

Case Study

Project: Motor Factor New Depot **Location:** Hampshire

sde were employed to fit out a new office unit within a new Motor Factor located Hampshire.

Works included the installation of internal dry lining and partitions, internal doors and ironmongery, floor, wall and ceiling finishes, fixtures & fittings, modifications / validation of existing mechanical and air conditioning installations, modifications of existing electrical and fire alarm installations, together with security installation, and builders work in connection with services.

Overall the space is warm, welcoming and practical without being too ostentatious.
