WHY COMM-TECH?

With Comm-Tech you benefit from top-level communications solutions with significant cost savings, efficiencies and exceptional customer service as well as utilising;

Industry Leading Products & Services

We provide market leading products and services tailored to meet your individual needs along with significant line rental cost reductions and large discounts on local, national calls and calls to UK mobiles.

Fast Analysis & Proposal

We provide a full communication review for new businesses to determine your requirements. Our Tariff Analysis & Proposal team will turn around a proposal for you to present to them within 5 working days so that you can have a solution in place a.s.a.p.

Industry Experience

Comm-Tech have years of experience in the communications industry and are always updating the product portfolio to keep you at the forefront of business communications.

Greener telecoms

Comm-Tech utilises the UK's First Green Telecoms network provider to carry Carbon Neutral Minutes across a telephony network and is still the only UK operator to have a net zero carbon footprint for all calls carried across their network.

24/7/365 Customer Support

Comm-Tech offers 24/7/365 support to their customers ensuring that calls are always answered. Calls made out of office hours are logged and forwarded onto the relevant contact.

Access to Bills at Anytime

You can access your bills at anytime with a secure login to an online billing platform.
