

Bakery industry: high stacking, total safety (refs. 21014 and 20016 with Biopal pallets).

Standard logistics

- Standard modular dimensions for palletisation on 600 x 800 mm, 800 x 1,200 mm and 1,000 x 1,200 mm pallets.
- Inter-stacking containers for building compact and stable loads.
- Vertical sides provide maximum useable volume.
- Reinforced corners for absolute safety when transporting heavy loads
- Smooth base for silent movement on conveyors
- Solid or ventilated base and sides for many applications.
- Ergonomic handles for effective manual handling.

Electronic equipment: adapts to mechanised work stations (ref. 2A045).

Vegetable distribution: constant tare and protection of produce (ref. 21064).

Pharmaceutical industry: storage and handling of fragile products in absolute safety (container ref 21006 and lid ref. 61020).
