynamic response

High energy return

Adjustable heel bumpers

Rocker toe for easy and smooth roll-over

Multiaxial function

Compatible with standard 22mm pylons

Run, jump and play with the NEW AllPro Junior from Fillauer!

The AllPro foot allows the user to seamlessly transition between low and high level activities due to its impressive design build. The flexibility yields exceptional plantar and dorsiflexion allowing for a smooth walking gait, whilst the carbon composite design provides the user with a high energy return. This means a child doesn't need to worry about swapping limbs; they can use one foot to run, jump and play.

Clinicians can be assured their patient is using a durable foot which allows them to function to the highest level possible.

MEET THE NEW **KID** ON THE BLOCK

RUSHKID™ provides the most realistic and responsive foot and ankle motion available. Made from advanced engineered glass composite, it is 3x more flexible than carbon fibre feet. The energy return of this foot enables amputees to easily traverse the most aggressive terrain.

Features and Benefits

Smooth roll-through

Dynamic toe-off

Most durable low-profile foot available

Extremely flexible

Linear heel response

Virtually indestructible

Saltwater proof
