

Pupil Pay is a manageable and robust cashless system designed to provide a number of EPOS solutions for your Educational Environment.

Pupil Pay will:

- Run on a central server.
- Compile reports
- Allow caterers to claim back free meals from the LEA with report information.
- Manages VAT.
- Monitor the number of meals purchased and track meals to individuals.
- Imports student information and is compatible with SIMS and PASS.
- Reduce free meals stigma and bullying.
- Operate using magnetic swipe card or finger print reader.
- Create individual profiles of students including photographs for identification and security purposes.
- Allow parents to top up credit via the Internet.
- Gives parents control of students eating habits allowing them to allocate money to a students account.
- When used with Parent Pay, Pupil Pay can send nutritional information to each pupils parents so that parents can keep track of their child's eating habits.
- Operate temporary accounts for guests and visitors.
- Provide easy to obtain information.

Pupil Pay

We understand that your student's welfare is top priority, which is why the Pupil Pay EPOS System will give you what you need to create a smooth running, organized and adaptable, cashless system process in a professional and effective manner.

Pupil Pay keeps your student's wellbeing at the center of the systems operations, giving you and your catering staff the solutions you need to keep track of each pupil's personal and nutritional information, in addition to giving parents the security and information they need when it comes to remaining informed of their child's health.

Pupil Pay also gives you the control to obtain the relevant information you need to assess the running of your educational environment, whilst providing you with data that will help you make informed decisions for the future of your institution.

Swipe, Exchange and Go...

Swipe and Exchange provides the ultimate solution to your EPOS Education System when teamed with Pupil Pay.

This unique credit system provides students and parents with an easy to use exchange system, that allows them to swap legal tender for credit that can be obtained through a personalized 'credit card' within a school environment.

Swipe and Exchange will also eliminate the problem of children carrying money around school, giving parents complete piece of mind.

The **Swipe and Exchange System:**

- Provides on-screen prompt system informs customer of how to complete a transaction.
- Eliminates the need for students to carry cash.
- Accepts coins and notes.
- Excepts a range of tender.
- Connects to a network of tills.
- USB port allows for updates.
- Prompts maintenance or storage levels via email.
- Is made from industrial grade steel.
- When combined with Count & Control prints and emails reports and monitors and total usage.

Pupils can use a finger print reader or a swipe card which will identify them through the Pupil Pay EPos and Swipe & Exchange Credit Systems.
