# 01. How to install theme DONDO

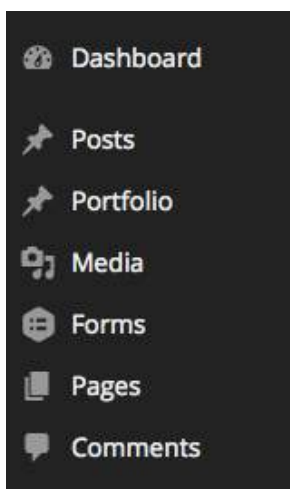

After purchasing theme DONDO, your download contains a zip-file with the file name: **“Dondo – unzip me please”**.

## Installing theme DONDO.

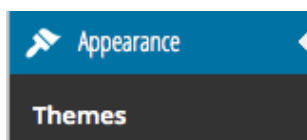

You can install DONDO using several methods. We use the easiest and fastest approach via your Wordpress dashboard.

1. Access your Wordpress account, and login.

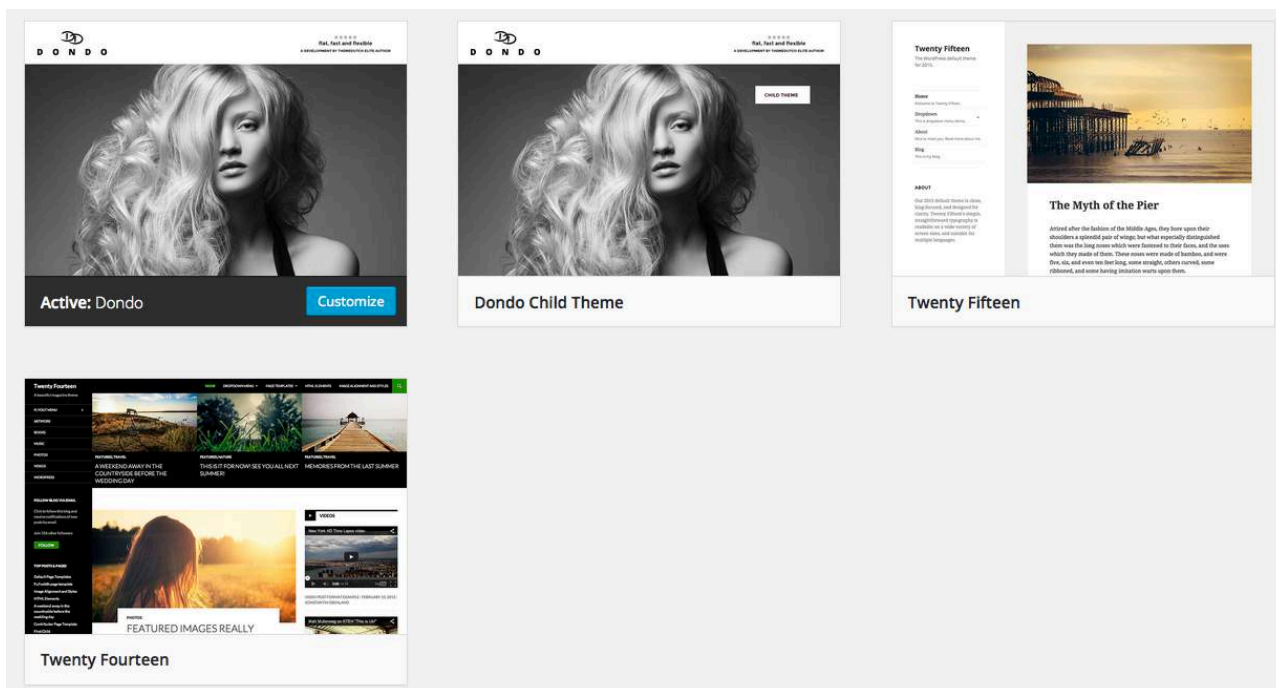

Once you’ve logged in, you’ll be directed to the dashboard.

2. Go to **Appearance** and click **Themes**.

3. Click the **Add New** tab.
4. Next, hit **Upload**.
5. Still remember the DONDO folder you unzipped earlier? **Click the Browse button, locate the said Dondo unzipped folder and then select it.**
6. Click **Install Now**.
7. Wait for the installation to finish and then hit **Activate** link. Then you’ll see this screen.

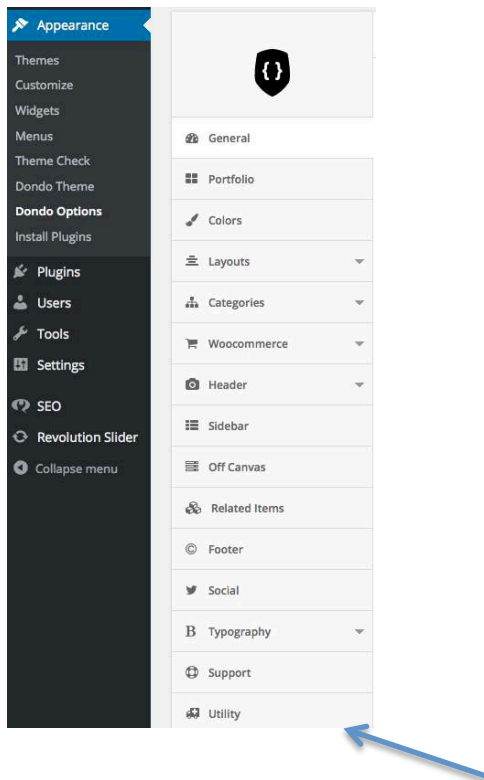

**NOTE:**

Theme DONDO is now activated. Read the messages, which appear on your dashboard carefully, because they provide **important info about “required and recommended plugins”** for theme DONDO. The Revolution Slider WP plugin is built-in, and only needs to be activated.

## 02. How to in stall dummy content.

The tab “**Utility**” within **DONDO Hill Options** is created for importing Dummy Content, and/or export your DONDO theme options.

Please read all ‘IMPORTANT NOTICES FIRST’ before you install DONDO.

### IMPORTANT NOTICE: 1.

**Importing dummy content ‘may take some time’.** Installing dummy content will not cause problems If you have “good quality hosting”. In some cases the dummy content will not work, for example If you really have bad hosting.

(You will also need to import the Revolution Slider demo content if you want to make use of the Revolution Sliders) See the Dondo Unzip me please file.

### IMPORTANT NOTICE: 2.

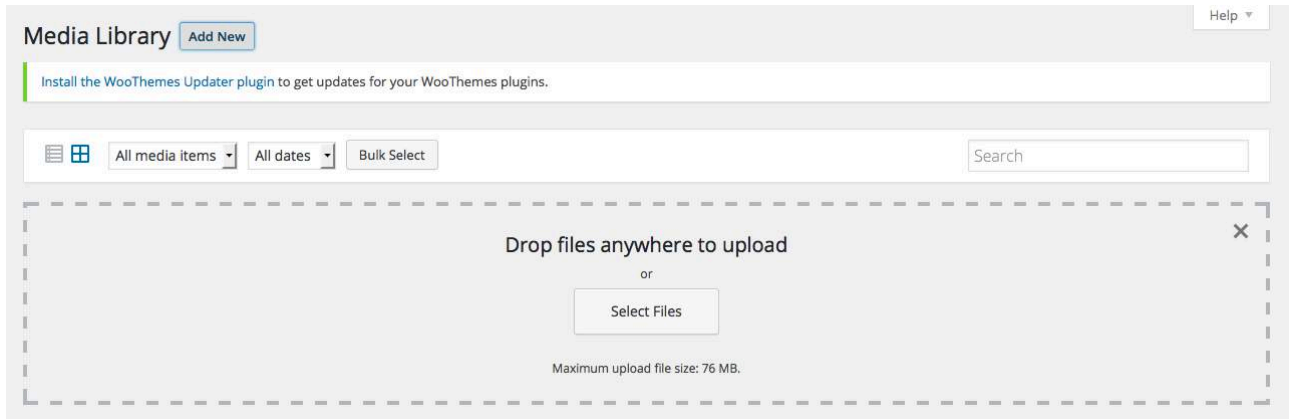

1. After installing ‘dummy content’ you still need to assign menus to the main and footer areas yourself. Set your home page via Settings / Reading.

2. Sidebars and Widgets are not included in the dummy content. These you’ll have to create yourself. You can read in the manual how to create Sidebars and Widgets.

3. When installing all Plugins that come with the theme, insure that no other caching Plugins are installed/activated.

## IMPORTANT NOTICE: 3.

Before installing 'dummy content' you need to check if your Media Library has a Maximum Upload file size of at least: 75 MB. If this not the case for example only 8 MB, the dummy content will not work!

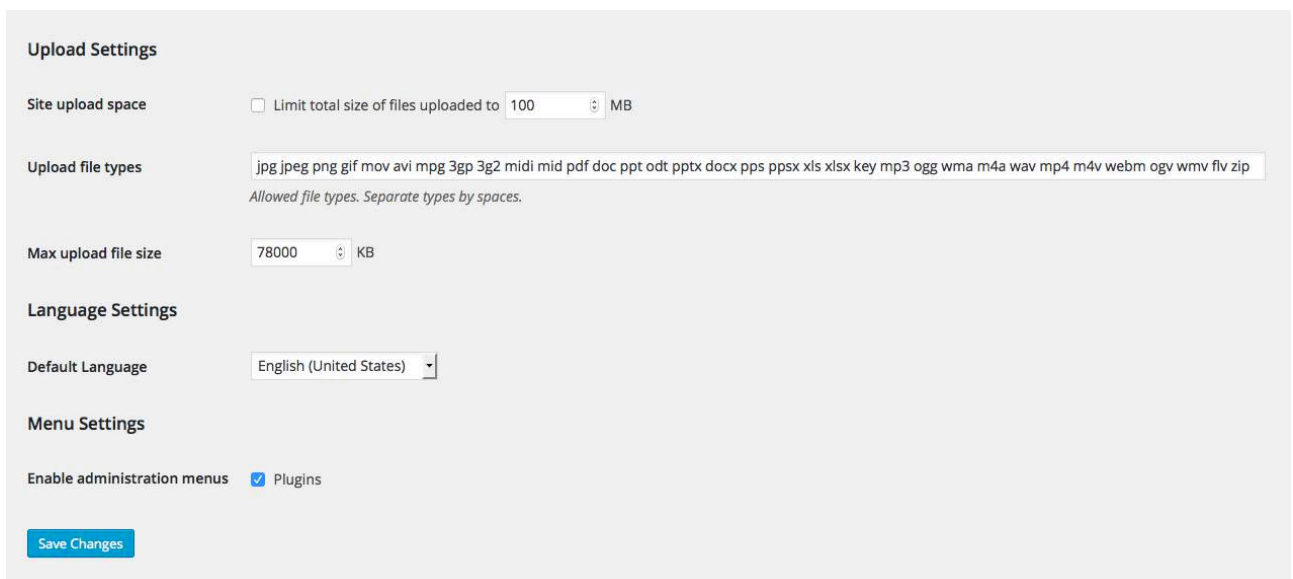

## How to increase the Maximum Upload file size?

add this to top of wp-config.php  
`define( 'WP_MEMORY_LIMIT', '75M' );`

## Multi Site Maximum Upload file size?

In case of a Multi site setup go to the Network settings/ Upload settings / Max upload file size.

## IMPORTANT NOTICE: 4.

**All pages content from DONDO's 'Main Demo' is included in your theme files.**

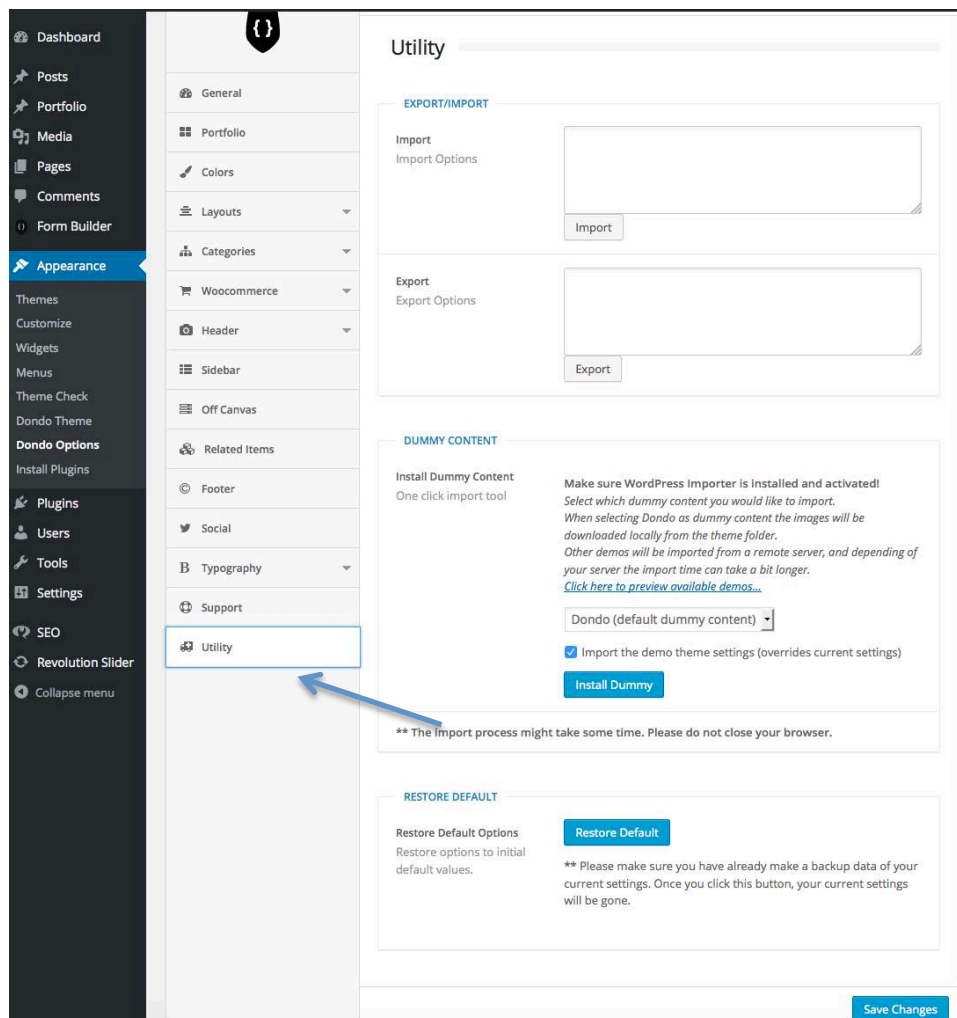

This is the best way for having a flawless installation. We have not included the other demos. When you install one of the other demos, the content and images will be downloaded from our server directly. This may take some time, despite our effort to create all other demos as small as possible.

## IMPORTANT NOTICE: 5.

We've made sure that our demo installer will work on most hosting platforms. We are not responsible for installation problems caused by your server or settings. It can be a time consuming process if we need to check your server settings and sometimes we even need to contact your hosting provider. Therefore we offer affordable Installation services that are available via our website.

## Import Dummy content.

Hit the button 'Install Dummy Content' if you want to install the official DONDO preview website's content.

The screenshot shows the WordPress Admin Dashboard. On the left is a dark sidebar menu with 'Appearance' selected. The main content area is titled 'Utility' and contains three sections: 'EXPORT/IMPORT', 'DUMMY CONTENT', and 'RESTORE DEFAULT'. The 'DUMMY CONTENT' section is the focus, featuring a dropdown menu set to 'Dondo (default dummy content)', a checked checkbox for 'Import the demo theme settings (overrides current settings)', and a blue 'Install Dummy' button. A blue arrow points to the 'Utility' menu item in the sidebar. Below the 'Install Dummy' button is a warning: '\*\* The Import process might take some time. Please do not close your browser.' The 'RESTORE DEFAULT' section has a 'Restore Default' button and a warning: '\*\* Please make sure you have already make a backup data of your current settings. Once you click this button, your current settings will be gone.' A 'Save Changes' button is at the bottom right.

**Important! All used photo material is copyright protected.**

The images used in our preview website are intended for example purposes only. As they're copyright protected, you need to remove them from your media section, before your website goes online. We thank you for your understanding.

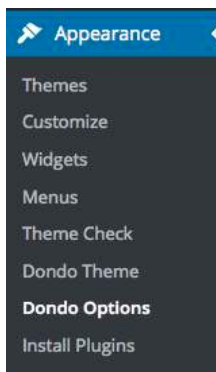

## 03. DONDO Options – Theme Info

The DONDO Options panel is one of DONDO’s most useful and powerful tools. Besides regular WP features, it contains almost all theme’s controls, settings, options and functionalities.

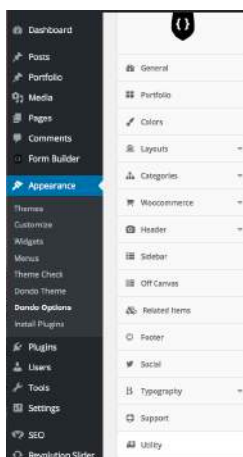

### TIP:

If you’re using theme DONDO for the first time, we strongly advice to focus on the DONDO Options Panel first. Learn all about its options and features.

