

T.V.E.G

TEME VALLEY ENVIRONMENT GROUP

We are an open group, welcoming everyone who is concerned about local sustainability and the environment. As part of our concern with the use of plastics we already carry out litter picks in the Knighton area. We also run **Edible Knighton**, maintain the station garden and carry out other environment projects.

TEME VALLEY ENVIRONMENT GROUP

Tap water is of the highest quality.

Use refillable containers.

Go to www.refill.org.uk for advice.

Use paper and cardboard straws and cutlery if you need to.

Use a reusable cup or mug.

Use towelling nappies rather than disposable ones.

Take your own container to the shops in Knighton supporting reduction in plastic use.

Buy bars of soap instead of soap in a plastic bottle.

Join the litter picking team in Knighton. *(Contact us for details.)*

Use a razor with replaceable blades instead of a disposable razor.

Recycle everything you can.

Great ideas can be found at www.recyclethis.co.uk

TEME VALLEY ENVIRONMENT GROUP

Crisp bags can be recycled in TVEG boxes placed around Knighton.

Remember, agricultural feed bags and dog poo damage the environment. Dispose of them responsibly.

Plastic may be a wonderful product for some purposes but is used too much or in ways that are not recyclable. If we use less plastic, especially single use plastic, there will be less to recycle and less to pollute the River Teme and eventually the oceans.

**IF IT'S PLASTIC
THINK TWICE**
