

EXPERIENCE
the colours of life
with our a first-class
outdoor spas

OUR STORY

- **INNOVATION.** We put much effort at constant improvement by continued collaboration with one of the country's leading universities (Kaunas University of Technology). Our latest projects include 3D-printed Bluetooth thermometer and 3D visualization technologies that help clients to better understand and select their preferable SPA model. Leadership in client management. Sophisticated client management systems that we utilize enable us to undergo the process of establishing ISO 9001 standard. Being among 5 % of the strongest financial enterprises in the local market, we pay much attention to being ISO accredited and acknowledged company at European level.
- **NO HARD SELLING STRATEGY.** The main priority for us is to first educate the client so one can be an expert before acquiring the hot tub. We always update our websites with new SPA models, frequently asked questions and provide some useful insights in the current local market situation.
- **VAST SELECTION OF OUTDOOR SPA.** We are happy to offer one of the biggest and most customizable SPA selections online. One can choose from more than 20 different hot tub models, 6 different outdoor wooden buildings and saunas as well as 5 differently designed wood fired hot tub heaters.
- **QUALITY AND TRUST.** Quality is obtained throughout years of experience. We thank each and every one of you who put your trust in us. Whether you are from the UK, Germany, France, the Netherlands, Belgium, Denmark, Italy, Norway or Sweden you are not alone. We have happy customers throughout Europe. But don't believe us blindly, visit us at www.timberin.com, select your current location and ask us to share certain contacts to verify the reviews! Sounds fair? Yes, it does!
- **TOP NOTCH CUSTOMER SERVICE.** Rest assured that only highly educated and professional persons will assist you in every step of the purchase. We believe that customer service is one of the most important ingredients in a successful business therefore we put education first! As Mr. Horst Schulz, CEO of Starbucks once said "Unless you have 100% customer satisfaction, you must improve", so we are constantly improving.

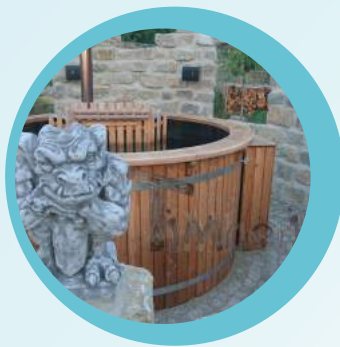

Dr. Albertas Klovas, CEO for TimberIN MB

WOODEN HOT TUBS AND SAUNAS

For Relaxation and Family Fun

- ▶ Here at TimberIN we strive for harmony between outstanding quality and competitive pricing. Bathing in our hand-crafted hot tubs or relaxing in our rustic saunas is sure to become your favourite past-time!

WOOD FIRED HEATERS FOR HOT TUBS

AVAILABLE MODIFICATIONS

WELLNESS

- "Now that it is here, it is wonderful! It has been very difficult to get my wife out of the hot tub for the past week since it has arrived, and many family members have also come over to share in the fun!"

Family Palmer, Rowledge, UK

- "The hot tub is exactly what we were looking for and the build quality is fantastic."

Family Gow, Onsch, Scotland

- "In the early evening with snow falling all around it is a truly magical experience. A huge thank you to you and your team!"

*Family Gold,
Le Grand Bornand, France*

Timberin

◆ My guests and friends just love it, and it has been in use almost continuously since the guys delivered it and I had a chance to fill and heat it. I can really recommend Timberin."

*Family Clarke,
High Swinside Holiday Cottages, UK*

◆ "The kids have already enjoyed the tub, and love it. We are sure we will get years of use from the tub on starry nights in winter and summer, both relaxing with friends or having fun with the kids; the simplicity of the workmanship makes it an attractive addition to our outdoor space. Thank you."

Family Jones, Bovington Herts, UK

◆ "The tub is well used by all the family. It is far easier to use than we expected."

Family Mackay, Midlothian, Scotland

WOODEN

- "We are over the moon with our new tub. It was delivered by the nicest delivery guys, it was easy to assemble and within a few hours it was hot enough to use. Already in just over 24 hours the kids have had great fun and the adults have enjoyed sitting under the stars. Even the smell of burning wood wafting over adds to the overall experience. The price is amazing and we will no doubt be buying another for our holiday cottage business very soon. Thank you."

TERRACE MODEL

POLYPROPYLENE

- ◆ The hot tub is an object of beauty. It is very well made and a pleasure to use and look at.

*Family Bandtock,
England/Switzerland*

- ◆ When it arrived, the driver and his assistant were extremely helpful and hard-working with a "challenging" logistical problem of getting the hot tub into my garden. The tub is of high quality and compared to others I looked at it was a very reasonable price. Thank you TimberIN!"

Family Palmer, Rowledge, UK

- ◆ My guests and friends just love it, and it has been in use almost continuously since the guys delivered it and I had a chance to fill and heat it. I can really recommend Timberin."

Family Owen, Gwynedd, UK

- ◆ "I liked the look of Timberin's saunas and was concerned about the practicability of buying from a company I did not know in far away Lithuania. With Albert's help, I arranged a visit to an existing UK customer so that I could see what the products were like. They were better than I had imagined and so the purchase decision was made. I ordered two saunas and the ordering process worked surprisingly smoothly. The entire process went well."