To access DONDO’s Option Panel, select **Appearance** menu and then select **DONDO Options**

DONDO Option Panel contains ‘settings for most theme features’. In here, you can change/set DONDO Options: General, Portfolio, Colors, Layouts, Categories, Woocommerce, Header, Sidebar, Off Canvas, Related Items, Footer, Social, Typography, Support and Utility.

### NOTE:

DONDO Options tool ‘Utility’ can be used for installing dummy content, importing and/or exporting your DONDO Options from file, text or URL.

## 04. DONDO Options – General

Let's start with the tab **General** theme options. In here you can upload your Favicon and Login Logo.

Here you enable and set Media Settings, \*Media Overlay, Breadcrumbs, Page Loader, and Smooth Scroll.

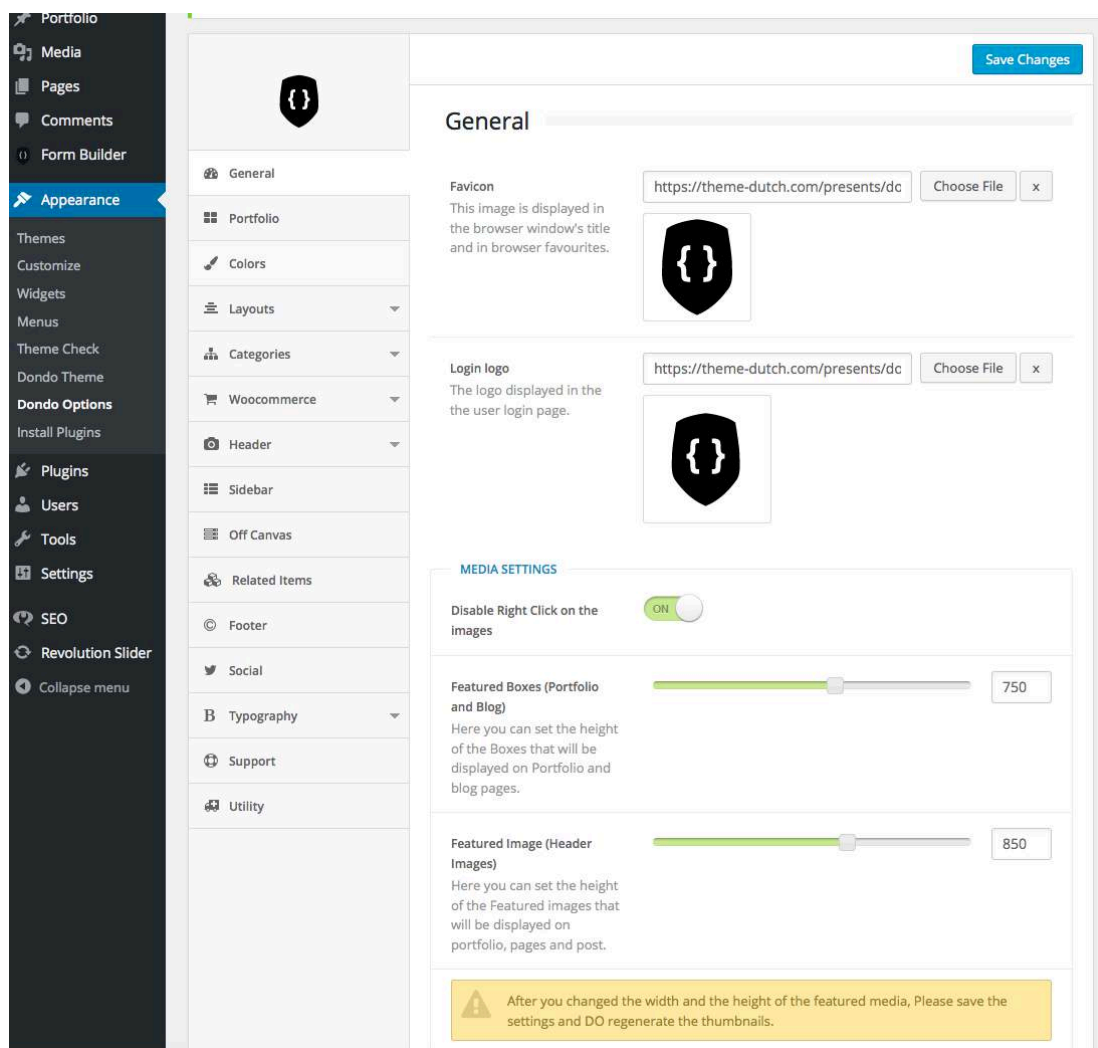

In here you also can place your Custom CSS Code, Tracking Code, and custom JS Code. All settings are self-explanatory.

### NOTE:

\*Media Overlay. This option allows you to create a "dotted overlay" on top of your images in order to **speed up the loading time of your site**. You're even able to choose a specific color for background overlay.

**This option prevents using the "swipe-effect" on mobile and tablets though.**

Don't forget to read/follow the additional suggestions and info, and hit the button 'Save changes' when you're ready.

The screenshot displays the 'General' settings page in the Dondo theme. On the left is a dark sidebar menu with 'Appearance' highlighted. The main content area has a 'Save Changes' button in the top right. The 'General' section includes:

- Favicon:** A text input field with the URL 'https://theme-dutch.com/presents/dc', a 'Choose File' button, and a small 'x' icon. Below it is a preview of a black shield-shaped icon with white curly braces.
- Login logo:** A text input field with the same URL, a 'Choose File' button, and a small 'x' icon. Below it is a preview of the same shield-shaped icon.
- MEDIA SETTINGS:** A section with a toggle switch for 'Disable Right Click on the images' (set to 'ON'). Below this are two sliders:
  - Featured Boxes (Portfolio and Blog):** A slider set to 750. Description: 'Here you can set the height of the Boxes that will be displayed on Portfolio and blog pages.'
  - Featured Image (Header Images):** A slider set to 850. Description: 'Here you can set the height of the Featured images that will be displayed on portfolio, pages and post.'
- Warning Message:** A yellow box at the bottom with a warning icon and text: 'After you changed the width and the height of the featured media, Please save the settings and DO regenerate the thumbnails.'

## 05. DONDO Hill Options – Portfolio

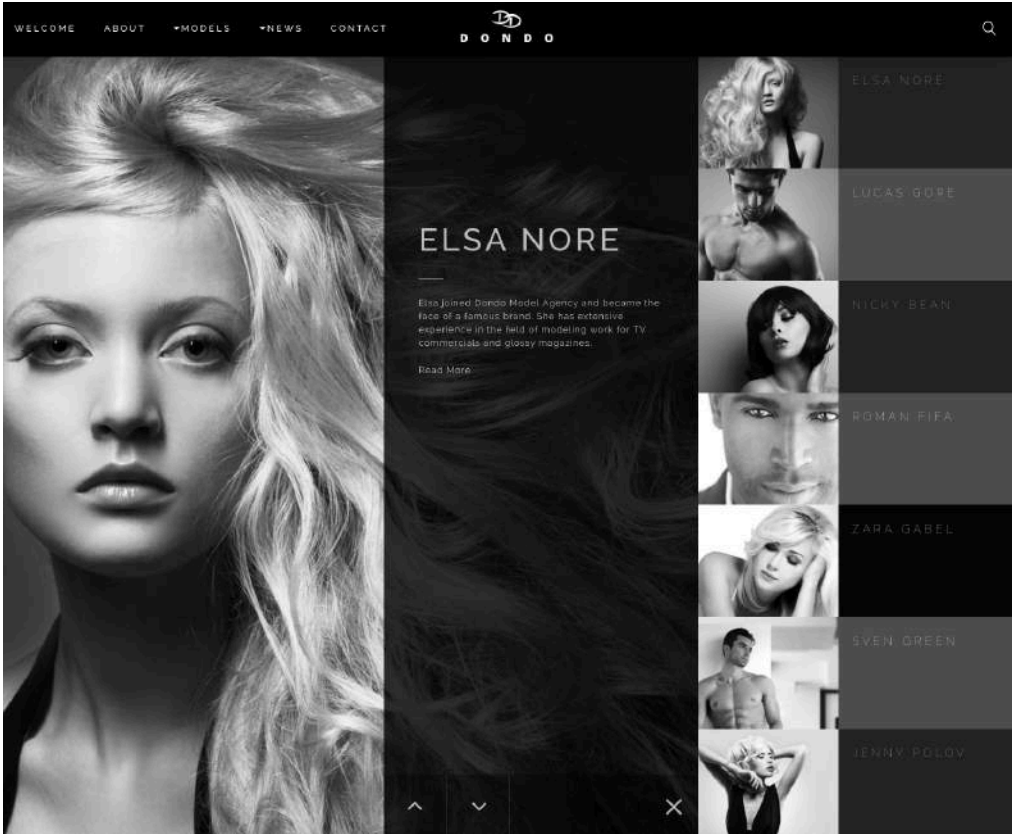

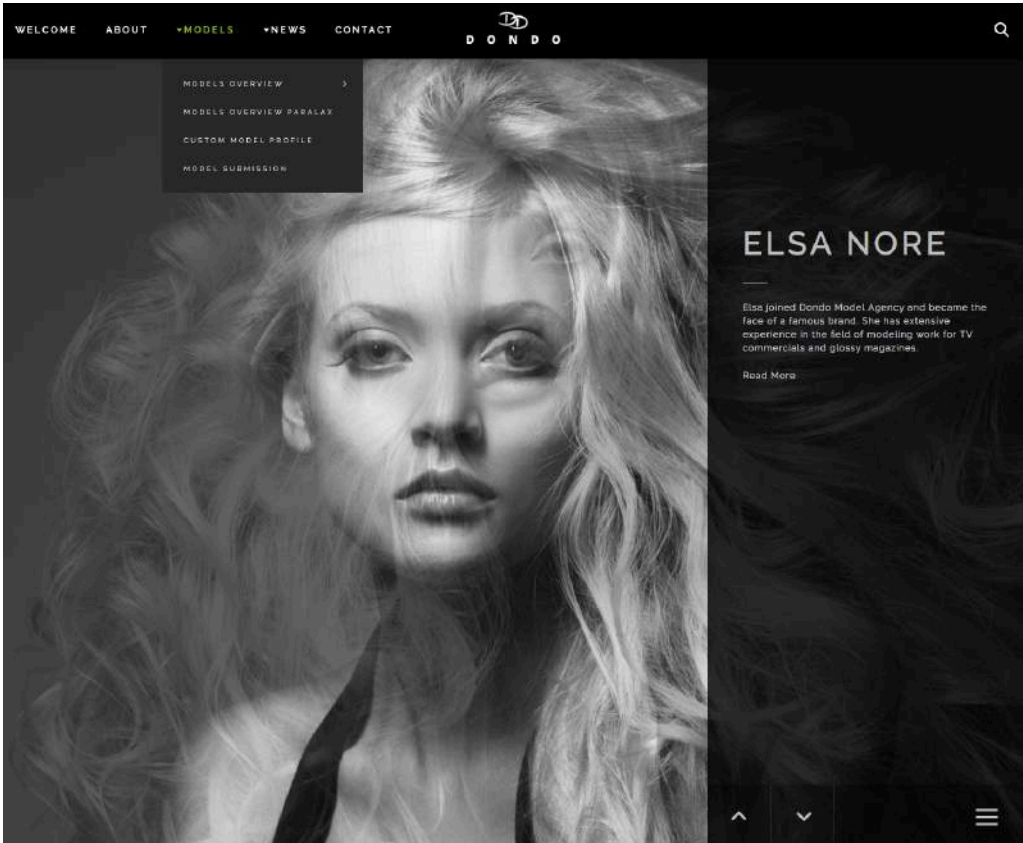

Via the tab Portfolio you can create 'general' settings for all portfolio pages. All color settings are self-explanatory. **On 'single portfolio pages' you're able to customize all 'PORTFOLIO 2' template colors and make it look like our Page Portfolio example. We'll explain how to do this.**

Example general settings portfolio

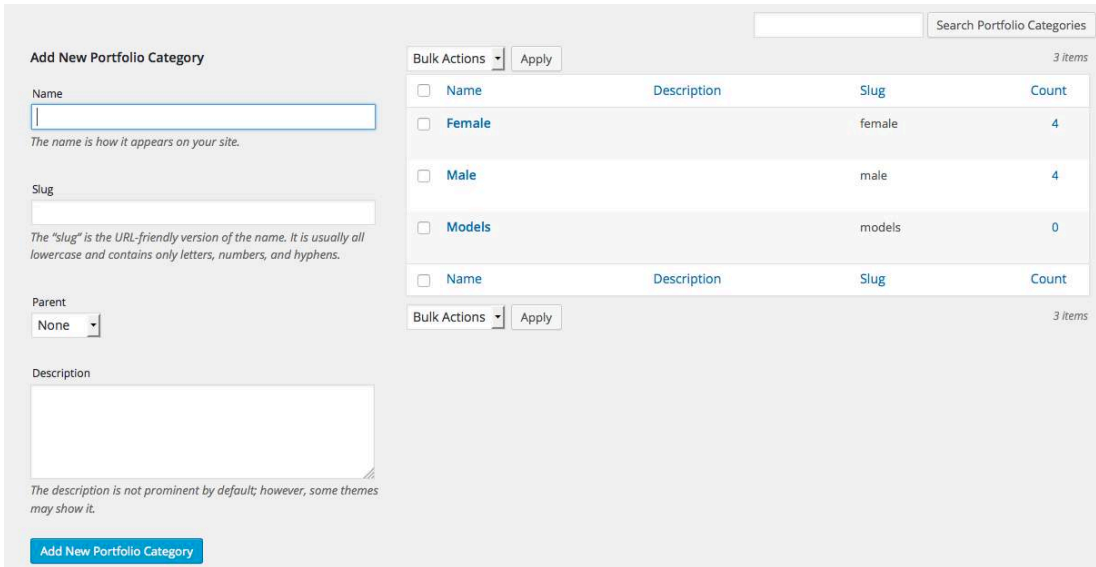

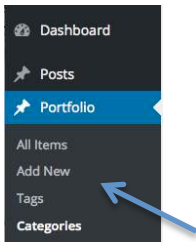

Example portfolio 2 template (MODELS page portfolio)

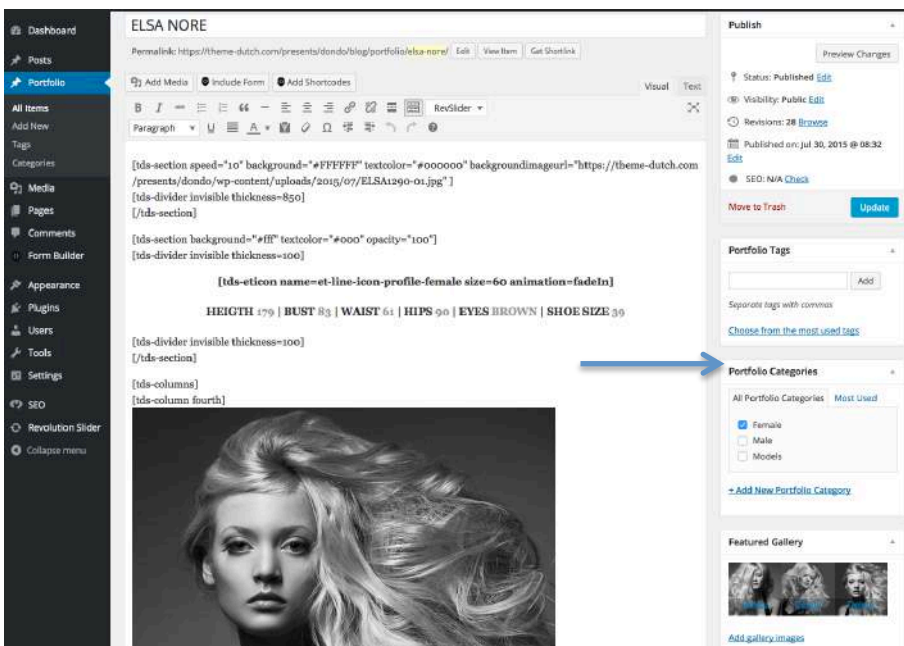

link demo: <https://theme-dutch.com/presents/dondo/models/>

1. Create a category for your MODELS page portfolio; we created categories 'Female and Male' for DONDO's Models portfolio (portfolio 2 template).

2. Create single portfolio pages including 'your content' for each portfolio-page and add a featured image or featured gallery. Don't forget to 'check' the Portfolio category (we used categories 'Female' and 'Male').

Via Portfolio Post Settings on 'single portfolio pages' you're able to create settings that only apply for the **Portfolio 2 template** (like our MODELS page portfolio example)

Scroll down on your portfolio pages to find these settings.

