 <p>PSP180 B2</p>	<p>Compact professional plugged vacuum equipped with a powerful long-life TwinFlo motor. HepaFlo filtration not only raises performance standards, but also provides for clean and convenient emptying when full. The Nuplug system allows for quick and simple cable replacement.</p> <ul style="list-style-type: none"> • Compact whilst offering professional 8L capacity. • Reliable, long-life TwinFlo vacuum motor. • Nuplug, cable replacement is quick and easy. • Easy reach, 10 metre cable. • TriTex filtration system improves filtration, cleanliness and capacity. • Convenient, on-board wand and floor-tool storage. • Easy to change HepaFlo bags. • A tool for every job, full accessory kit AH1 with lightweight aluminium tube set. • Energy efficient, B rated.
 <p>NRV200</p>	<p>The 200 series has all the many features of the Henry design with full professional TwinFlo power and performance; Hi-Lo operation; Tritex filtration but with the addition of our extended commercial 12.5 metre cable rewind and storage system.</p> <p>Specifications: Power 230/120v Airflow 45L/sec Dimensions 355 x 355 x 415 mm Weight 6.9kilos. Capacity 9 litres</p>

WET AND DRY CARPET/UPHOLSTERY CLEANER

 <p>GEORGE</p>	<p>The “George” is the most useful and versatile 3 in 1 carpet cleaner for cleaning carpets and upholstery. Also it can be used as a normal Vacuum Cleaner and Wet & Dry Vacuum Cleaner, scrubbing and drying hard floor surfaces, unblocking sinks etc. The combination of our highly efficient turboflo vacuum turbine and the powerflo pump system provides you with professional cleaning anytime, anywhere, providing exceptional results.</p> <p>The “George” design is based entirely on our Cleantec professional range of carpet cleaners, designed to work extensively and for long hours, functioning to a professional standard. When it comes to dry vacuuming you can use a disposable bags with the same combination floor nozzle as the “Henry” Vacuum Cleaner. Also in the wet mode, a simple exchange of filter allows you to scrub and dry hard floors.</p> <p>Specifications: Model No. GVE 370-2, , Airflow 45 Litres/sec, Suction 2100 mm Dry Capacity 15 Litres, Wet Capacity 9 Litres, Extraction Capacity 6/6 Litres, Cleaning Range 26.8metres</p>

WET VACUUMS

CHARLES

When you want a vacuum cleaner that is totally without compromise, be it for wet or dry use, that's exactly what you get with a "Charles". On minute (or most of the year in the majority of cases) Charles will be up to his neck in dust and dirt, keeping everything spic and span, then when the need arrives to unblock sinks or dry the floor, when the washing machine floods. Well it is no problem with a Charles. Big filters and disposable bags for dry use and a safety float valve for wet pick-up. Charles has lightweight aluminium tubes that never rust. Two floor nozzles ... one for wet work and one for carpets and hard floors. Add to this three smaller tools and you have a complete kit to clean anything from floors, corners, upholstery and curtains etc.

Specifications:- , Airflow 40 Litres/sec, Suction 2500 mm; Dry Capacity 15 Litres, Wet Capacity 9 Litres, , Cleaning Range 26.8metres

WV470

The WV-470 provides a larger alternative to the 370-380 series, with twice the capacity but to the same high performance standard be it wet or dry.

What is very important is for professional use we do not mix both the functions of wet and dry operation otherwise the result can be a container full of almost MUD which becomes difficult to empty and will be detrimental to performance. All machines are wet or dry and the change from one to the other is designed to be simplicity itself exchanging a dry filter for wet safety float valve and a change of floor nozzle, or vice versa. Although twice the capacity we have added a folding handle design allowing easy movement when in use whilst also allowing compact storage.

The accessory kit provides tools for both wet and dry operation with stainless steel tube sets as standard.

Specifications:- , Airflow 40 Litres/sec, Suction 2500 mm; Dry Capacity 27 Litres, Wet Capacity 20 Litres, , Cleaning Range 26.8metres

WVD570

When the need is for bigger but still portable commercial wet or dries, the 570 series sets entirely its own standard.

First you have the full Structofoam construction, in fact a Numatic first, unmatched worldwide. Structofoam is a material formulation embodying all the strength needed for bigger machines, yet without weight penalty. It is really rugged. It doesn't dent, scratch or deteriorate and yet it is light in weight and resists all standard cleaning chemicals. The power and performance are to the full [TwinFlo](#) standard with a choice of one or two-motored specifications and both incorporate the Nucable plugged, replaceable cable system as standard. The accessories provided are equally professional being 38mm (1 1/2") as standard and allowing for full wet or dry operation. The tube sets are stainless steel and a pair of Multiflo' 400mm (16") floor nozzles are included both again manufactured in Structofoam.

Specifications:- Power 2400 Watt, Airflow 80 Litres/sec, Suction 2500 mm; Dry Capacity 23 Litres, Wet Capacity 15 Litres, , Cleaning Range 26.8metres

CARPET & UPHOLSTERY CLEANERS

CT470

The CT-470 is the bigger brother to the 370 with double its capacity for those that need more operational time between filling and emptying to cover larger areas.

The power head incorporates the high performance [TwinFlo](#) bypass motor and Powerflo pump system ensuring efficient discharge and liquid collection.

The container system is our unique “tank within a tank” design providing for clean and dirty water within one compact size.

Specifications:- Power 1200 Watt, Airflow 40 Litres/sec, Suction 2500 mm; Dry Capacity 27 Litres, Wet Capacity 20 Litres, , Cleaning Range 26.8metres

CTD570

The 570 series has become the most popular contractors’ extraction cleaner by choice... and this is not by chance, but by design. The full Structofoam construction is designed to take the bangs and bruises that any machine will suffer in true commercial use because that’s what you need – a machine that’s construction is beyond reproach and will give you years of reliable service. The Structofoam 570 is available in both one and two-motored models built to the full [TwinFlo](#) specification and incorporating our Powerflo pump and quick connect liquid system. The containers are also full Structofoam incorporating our unique “tank within a tank” system to maintain a compact and usable size. The full accessory kit provides for both carpet and upholstery cleaning with optional additional accessories for hard floor, wet or dry pick-up facilities.

Specifications:- Power 2400 Watt, Airflow 80 Litres/sec, Suction 2500 mm; Dry Capacity 23 Litres, Wet Capacity 15 Litres, , Cleaning Range 26.8metres