*Family Armstrong
Northamptonshire, UK*

- ◆ "I am just letting you know that we have received our sauna! Many thanks for everything, it looks great! We are very excited to use it and are impressed with the quality of workmanship."

Family Gaz, Garboldisham, UK

SNORKEL HEATER

Internal heater.
Takes up little space yet heats up quickly

- "I have been delighted with the service from TimberIN, great attention to detail and technically superior to others I had examined. The slow grown timber from the north is stronger and looks much better. The guidance given by TimberIN was invaluable in picking the best options. The team at TimberIN from design to flawless delivery was exemplary and I can recommend them."

Family Murray, Galashiels, UK

NEW - 3D PRINTED SMART

Thermometer "TimberTemp®"

We are excited to announce the launch of our new Bluetooth thermometer - a revolutionary accessory to simplify the hot tub water heating process.

This thermometer is a product of our ongoing collaboration with Kaunas University of Technology (KTU) to bring innovations to the field of outdoor spas. The Bluetooth thermometer will be included as a free gift with all of our fiberglass models for a limited time.

The thermometer is accompanied by an app **"TimberTemp®"**, which you can download for free from the Google Play store for Android or from iTunes for iOs devices. Connect the thermometer to your phone through Bluetooth, place it in the tub and follow the temperature changes in the app. The app allows you to set how often you would like the thermometer to report temperature and to set notifications. Say you would like the water to heat up to 38°C.

Simply set this temperature on the app and it will notify you when the water heats up.

This feature is also very useful during the colder months.

If you are worried that water left in the hot tub may freeze overnight, set the temperature to 0°C and you will be notified if it cools down to this temperature and water needs to be emptied

ASSEMBLY

- FULLY ASSEMBLED:** Delivered fully assembled.
- ASSEMBLY KIT:** Delivered flat-packed for DIY assembly.

STAIRS

- BASIC:** Basic stairs.
- A:** A type stairs.
- B:** B type stairs.
- C:** C type stairs.

WOODEN PENNELING

- SPRUCE:** Siberian spruce is a perfect selection for most climates. Light shade.
- LARCH:** Larch is very resistant to insects and decay. Grainy texture. Light shade.
- THERMOWOOD:** Thermowood is processed under high temperatures to seal wood pores. Extremely resistant to decay and deformation. Dark shade.
- OAK:** Oak is a luxurious choice. High water absorbance rate, tends to shrink and expand therefore requires more maintenance. Medium shade.
- RED CEDAR:** Red Cedar is considered the most sustainable building materials. Resistant to warping, shrinking and rot.

BENCHES

- WOODEN:** Completely wooden benches.
- WOODEN SUNNY:** Wooden sunny – arrangement of the bench boards resembles sun rays.
- PP OPEN:** Open PP benches – more feet-space.
- PP CLOSED:** Closed PP benches – eco-friendly choice, less water needed to fill up the hot tub.

LID

- FIBERGLASS:** Only for fiberglass models.
- WOODEN**

LINING TYPE

- WOODEN:** Completely natural experience, no artificial built-in materials used. Requires more maintenance.
- PP:** Smooth polypropylene finish. Highly customisable - 4 size and 3 bench options available. Easy to clean and to maintain.
- FIBERGLASS:** Glossy fiberglass top finish. Easy to clean and very durable. The fiberglass lining is molded to be seamless. One size only.

HEATER

- INTERNAL:** The whole hot tub setup takes up less space.
- EXTERNAL:** More space inside the tub.
- ELECTRIC:** 6kW electric heater, mounted on the wall of the hot tub. Water circulation pump included.

SPA EQUIPMENT

- LED LIGHTS:** Come in 5 interchanging colours – Red, Blue, Green, Yellow, Purple.
- AIR BUBBLE MASSAGE:** 12 jets installed in the walls of the hot tub provide a gentle and soothing massage.
- HYDRO MASSAGE:** 6 powerful jets massage the body horizontally with strong force.
- WATER FILTRATION:** Powerful sand filter unit filter does what no chemical treatment can – filters small particles.

LINING COLOUR

- White**
 - Blue**
 - Grey**
 - Black**
- CHOOSE YOUR RAL:** Choose your colour from the RAL palette (only for fiberglass models)

ACCESSORIES

- WOODEN SILL:** Luxurious wooden sill for added comfort.
- PAINTING IN BLACK:** Black coating for a polished and modern look.
- WOODEN BOX:** Wooden box to cover filtration or air/hydrmassage equipment.
- CHIMNEY PROTECTION:** Stainless steel protection around the chimney against burns.
- LID FOR INTERNAL HEATER:** Stainless steel lid for internal oven to guard it from environmental conditions.
- EXTERNAL WATER TAP:** Ball valve for emptying the tub quickly. Can be connected to a longer hose.

INSULATION

- BOTTOM:** Only for fiberglass and PP models.
- WALLS**