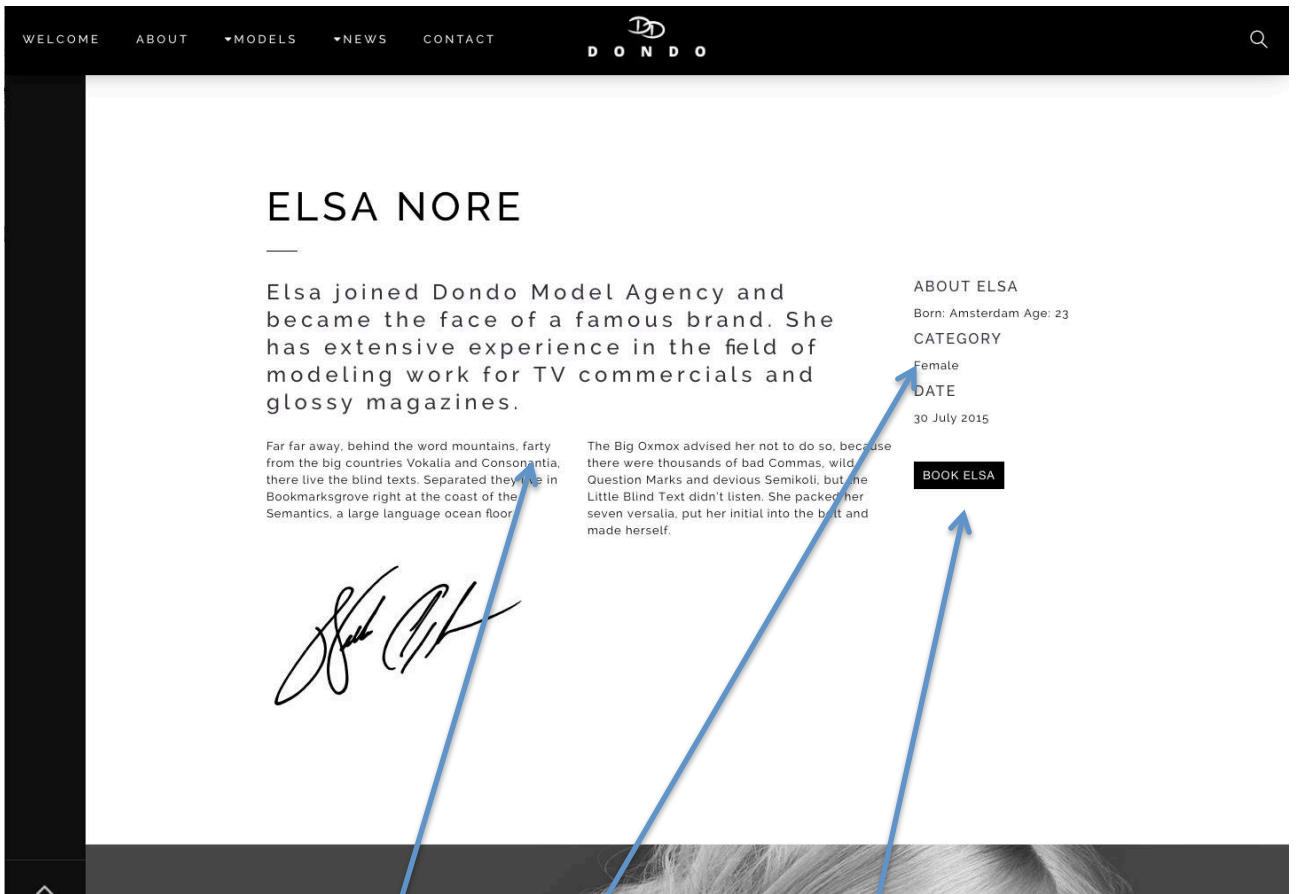

The screenshot displays the 'Portfolio Post Settings' interface in WordPress, organized into several sections:

- Portfolio Post Settings:**
  - Secondary Title:** A text input field.
  - Display custom field:** A checkbox that is checked.
  - Custom Field Title:** A text input field containing 'ABOUT ELSA'.
  - Custom Field Value:** A text input field containing 'Born: Amsterdam Age: 23'.
  - Display category field:** A checkbox that is checked.
  - Display date field:** A checkbox that is checked.
  - Display button:** A checkbox that is checked.
  - Portfolio Name:** A text input field containing 'BOOK ELSA'.
  - Button link:** A text input field containing '#BookingRequest'.
  - Title Color:** A color picker set to '#000000'.
  - Kebergri Text Color:** A color picker set to '#e0e0e0'.
  - Excerpt Background Color:** A color picker set to 'rgb(1,0,0,0.8)'.
  - List Background Color:** A color picker set to 'rgb(42,42,0,0)'.
  - Link Active Text Color:** A color picker set to 'rgb(255,255,255,1)'.
- Separate page with content:**
  - Choose from the most used tags:** A dropdown menu.
  - Portfolio Categories:** A section with 'All Portfolio Categories' and 'Most Used' tabs. It includes checkboxes for 'Portfolio', 'Media', and 'Models', with 'Portfolio' selected.
  - Featured Gallery:** A section with a gallery of images and a link to 'Add gallery images'.
  - Custom Sidebar:** A section with a dropdown menu to 'Select a sidebar'.
  - Media Option:** A section with a 'Display Featured' checkbox and radio buttons for 'Image' (selected) and 'Video'.
  - Featured Image:** A section with a featured image and a link to 'Remove featured image'.
- Content Background Color:** A color picker set to '#f8f8f8'.
- Sidebar:** A dropdown menu set to 'Select option'.
- Custom Content:** A text area containing HTML code for a featured image and a text block:
 

```
<img src="" alt="" />
      <p>Elsa has joined Dondo Model Agency and became the face of a famous brand. She has extensive experience in the field of modeling work for TV commercials and glossy magazines, where (0=column) (width=tablets=1) (0=column) (width=mobile=1) (0=column) (width=animation=fade-in)</p>
      <p>Far from busy, behind the wood mountains, ferry from the big countries Vinkala and Comonanta, there live the blind trees. Separated they live in Bookmore grove right at the coast of the Semantica, a large language-ocean floor.</p>
```
- Post Options:**
  - Display post author:** Radio buttons for 'Yes', 'No', and 'Default' (selected).
  - Display related items:** Radio buttons for 'Yes', 'No', and 'Default' (selected).
- Yoast SEO:**
  - Revisions:** A dropdown menu.
  - Excerpt:** A text area containing the same text as the 'Custom Content' section.
- Custom Fields:**
  - Table:**

Name	Value
slide_template	default
href_featured_gallery	239,233,231
  - Add New Custom Field:** A form with 'Name' and 'Value' input fields and an 'Add Custom Field' button.
- Author:** A dropdown menu set to 'Mina de Looze'.
- Revolution Slider Options:**
  - Choose Slide Template:** A dropdown menu set to 'default'.

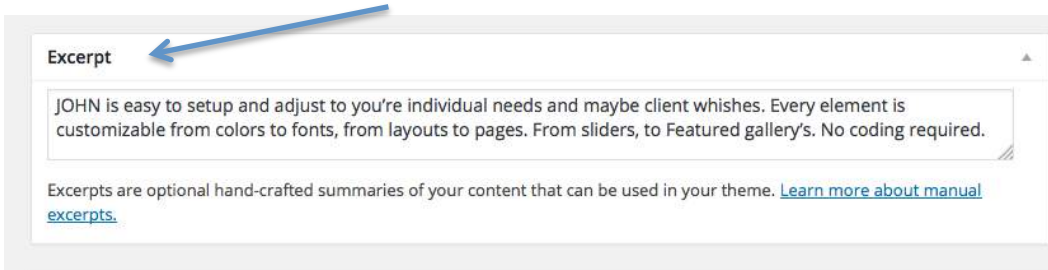

This is how this section looks like at the front-end of our 1<sup>st</sup> Portfolio Page 'DONDO'

Secondary Title | Custom content | Category 'General' | Date & Button

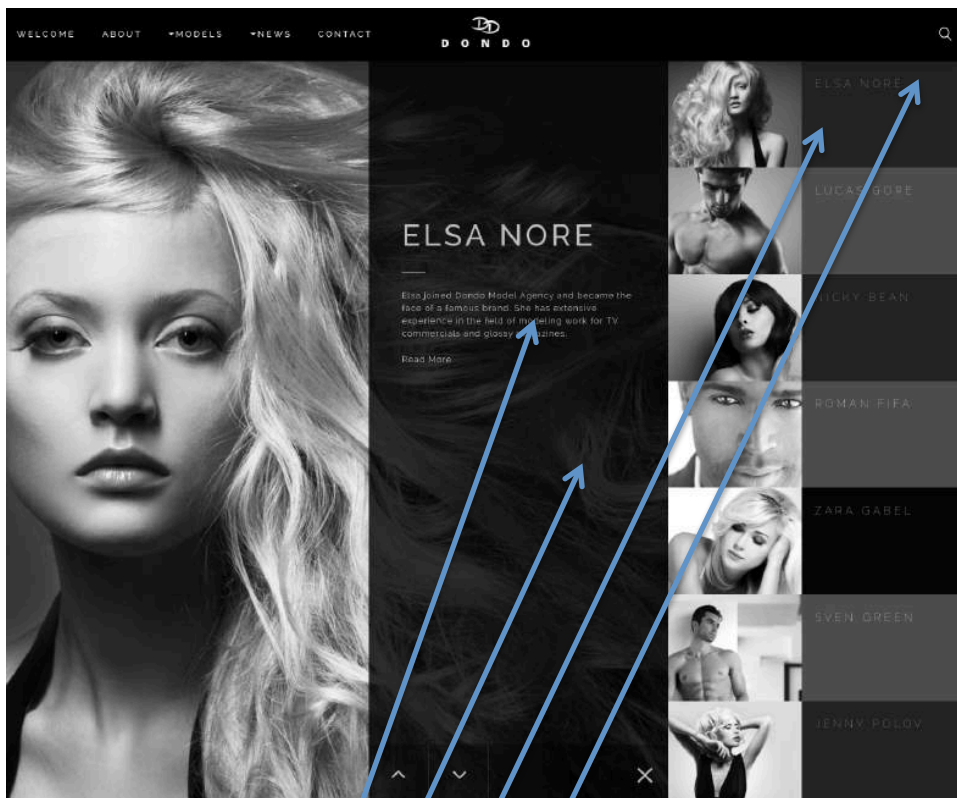

The 'Excerpt text' will be visible on the home page portfolio category.

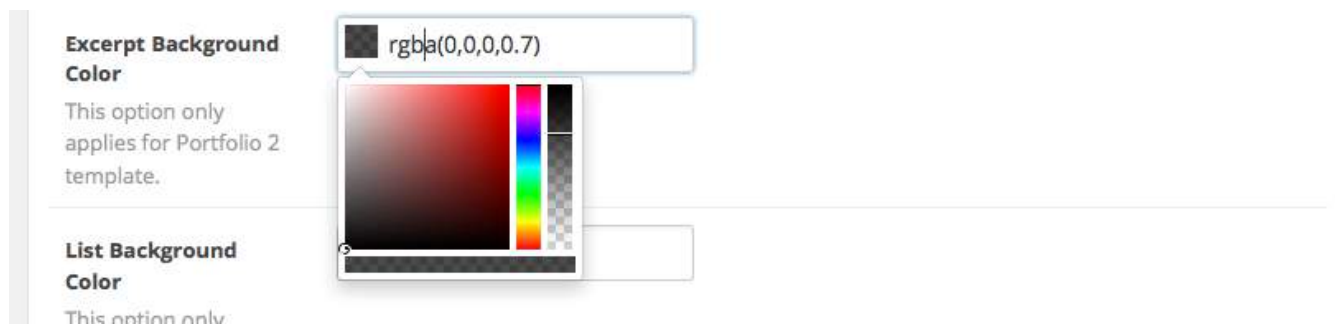

Excerpt text portfolio page 'DONDO'.

<b>Title Color</b> This option only applies for Portfolio 2 template.	<input type="color" value="#000000"/>
<b>Excerpt Text Color</b> This option only applies for Portfolio 2 template.	<input type="color" value="#c0c0c0"/>
<b>Excerpt Background Color</b> This option only applies for Portfolio 2 template.	<input type="color" value="rgba(0,0,0,0.8)"/>
<b>List Background Color</b> This option only applies for Portfolio 2 template.	<input type="color" value="rgba(42,42,42,0.8)"/>
<b>List Active Text Color</b> This option only applies for Portfolio 2 template.	<input type="color" value="rgba(255,255,255,1)"/>
<b>Content Background Color</b> This option only applies for Portfolio 2 template.	<input type="color" value="#ffffff"/>
<b>Sidebar</b> This option only applies for Portfolio template.	<input type="text" value="Select option(s)"/>

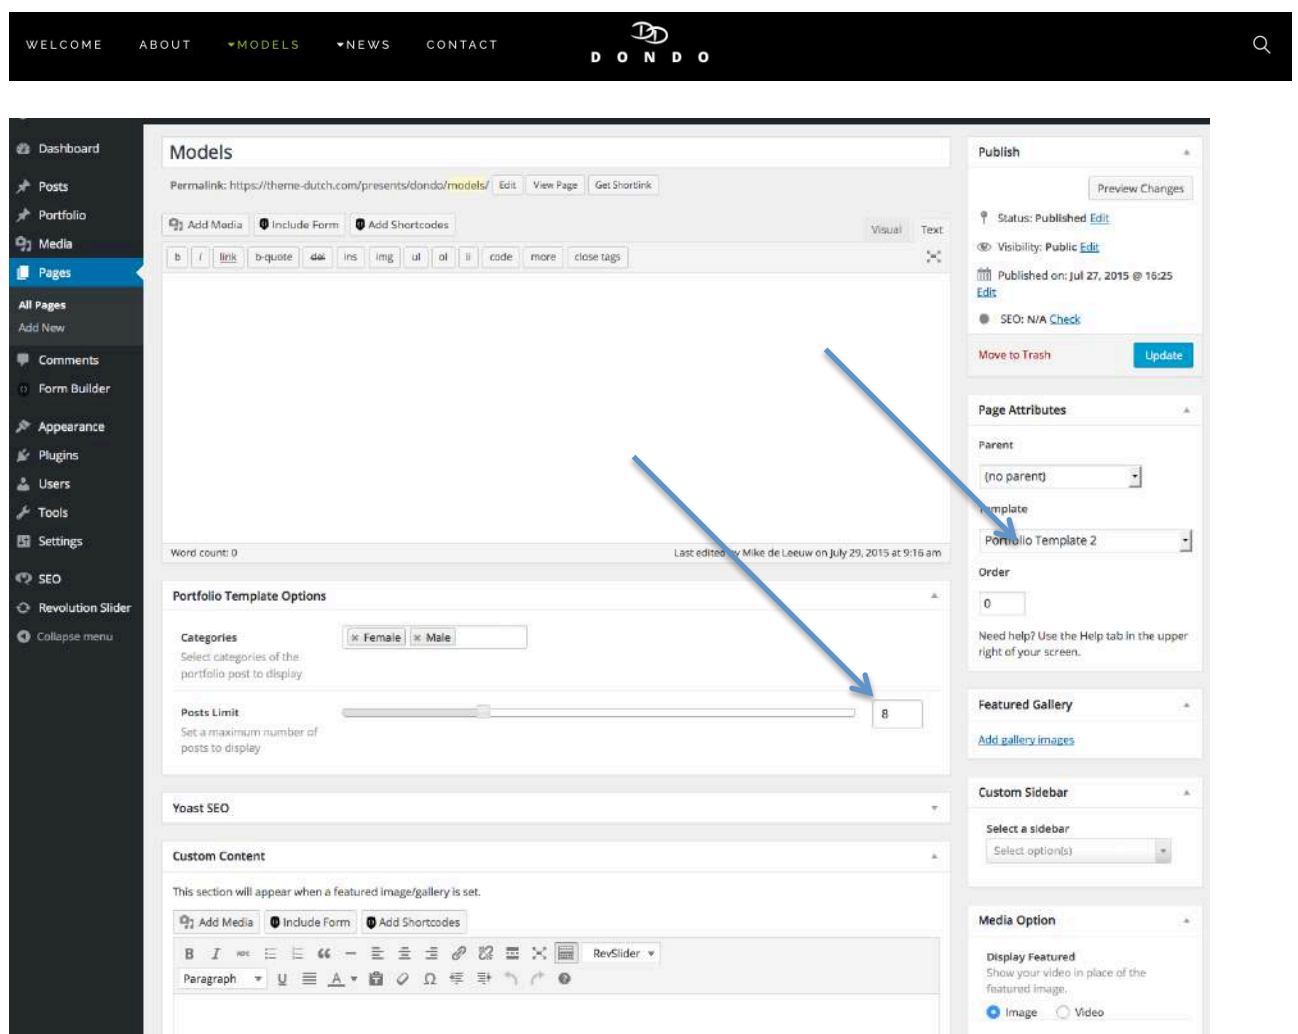

\*Title color (page title) will be visible on the actual portfolio page (MODELS).

