

BorgWarner Automotive

Arnstadt, Germany / Port Talbot

Scope of Project:

Relocation of Automotive Production Line, Germany to UK

Trojan-Mek carried out loading of the Transmission Production Line at BorgWarner, Arnstadt, Germany, and shipped all equipment to the Port Talbot, South Wales site.

Off-loading was then completed and the production line was strategically positioned for development.

The line was later loaded and shipped to BorgWarner, Hungary for installation in late 2014.
