GLOBAL LEADERSHIP IN VALVE CONTROL AND POSITION SENSING TECHNOLOGY

TOPWORX – THE GLOBAL LEADER IN VALVE CONTROL AND POSITION SENSING TECHNOLOGIES

TopWorx is the global leader in valve control and position sensing for the process industries. Our solutions help plants, platforms, and pipelines improve productivity and increase safety in the harshest environments and toughest applications.

Valvetop® discrete valve controllers enable automated on/off valves to communicate via FOUNDATION Fieldbus, DeviceNet, AS-Interface, Profibus, and HART protocols.

GO® Switch leverless limit switches **SWITCH** provide reliable position sensing in extremely hot, cold, wet, dirty, abusive, corrosive, and explosive environments.

> Valvetop® Partial Stroke Test Device for emergency shutdown valves

GLOBAL TECHNOLOGY LEADERSHIP

TopWorx technology advancements are at the forefront of innovation in the process automation industry. TopWorx uses wireless technologies and fieldbus protocols such as FOUNDATION Fieldbus, DeviceNet, AS-Interface, Profibus, and HART to reduce installation costs and enable predictive maintenance at many of the world's leading companies.

GLOBAL HAZARDOUS AREA CERTIFICATIONS

TopWorx valve controllers and position sensors are globally certified for use in any hazardous location anywhere in the world. In addition to high temperature (up to 204°C), cold temperature (-50°C), and sub-sea (depths to 6,800 meters) applications, TopWorx products are suitable for use in Zone 0 (Intrinsically Safe), Zone 1 (Flameproof/ Explosion Proof), and Zone 2 (Non-Incendive) hazardous areas with IECEx, ATEX, GOST, InMetro, UL, CSA, JIS, KOSHA, and NEPSI certifications.

GLOBAL SERVICE & SUPPORT

With company locations in the United States, United Kingdom, South Africa, Bahrain, and Singapore, TopWorx is strategically positioned to provide the kind of support that a world without compromise demands In addition, over 150 Certified Product Partners throughout the world are available to provide competent local support when needed.

WWW.TOPWORX.COM

Visit www.topworx.com for comprehensive information on our company, capabilities, and products – including model numbers, data sheets, specifications, dimensions, and certifications.

Choose one option from each category to build a complete model number.

✓ Denotes FastTrack Delivery option immediate shipment.

Valvetop® discrete valve controllers and switchboxes monitor and control the position of automated on/off

valves. Valvetop solutions support multiple fieldbus protocols, operate in the most demanding plant conditions, and carry a variety of hazardous area certifications.

UNIQUE CAPABILITIES

FEATURES AND BENEFITS

- :: No exposed moving parts to bend or break
- :: Can be wired AC or DC, N/O or N/C, in series or parallel
- :: Not affected by electrical noise, weld fields, or radio frequency :: Not affected by dust, dirt, moisture, or most caustics, corrosives, or chemicals
- :: No leakage current or voltage drops
- :: Multiple wiring options including lead wires, cables, quick disconnects
- :: A wide variety of hazardous area certifications for Zone 0, 1, and 2
- :: Operating temperatures ranging from -50°C to 204°C

BEST-IN-CLASS CAPABILITIES

- Highest amp rating
- Highest pressure rating
- Highest temperature rating
- Highest hazardous area ratings
- Highest resistance to physical abuse
- Highest resistance to corrosives, salt water