Colors can be made transparent. This way you can create the 'effects' on the portfolio list items (list background color) on the home portfolio, and create a transparent background color for the 'excerpt text'. (Excerpt background color).

On your actual **MODELS** page (portfolio, accessible via main menus), you can set the 1. The category for your portfolio and 2. the number of portfolio posts you want to show.

Select '**Portfolio Template 2**' for your portfolio page (we used 'MODELS').

## 06. DONDO Options – Colors

In this Module, you can change / set the theme's colors. (general, main content, sidebar, buttons, and all Heading titles. All settings are self-explanatory.

The screenshot shows the 'Colors' settings page in the Dondo theme. The left sidebar contains navigation options, with 'Appearance' selected. The main content area is titled 'Colors' and features a 'Save Changes' button in the top right corner. The settings are organized into four sections:

- GENERAL**
  - Background Color: #e0e0e0
  - Text Color: #000000
- MAIN CONTENT**
  - Background Color: #ffffff
  - Text Color: #000000
  - Link Color: #000000
  - Link Hover: #777777
- SIDEBAR**
  - Background Color: #ffffff
  - Text Color: #2e3138
  - Link Color: #2e3138
  - Link Hover: #777777
- BUTTONS**
  - Text Color: #ffffff
  - Text Color: #ffffff
  - Background Color: #000000
  - Background Hover: #777777

## 7. DONDO Options – Layouts pages

All settings are self-explanatory.

DONDO Options tool ‘Layouts’ provides ultimate freedom in designing your page layouts. Here you’re able to set a “default page layout” and different layouts for default and other pages, like:

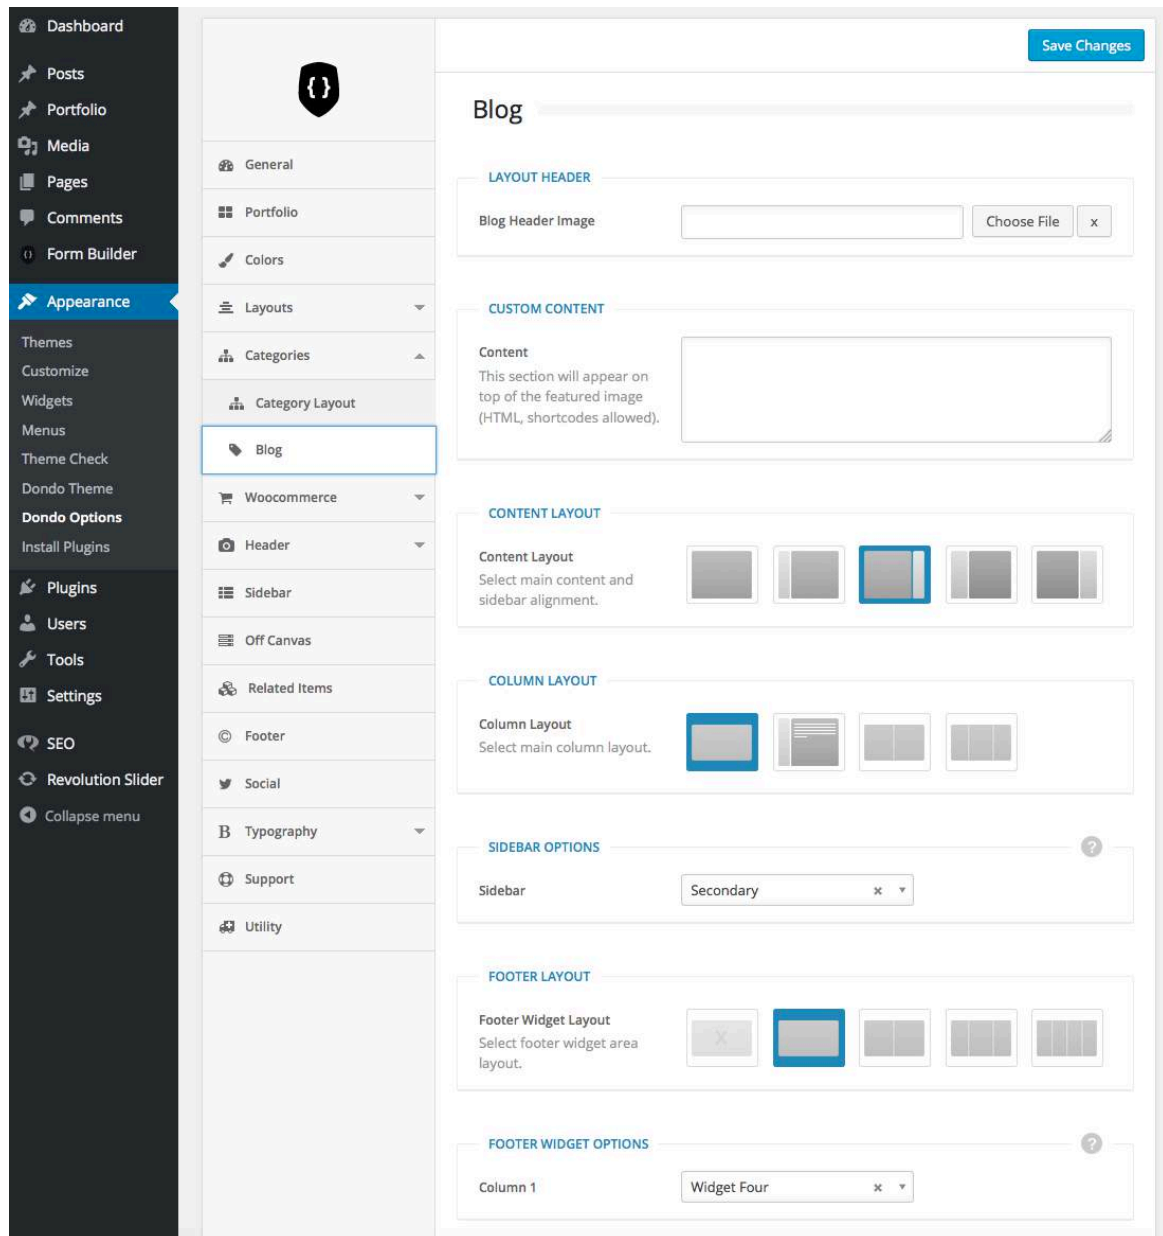

Search Page Layout, Archive Page Layout, Author Page Layout and 404 Page Layout. All settings are self-explanatory. Additional info is provided within the boxes.

The screenshot displays the 'Layouts' configuration page in the DONDO Options tool. The left sidebar menu includes 'Dashboard', 'Posts', 'Portfolio', 'Media', 'Pages', 'Comments', 'Form Builder', 'Appearance' (highlighted), 'Themes', 'Customize', 'Widgets', 'Menus', 'Theme Check', 'Dondo Theme', 'Dondo Options', 'Install Plugins', 'Plugins', 'Users', 'Tools', 'Settings', 'SEO', 'Revolution Slider', and 'Collapse menu'. The 'Appearance' section is expanded to show 'Layouts', which includes options for 'Default Page Layout', 'Search Page Layout', 'Blog Page Layout', 'Archive Page Layout', 'Portfolio Page Layout', 'Author Page Layout', and '404 Page Layout'. The main content area is titled 'Default Page Layout' and features a 'Save Changes' button at the top right. It is divided into four sections: 'LAYOUT HEADER' with a 'Default Header Image' field and a 'Choose File' button; 'CONTENT LAYOUT' with a grid of five layout options where the first is selected; 'FOOTER LAYOUT' with a 'Footer Widget Layout' grid where the second option is selected; and 'FOOTER WIDGET OPTIONS' with a dropdown menu for 'Column 1' set to 'Widget Four'. A 'Save Changes' button is located at the bottom right of the main content area.

## 08. DONDO Options – Category Layout

This section allows you to create a special category layout. You're able to set a category header image, and select the layout for your content and footer (widget area). Set the custom layout to ON, and select the specific category. All settings are self-explanatory.

Example: Category Blog

The screenshot displays the 'Dondo Options' interface for configuring the 'Blog' category layout. The left sidebar contains a navigation menu with 'Appearance' selected. The main content area is titled 'Blog' and includes a 'Save Changes' button in the top right corner. The settings are organized into several sections:

- LAYOUT HEADER:** Features a 'Blog Header Image' field with a 'Choose File' button and a close icon (x).
- CUSTOM CONTENT:** Includes a 'Content' text area with a description: 'This section will appear on top of the featured image (HTML, shortcodes allowed)'. A close icon (x) is present in the top right of the text area.
- CONTENT LAYOUT:** Offers five layout options for content and sidebar alignment. The third option, showing a sidebar on the right, is selected with a blue border.
- COLUMN LAYOUT:** Offers four layout options for the main column. The first option, showing a single column, is selected with a blue border.
- SIDEBAR OPTIONS:** Includes a 'Sidebar' dropdown menu currently set to 'Secondary' with a close icon (x) and a help icon (?).
- FOOTER LAYOUT:** Offers five layout options for the footer widget area. The second option, showing a single widget area, is selected with a blue border.
- FOOTER WIDGET OPTIONS:** Includes a 'Column 1' dropdown menu currently set to 'Widget Four' with a close icon (x) and a help icon (?).

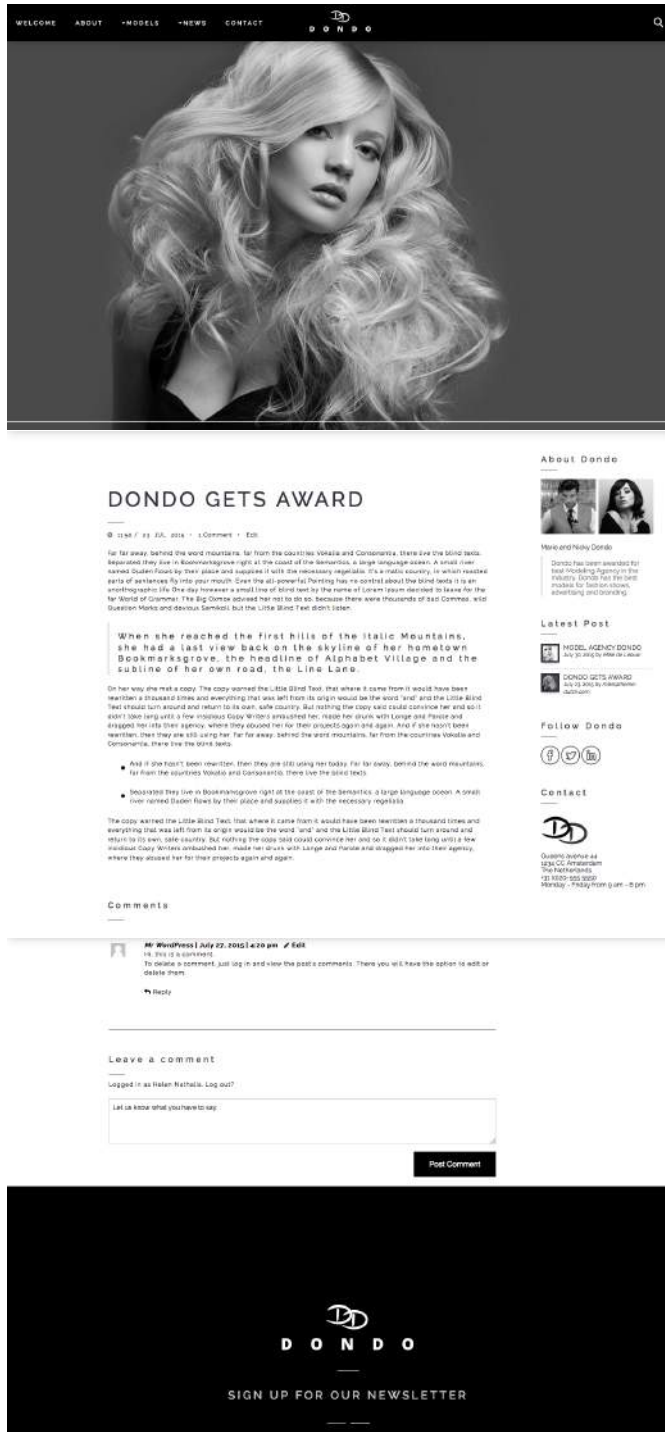

This is how it looks like at the front-end:  
<https://theme-dutch.com/presents/dondo/blog/category/blog/>

The screenshot displays the front-end of the Dondo website. At the top, a dark navigation bar contains the menu items: WELCOME, ABOUT, MODELS, NEWS, and CONTACT, along with the Dondo logo and a search icon. The main content area features a grid of two blog posts. Each post includes a large image of a blonde woman, a date (10 Jul 2015), a title (MODEL AGENCY DONDO and DONDO GETS AWARD), a short text snippet, and a 'READ MORE' link. To the right of the grid is a sidebar with sections: 'About Dondo' (with a small photo of two people), 'Latest Post' (listing two recent posts with thumbnails), 'Follow Dondo' (with social media icons for Facebook, Twitter, and LinkedIn), and 'Contact' (with the Dondo logo, address, phone number, and hours). Below the grid is a large black banner for a newsletter sign-up, featuring the Dondo logo, the text 'SIGN UP FOR OUR NEWSLETTER', a text input field for 'Your Full Name', and a 'NEXT' button. At the bottom of the page, a footer contains the copyright notice '© 2015 - A DESIGN BY THEMEDUTCH' and links for 'TERMS & CONDITIONS' and 'PRIVACY POLICY'.

## NOTE:

Sidebars (example sidebar: blog) can be created via DONDO Options - Sidebars. Widgets (for sidebars en footers) can be created created via Appearance / Widgets.

This is an example of a Blog page looks at the front-end of theme DONDO.

## 09. DONDO Options – Woocommerce

All settings are self-explanatory.

We did not integrate an e-commerce shop for DONDO.  
Therefore we'll not discuss this here.

### **NOTE:**

**We refer to Woocommerce for support how to transform your website into a eCommerce store.**

<https://support.woothemes.com/hc/en-us>

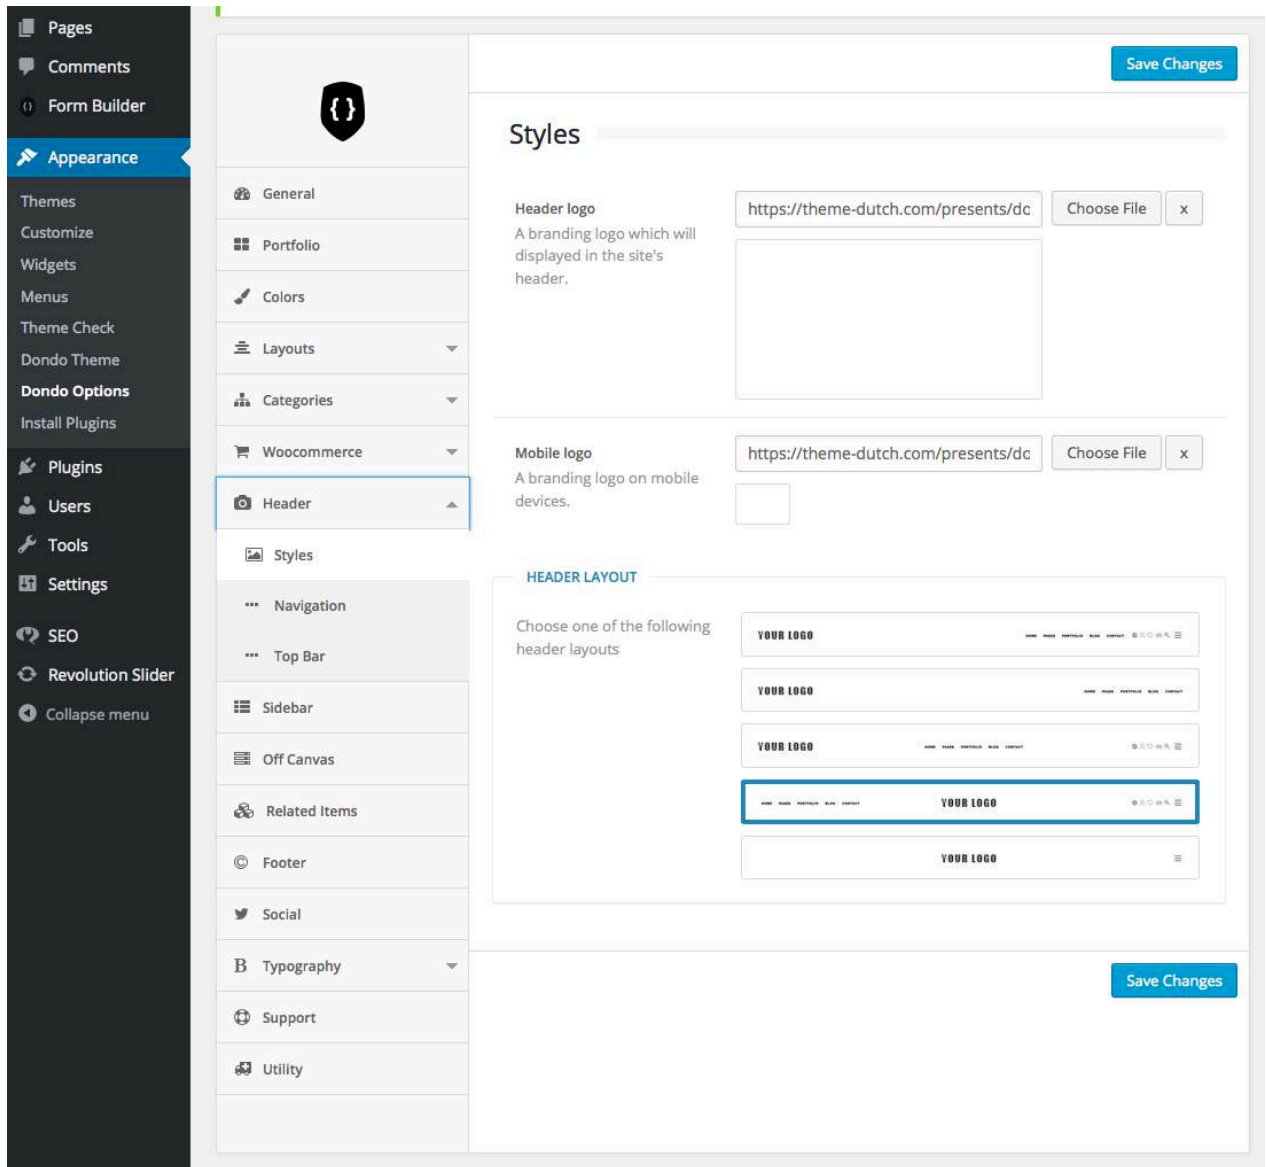

# 10. DONDO Options – Header

## 1. Styles:

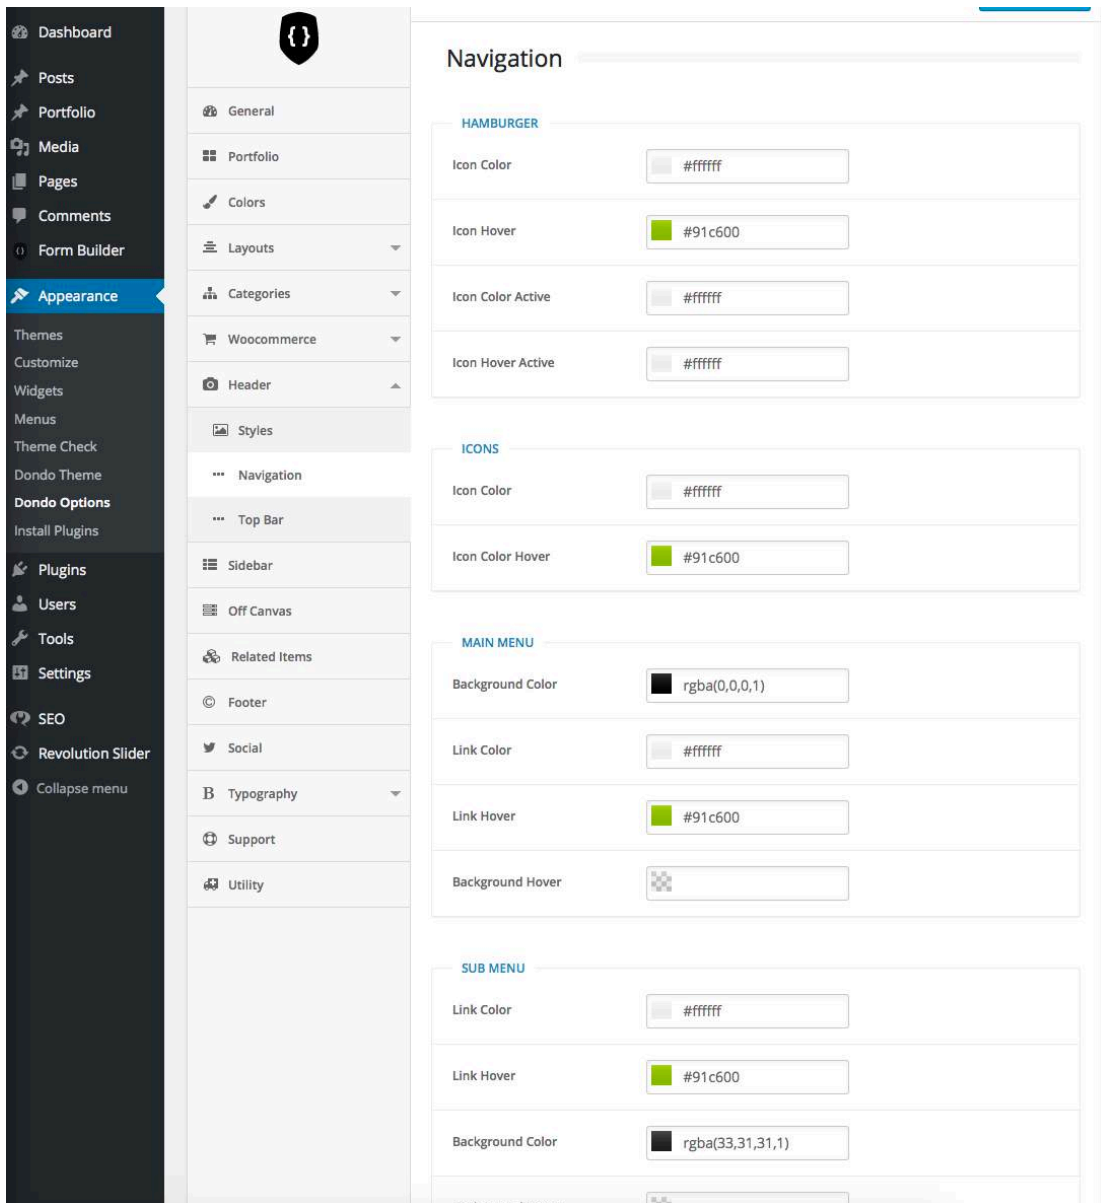

In here you can set your header logo, mobile logo, and header layout.

There are several header layouts available in DONDO

## 2. Navigation:

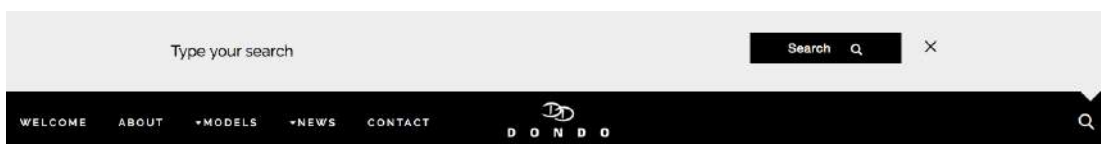

Here you're able to set the colors for Hamburger, Icons, your Main menus and Sub and Secondary sub menus.

### 3. Top Bar:

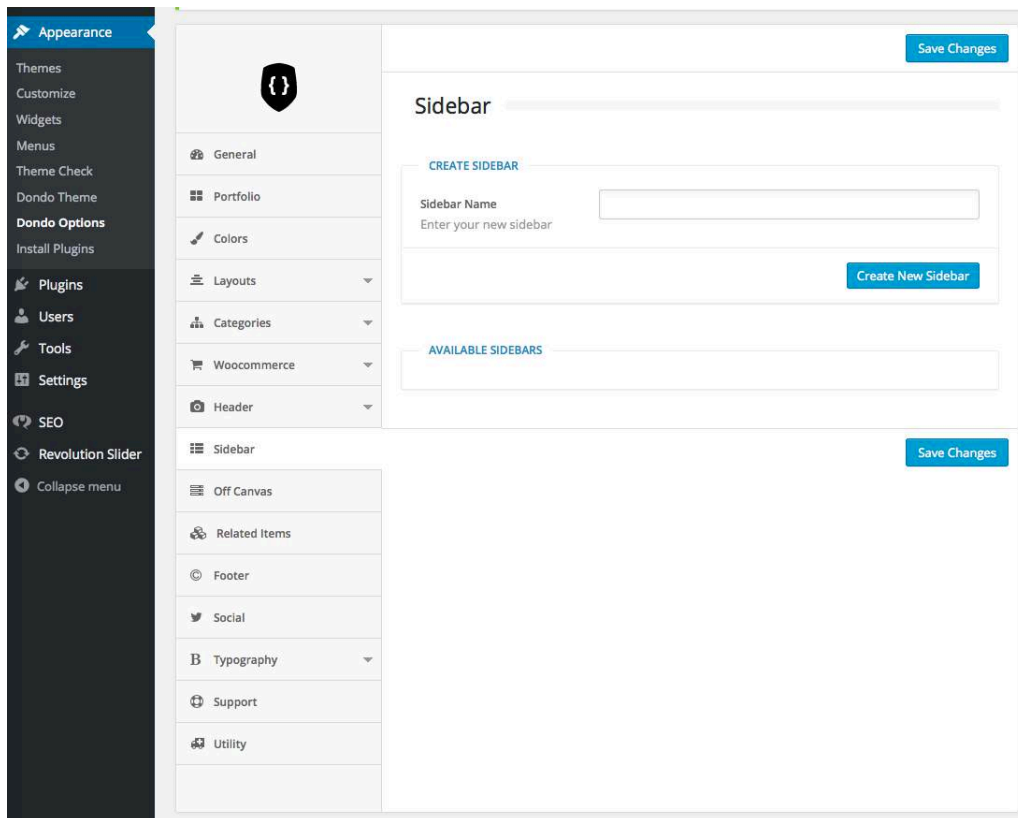

You're able to show a "SEARCH" in your top bar menu. In here you can also set colors for Top Bar, Search button, and Social icons.

This is how it looks at the front-end of theme DONDO.

# 11. DONDO Options – Sidebar

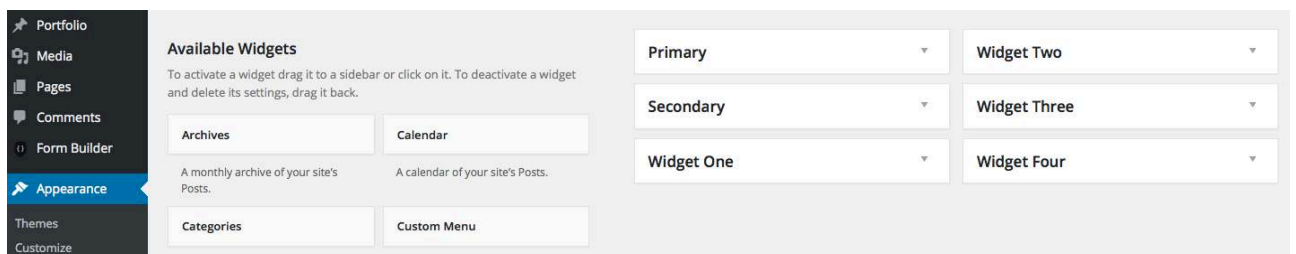

Here you're able to create your sidebar **“names”** (for usage on specific pages or sections). You can fill your sidebars with Widgets later on via Appearance / Widgets. Don't forget to hit changes once you're done.

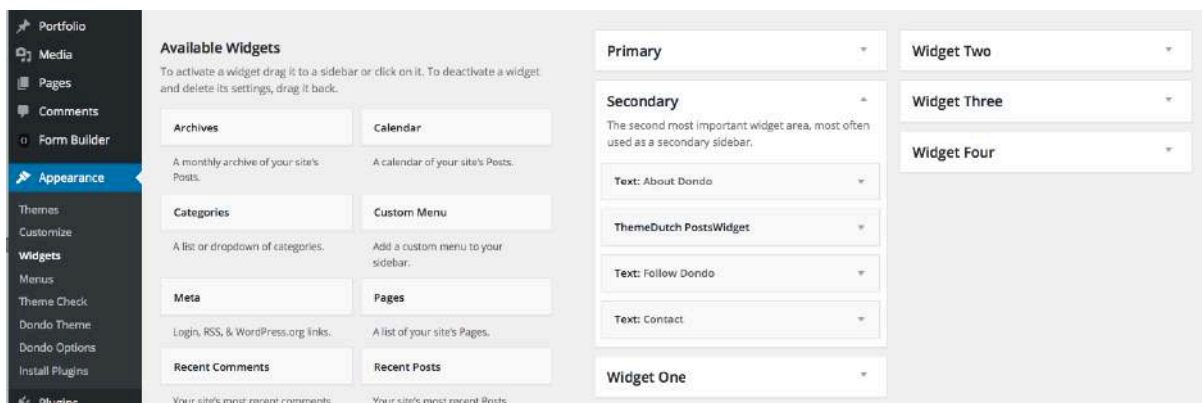

## NOTE:

Prevent using punctuation marks when creating a sidebar's title. Don't use characters like: “, : \_ and so on in your sidebars titles. Using these characters in titles can cause issues, that are not caused by the theme, but can be caused by conflicts with MsqI and other used programs.

Widgets Sidebars: via Appearance / Widgets

Drag and drop the necessary widgets to your 'assigned' sidebars at the right and fill them with text or any other html content (text, images, video's).

**NOTE:**

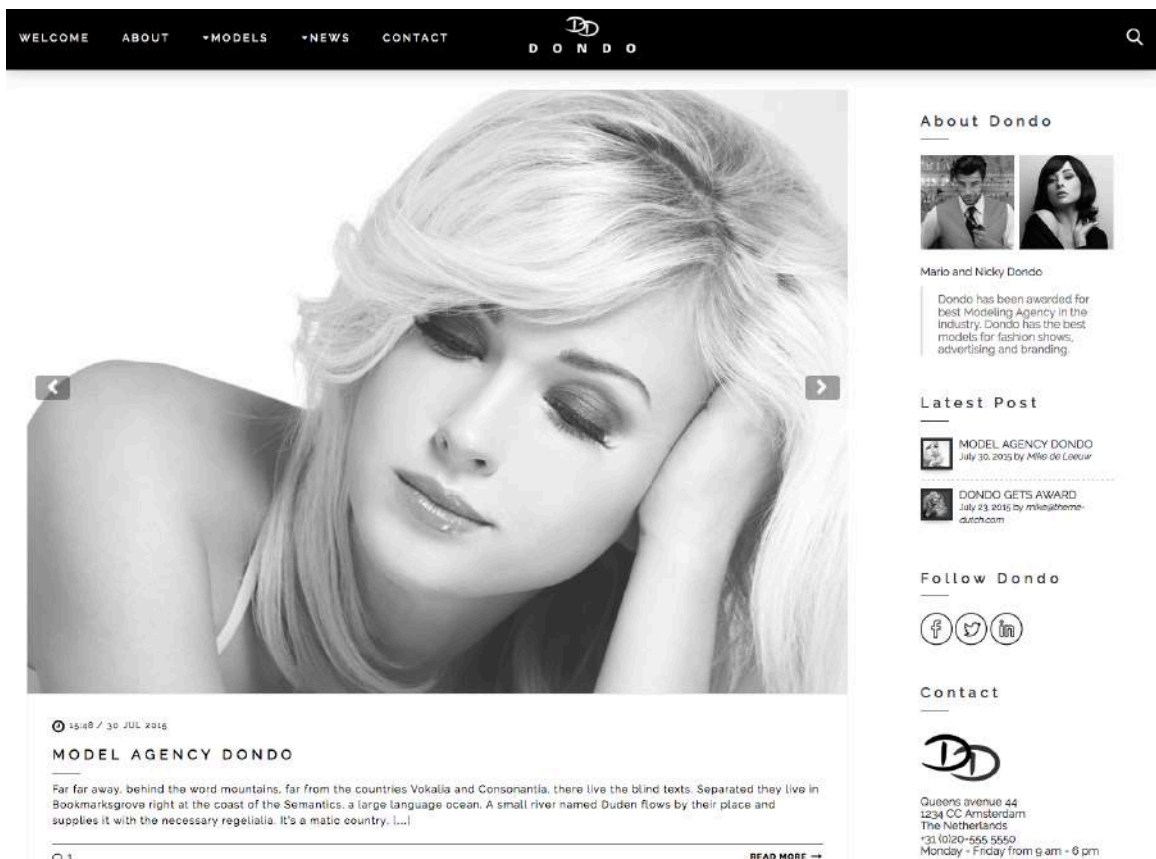

To know more about Wordpress Widgets (how to add and activate widgets, and learn about its use etc.) please read these tutorial pages:

[https://codex.wordpress.org/WordPress\\_Widgets](https://codex.wordpress.org/WordPress_Widgets)

<http://en.support.wordpress.com/widgets>

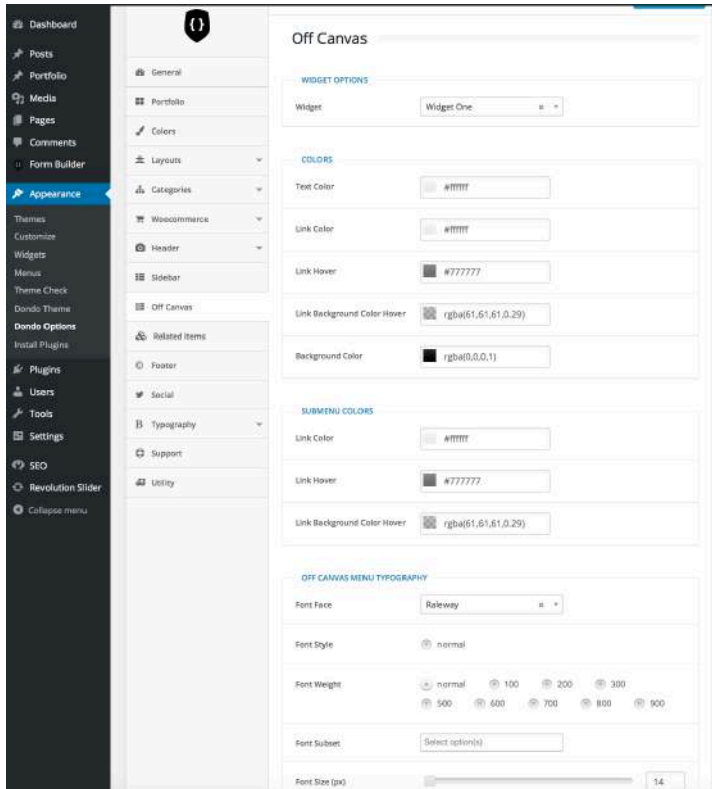

This is how sidebars look like at the front-end of DONDO.

<https://theme-dutch.com/presents/dondo/blog/category/blog/>

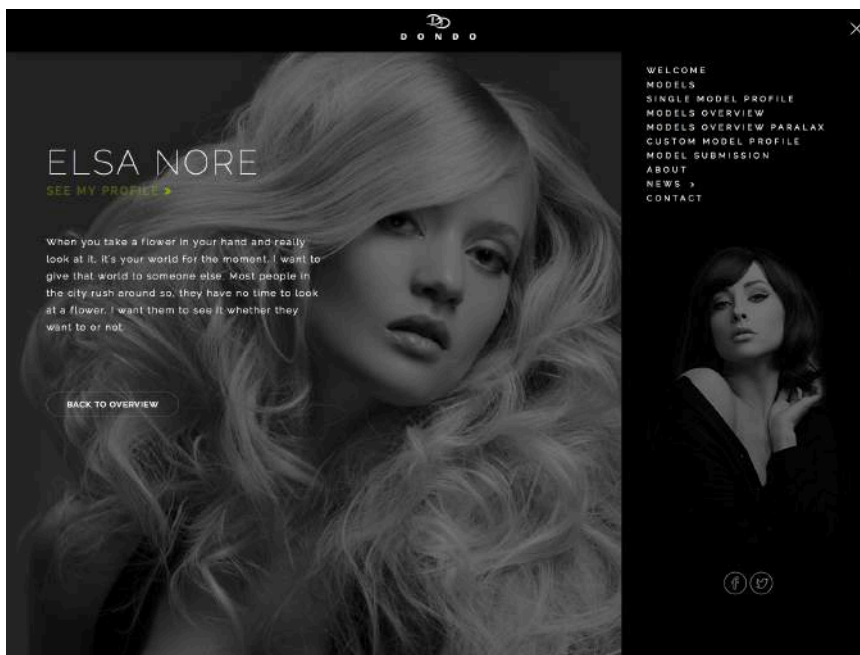

## 12. DONDO Hill Options – Off Canvas

Here you're able to set a widget, text color, link color, link hover color, background color for DONDO's off canvas menus. All settings are self-explanatory.

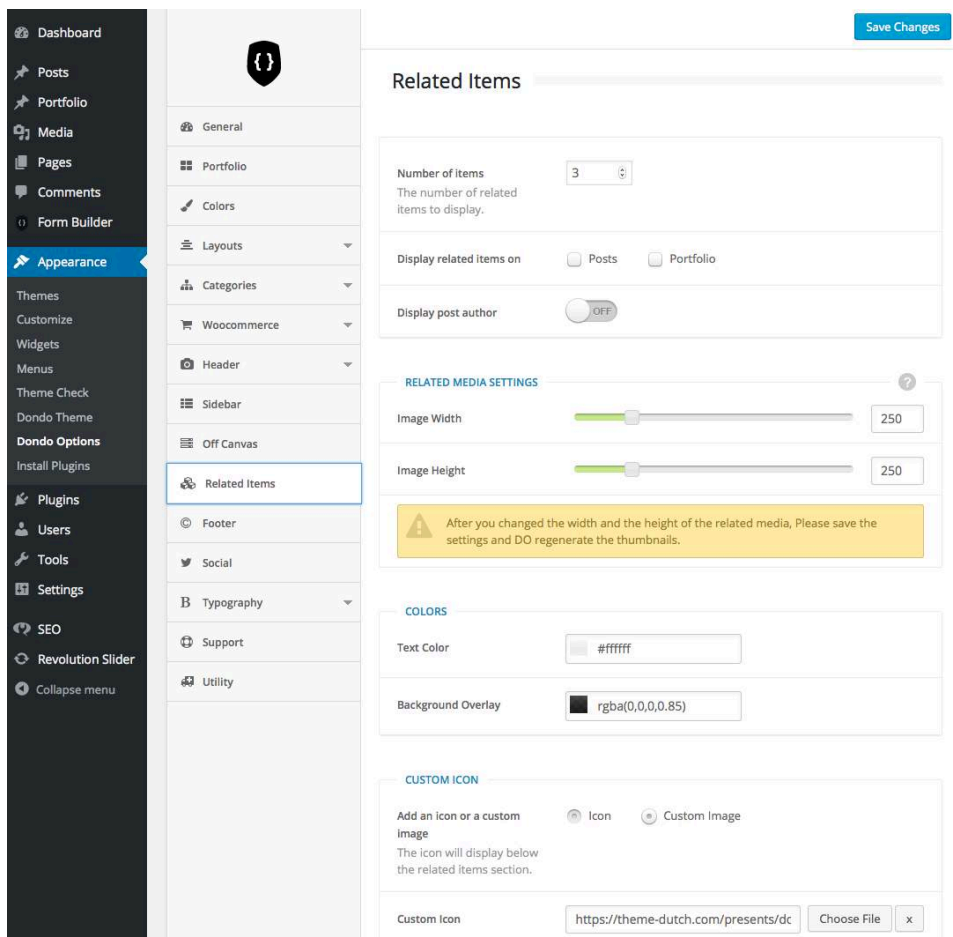

This is an example of how a Off Canvas menus can look at the front-end of theme DONDO. <https://theme-dutch.com/presents/dondo/demo01/>

## 13. DONDO Options – Related Items

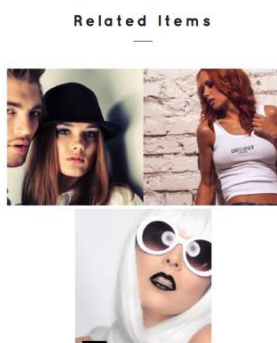

This section allows you to set related items on Posts and Portfolios. All settings are self-explanatory.

### NOTE:

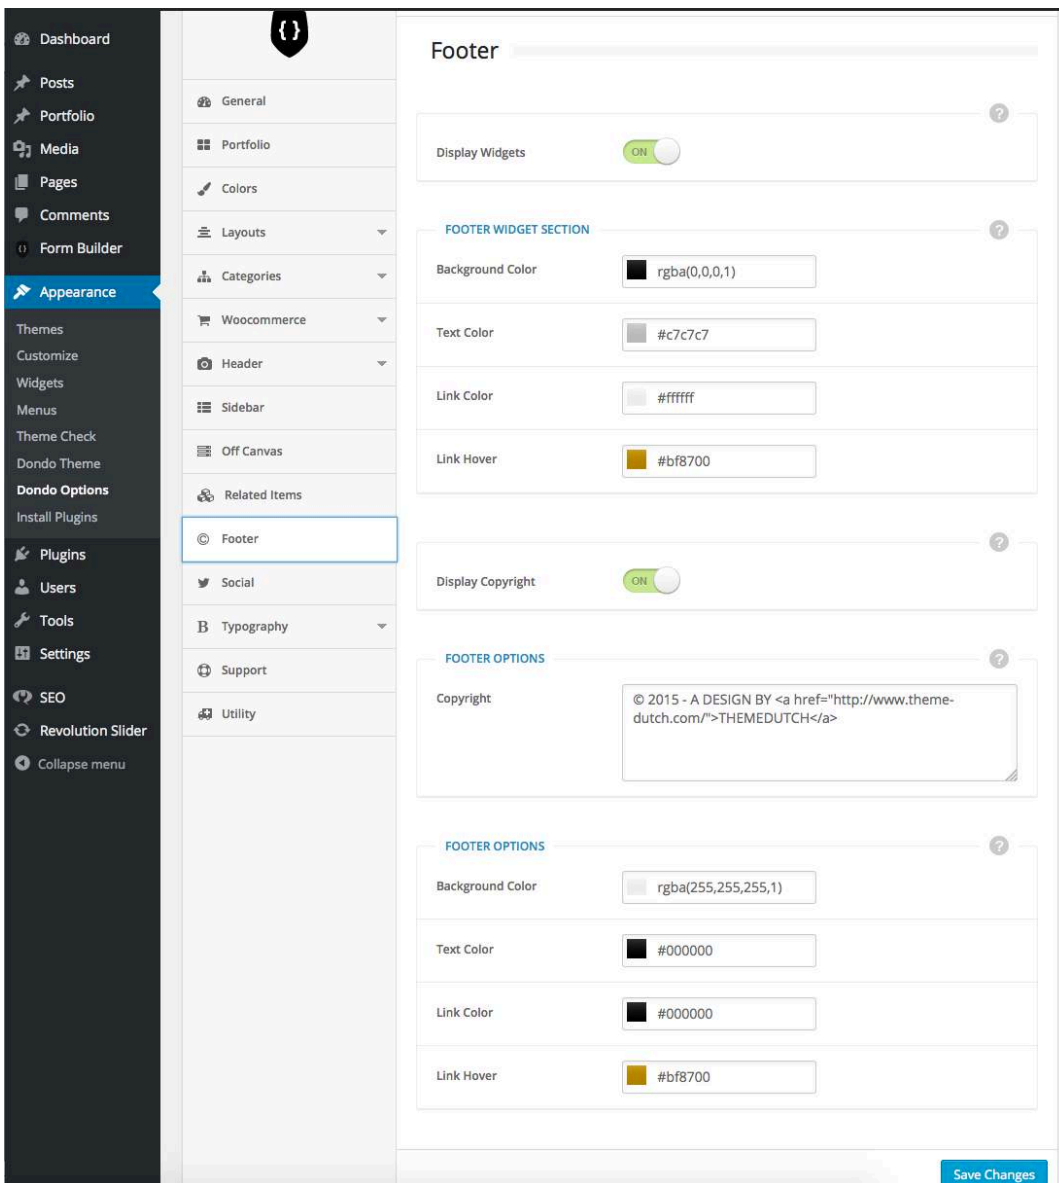

We did not add related items on the front-end of a portfolio page or blog page. (We turned display post author 'OFF')

This is how they can look like at the bottom of your page though.

## 14. DONDO Options – Footer

Use this tab to define all your footer settings. All settings are self-explanatory.

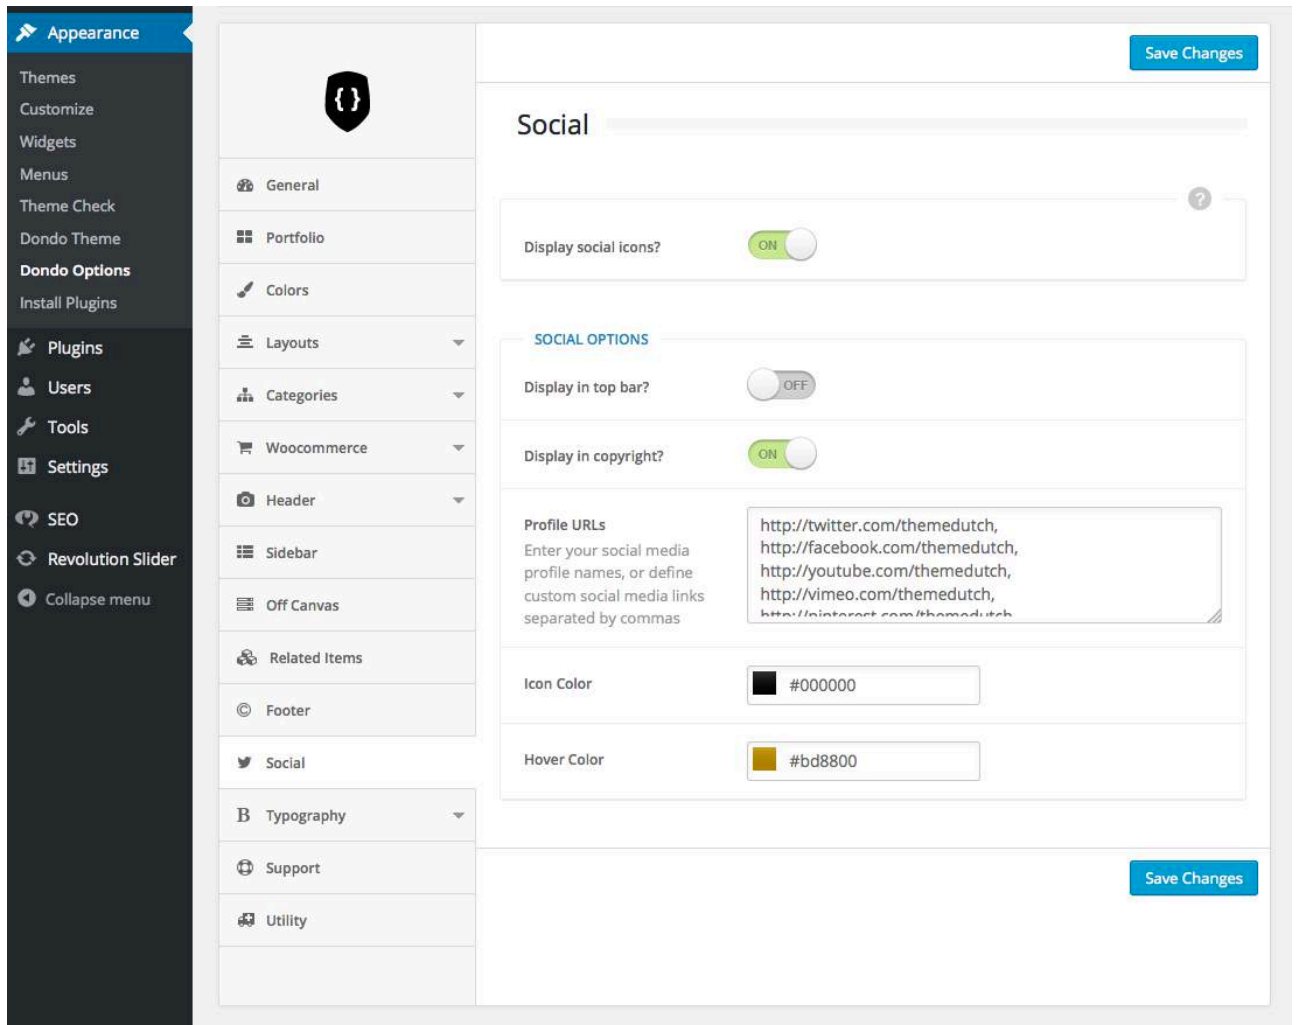

This is how it looks at the front-end of theme DONDO.

## 15. DONDO Hill Options - Social

In here you can make use of social options, display social icons, and set the colors.

All used social icons will appear in your website's Top Bar and / or in copyright section. All settings are self-explanatory.

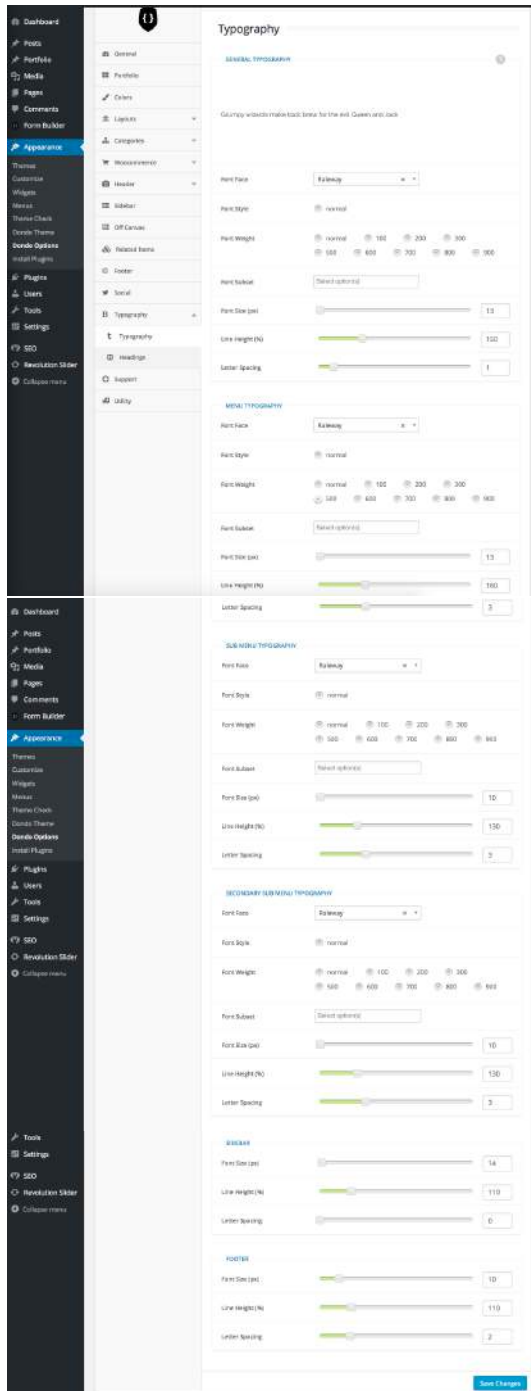

The screenshot shows the 'Social' settings panel within the 'Appearance' section of a WordPress theme customizer. The left sidebar contains a navigation menu with options like Themes, Widgets, Menus, and Settings. The main panel is titled 'Social' and includes a 'Save Changes' button in the top right corner. The settings are organized into sections: 'General' with a 'Display social icons?' toggle set to 'ON'; 'SOCIAL OPTIONS' with 'Display in top bar?' set to 'OFF' and 'Display in copyright?' set to 'ON'; 'Profile URLs' with a text area containing links for Twitter, Facebook, YouTube, Vimeo, and Pinterest; 'Icon Color' set to '#000000'; and 'Hover Color' set to '#bd8800'. A second 'Save Changes' button is located at the bottom right of the panel.

# 16. DONDO Options - Typography

In here you'll find all options for your websites' typography. (Google fonts): **Font face, font style, font weight, font subset, font size, line height and letter spacing.**

You're able to select different fonts for 1. Menu, 2. Sub Menu, 3. Secondary Sub Menu, 4. Sidebar, and 5. Footer.  
All settings are self-explanatory.

# Headings

In here you can set the font face, style, weight, size etc. for all headings. All settings are self-explanatory.

The screenshot displays the WordPress dashboard's 'Appearance' settings, specifically the 'Headings' section. The left sidebar contains a navigation menu with 'Appearance' highlighted. The main content area is titled 'Headings' and features a preview of the heading text: 'Grumpy wizards make toxic brew for the evil Queen and Jack'. Below the preview is a configuration panel with the following settings:

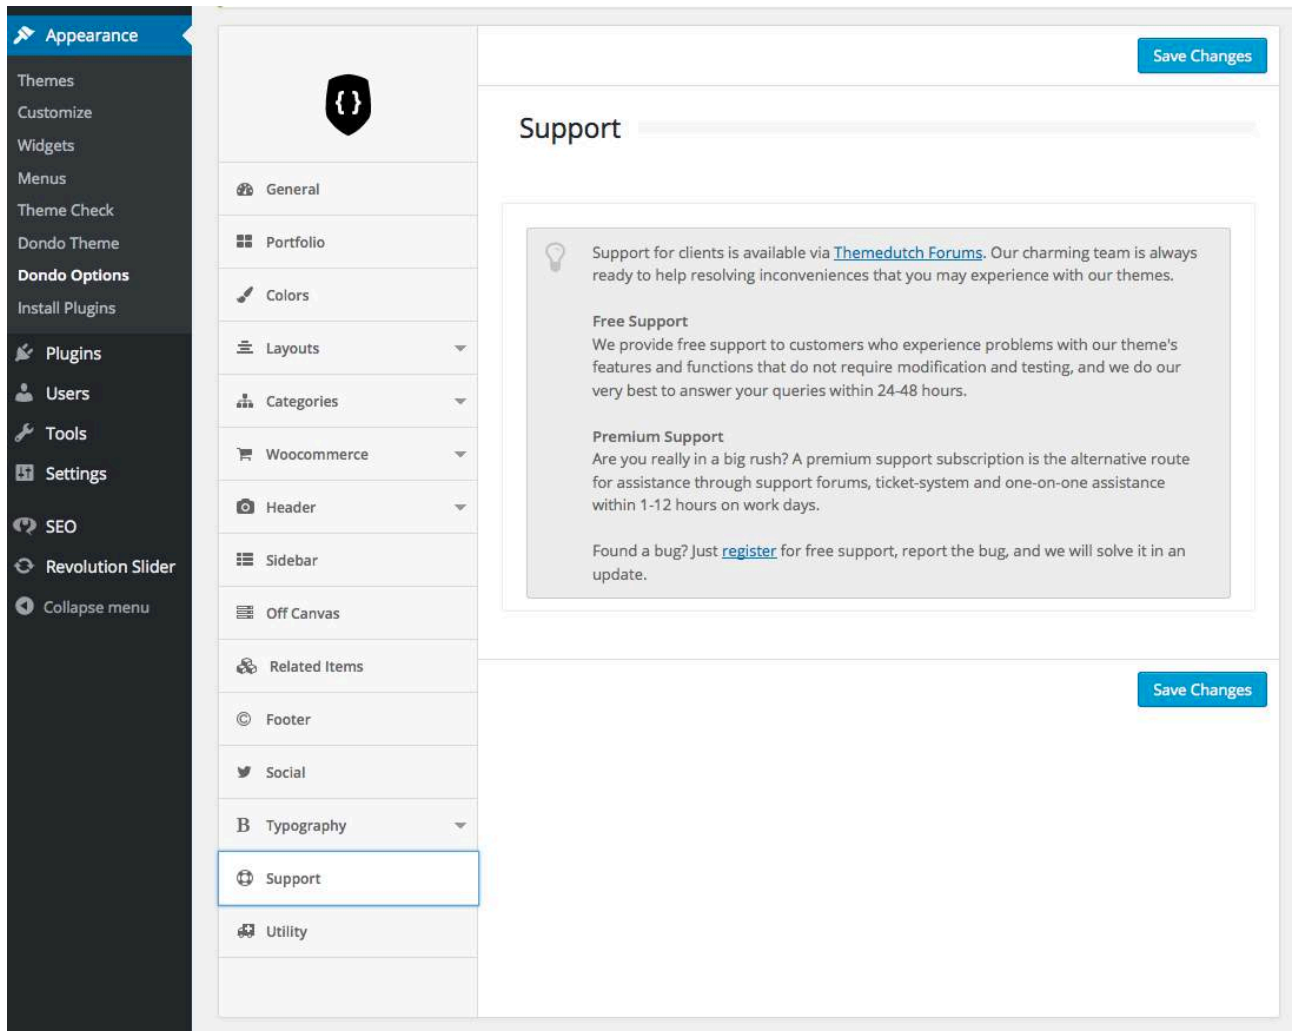

- Font Face:** A dropdown menu set to 'Raleway'.
- Font Style:** A radio button set to 'normal'.
- Font Weight:** Radio buttons for 'normal', '100', '200', '300', '500', '600', '700', '800', and '900'.
- Font Subset:** A text input field with the placeholder 'Select option(s)'.

Below the main configuration panel, there is a section for 'H1' with three sliders and input fields:

- Font Size (px):** A slider set to 45.
- Line Height (%):** A slider set to 130.
- Letter Spacing:** A slider set to 5.

# 17. DONDO Hill Options – Support

We provide free support through our forums. Please read this before you ask for support.

## 18. DONDO Hill Options – Utility (import dummy content)

The tab “Utility” within **DONDO Hill Options** is created for importing Dummy Content, and/or export your DONDO theme options.

Please read all ‘IMPORTANT NOTICES FIRST’ before you install DONDO.

### Import Dummy content.

Hit the button ‘Install Dummy Content’ if you would like to install the official DONDO preview website’s content.

The screenshot displays the 'Utility' tab within the DONDO Hill Options interface. On the left, a dark sidebar contains a navigation menu with 'Appearance' highlighted in blue. Under 'Appearance', the 'Utility' option is selected, indicated by a blue arrow. The main content area is titled 'Utility' and is divided into three sections:

- EXPORT/IMPORT:** Contains two panels. The top panel is for 'Import' with 'Import Options' and an 'Import' button. The bottom panel is for 'Export' with 'Export Options' and an 'Export' button.
- DUMMY CONTENT:** Features a heading 'Install Dummy Content' and a sub-heading 'One click import tool'. It includes a warning: 'Make sure WordPress importer is installed and activated! Select which dummy content you would like to import. When selecting Dondo as dummy content the images will be downloaded locally from the theme folder. Other demos will be imported from a remote server, and depending of your server the import time can take a bit longer. [Click here to preview available demos...](#)'. Below this is a dropdown menu set to 'Dondo (default dummy content)', a checked checkbox for 'Import the demo theme settings (overrides current settings)', and a blue 'Install Dummy' button.
- RESTORE DEFAULT:** Includes a heading 'Restore Default Options' and the text 'Restore options to initial default values.' It features a blue 'Restore Default' button and a warning: '\*\* Please make sure you have already make a backup data of your current settings. Once you click this button, your current settings will be gone.'

At the bottom right of the main content area, there is a blue 'Save Changes' button.

## IMPORTANT NOTICE: 1.

**Importing dummy content ‘may take some time’.** Installing dummy content will not cause problems if you have “good quality hosting”. In some cases the dummy content will not work, for example if you really have bad hosting.

(You will also need to import the Revolution Slider demo content if you want to make use of the Revolution Sliders) See the Dondo Unzip me please file.

## IMPORTANT NOTICE: 2.

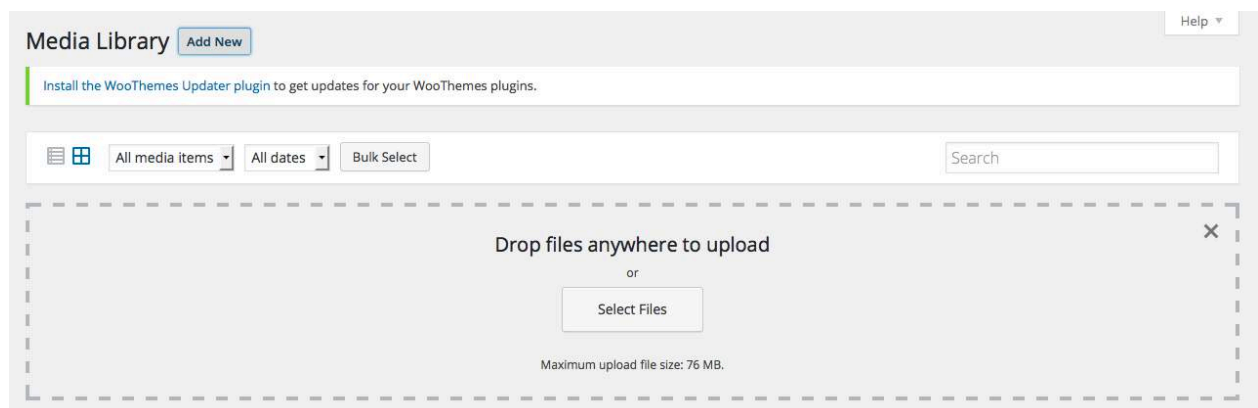

1. After installing ‘dummy content’ you still need to assign menus to the main and footer areas yourself. Set your home page via Settings / Reading.

2. Sidebars and Widgets are not included in the dummy content. These you’ll have to create yourself. You can read in the manual how to create Sidebars and Widgets.

3. When installing all Plugins that come with the theme, insure that no other caching Plugins are installed/activated.

## IMPORTANT NOTICE: 3.

Before installing ‘dummy content’ you need to check if your Media Library has a Maximum Upload file size of at least: 75 MB. If this not the case for example only 8 MB, the dummy content will not work!

## How to increase the Maximum Upload file size?

add this to top of wp-config.php  
`define( 'WP_MEMORY_LIMIT', '75M' );`

## Multi Site Maximum Upload file size?

In case of a Multi site setup go to the Network settings/ Upload settings / Max upload file size.

**Upload Settings**

Site upload space  Limit total size of files uploaded to 100 MB

Upload file types   
Allowed file types. Separate types by spaces.

Max upload file size  KB

**Language Settings**

Default Language

**Menu Settings**

Enable administration menus  Plugins

[Save Changes](#)

#### **IMPORTANT NOTICE: 4.**

**All pages content from DONDO’s ‘Main Demo’ is included in your theme files.** This is the best way for having a flawless installation. We have not included the other demos. When you install one of the other demos, the content and images will be downloaded from our server directly. This may take some time, despite our effort to create all other demos as small as possible.

#### **IMPORTANT NOTICE: 5.**

We’ve made sure that our demo installer will work on most hosting platforms. We are not responsible for installation problems caused by your server or settings. It can be a time consuming process if we need to check your server settings and sometimes we even need to contact your hosting provider. Therefore we offer affordable Installation services that are available via our website.

#### **Import Dummy content.**

Hit the button ‘Install Dummy Content’ if you want to install the official DONDO preview website’s content.

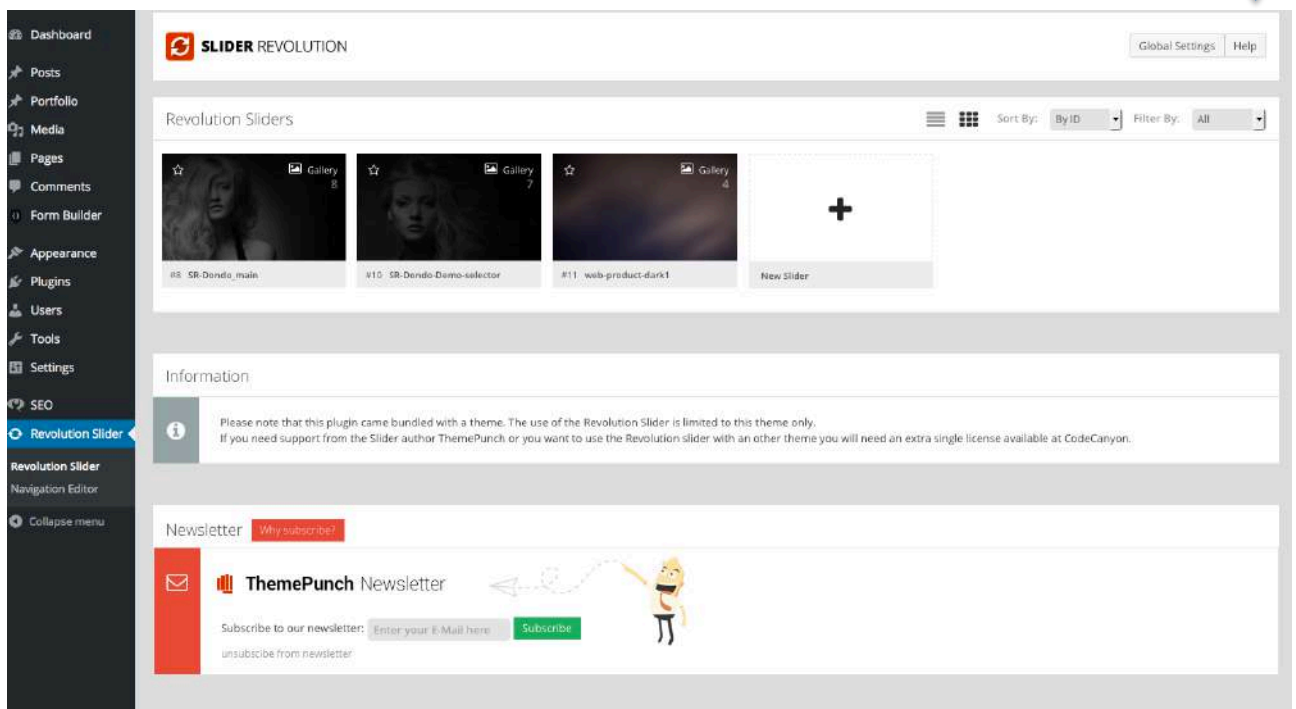

## 19. The Revolution Slider (Revolution Slider plugin)

You're able to install/activate this powerful plugin via your Dashboard.

### NOTE:

For support on Slider Revolution please 'check' the help button on the top right of the Revolution slider tab.

<http://www.themepunch.com/revslider-doc/slider-revolution-documentation/>

On the home (welcome) page we've added this shortcode: `[rev_slider alias="SR-Dondo_main"]`

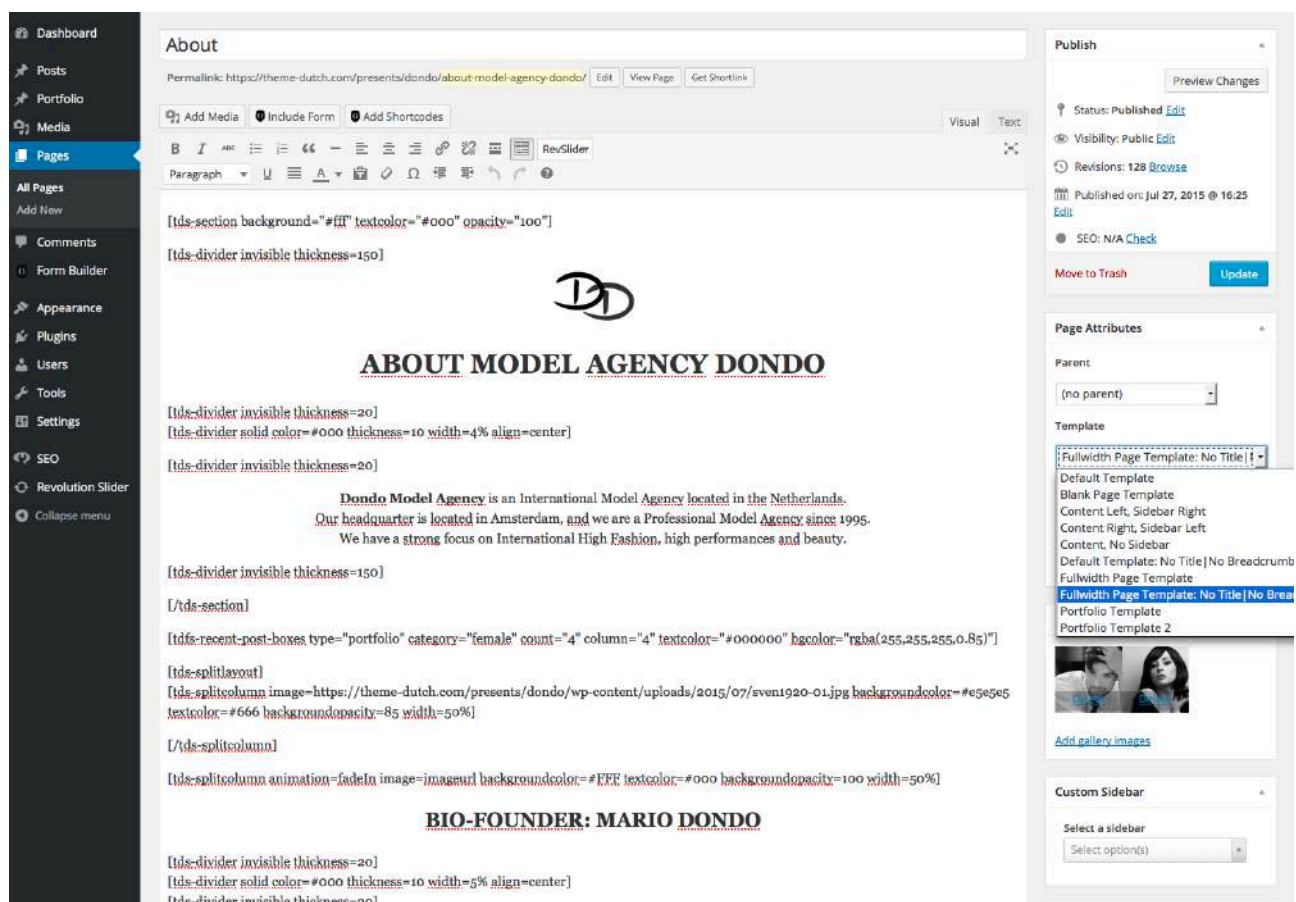

## 20. Set up Pages

DONDO 'ABOUT US' page example

<https://theme-dutch.com/presents/dondo/about-model-agency-dondo/>

On your right hand beneath **Page Attributes** you have options to select your desired template into: default, blank full width and more.. This option is available on pages, not on post pages though.

You can create different layouts for each page. We selected 'Fullwidth Page Template: No Title | No Breadcrumbs

The screenshot displays the WordPress admin interface for editing a page titled 'About'. The left sidebar shows the 'Pages' menu. The main editor area shows the page content with various HTML tags and a visual editor toolbar. The right sidebar shows the 'Page Attributes' section with the 'Fullwidth Page Template: No Title | No Breadcrumbs' selected. The page content includes a logo, a title 'ABOUT MODEL AGENCY DONDO', and a paragraph of text.

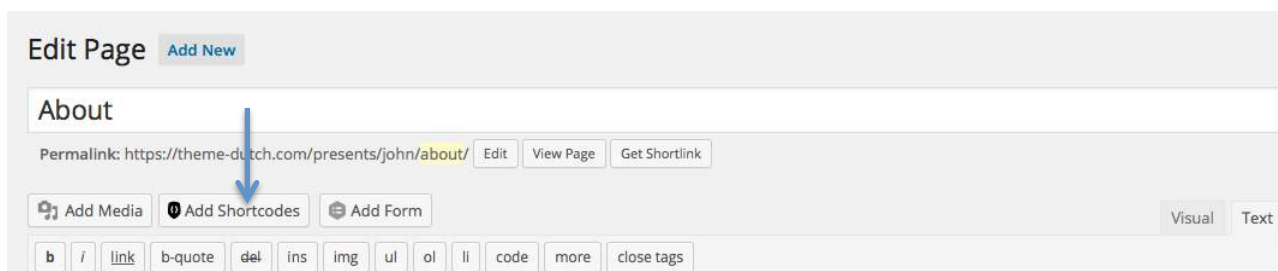

You can add your text content and images via the visual editor or text editor.

### NOTE:

If you want creating full width pages including text content within the 1140 grid, make sure you create a "section" in which you add your content.

There are several options for content within a section. You're able to create sections on a full width template, blank page template and portfolio templates.

At the top of every page and post you'll find two tabs: **Add Media** and **Add Shortcodes**. Via Add Media you're able to insert your favorite images from your Media Library into your posts and pages. Via Add Shortcodes you're able to insert TD-shortcodes (like columns, buttons, dividers, galleries and much more), which you can use to design your layout and spice up your pages

This is an example of all available section shortcodes in DONDO

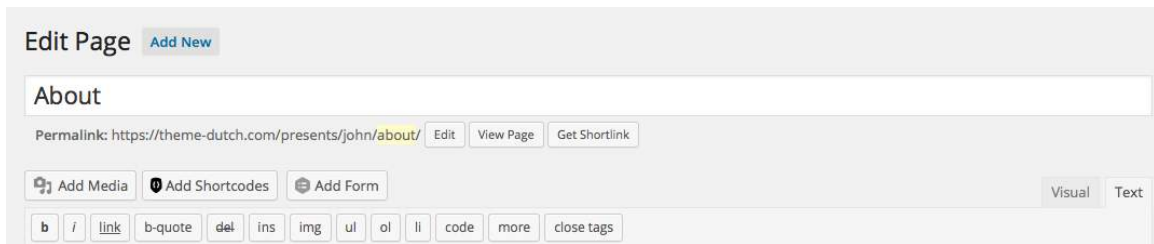

TD Shortcodes		
Categories	Shortcodes	Description
Animated Icon Grid	Section Separator	
Animated Image	Section Separator Down	
Boxed Image	Section	
Boxed Slider	Section with a background image	
Buttons	Section with a background image and a parallax effect	
Caption	Section with a sequence background image and a parallax effect	
Code	Section Full Screen	
Columns		
Columns (divider)		
Columns (fullheight)		
Custom Height Columns)		
Counter		
Dividers		
Dropcaps		
Headings		
Icons		
Image gallery		
Image Menu		

## Custom Content

In here you can add custom content (via your Visual Editor, within preferred short codes) that will appear on your featured image (header) at the front-end.

NOTE: we did not use this feature on pages of DONDO.

## 21. How to use TD-shortcodes (plugin)

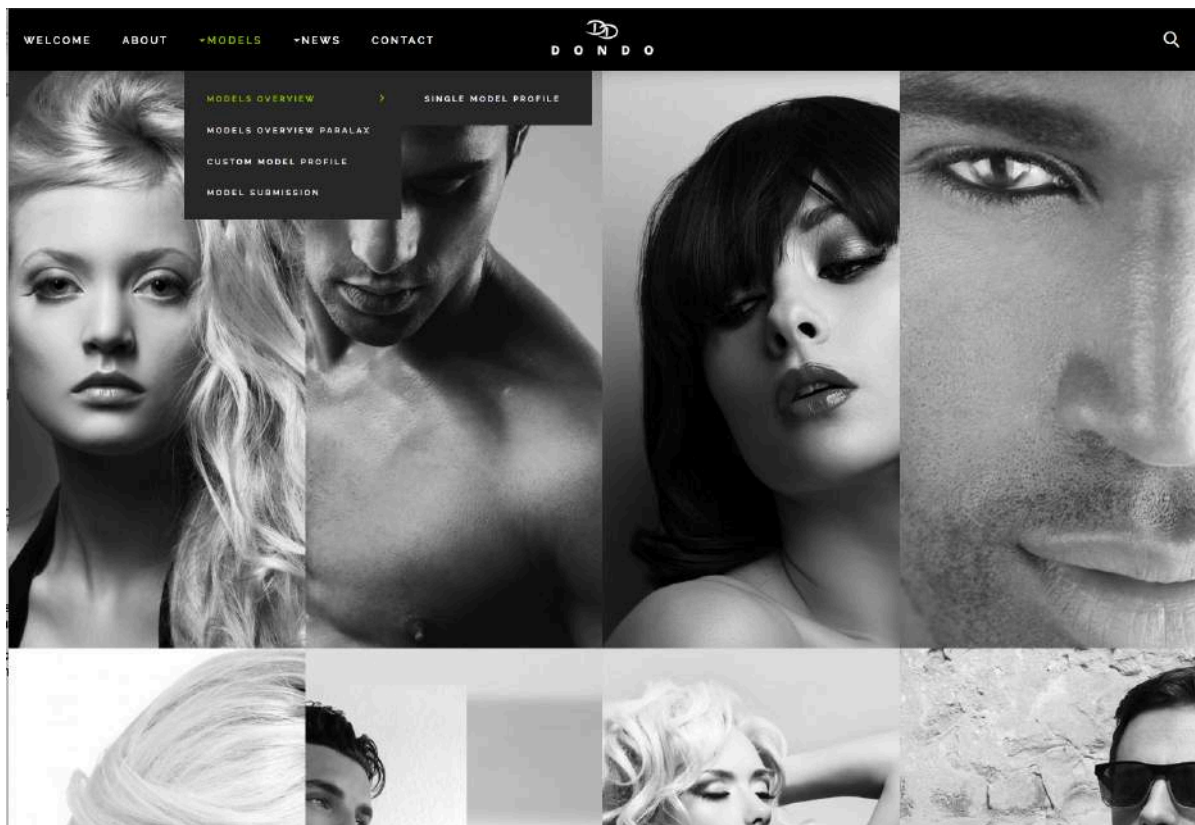

On the icon bar above the content block of every page or post, you'll find the TD short code manager. (**Regulated via the TD-shortcode Plugin**)

The TD-shortcode manager provides lots of categories and options to make us of short codes to spice up your pages and posts via your **text editor**.

### EXAMPLES:

<https://theme-dutch.com/presents/dondo/models-overview/>

Used shortcode: `[tdfs-recent-post-boxes type="portfolio" category="all" count="10" column="4" textcolor="#000000" bgcolor="rgba(255,255,255,0.85)"]`

<https://theme-dutch.com/presents/dondo/models-overview-parallax/>

Used shortcodes: 1. Section; 2. Divider; 3. Button; 4. Divider

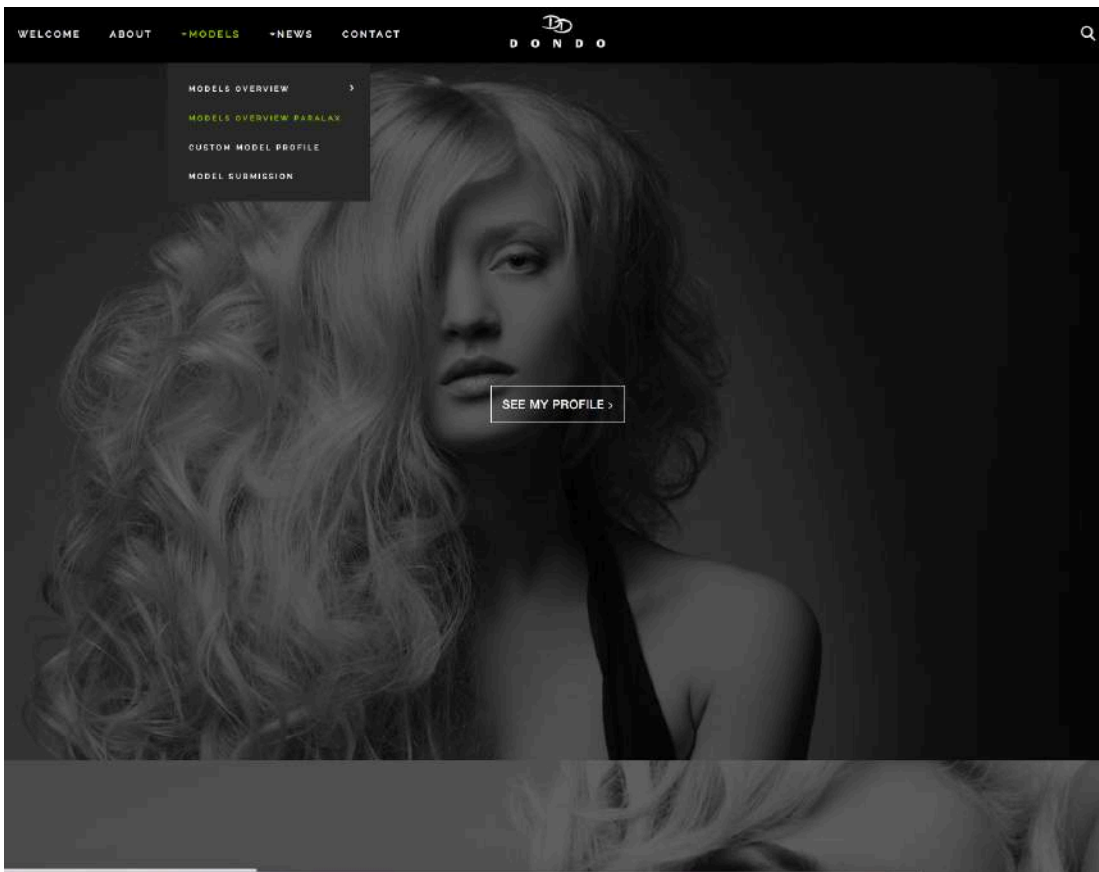

1. [tds-section speed="5" background="#FFFFFF" textcolor="#000000" backgroundimageurl="" ]

2. [tds-divider invisible thickness=450]

3. tds-buttontransparent medium link="" textcolor="#ffffff" textcolorhover="#000" buttoncolor="#000000" buttoncolorhover="#FFF" bordercolor="#fff" bordersize="1px" bgcolortransparency="0" bgcolorhovertransparency="100" newwindow="false" ]SEE MY PROFILE <i class="fa fa-angle-right"></i> [/tds-buttontransparent]</p>

4. [tds-divider invisible thickness=450]  
[/tds-section]

And so on.....

**NOTE:**

Basically all TD-shortcodes work the same, and 'live example' short codes you'll find on DONDO's Preview website. Install TD-shortcode plugin and 'dummy content' to see how most TD-Shortcodes are used in the backend. For more examples of TD-shortcodes visit: <http://theme-dutch.com/demo/> Select other preview websites or Theme Dutch themes to see how they can be used.

# FORMS

## SHORT CODES used in DONDO

Example: <https://theme-dutch.com/presents/dondo/>

Newsletter: `[tdfb_form id="357"]`

<input type="checkbox"/> Title	Date
<input type="checkbox"/> Newsletter_subscribe <code>[tdfb_form id="357"]</code> Duplicate Edit Trash	2015/07/30 Published

Example: <https://theme-dutch.com/presents/dondo/contact/>

Contact: `[tdfb_form id="357"]`

<input type="checkbox"/> Contact <code>[tdfb_form id="322"]</code> Duplicate Edit Trash	2015/07/30 Published
--	-------------------------

Example: <https://theme-dutch.com/presents/dondo/model-submission/>

Model submission: `[tdfb_form id="251"]`

<input type="checkbox"/> Model submission <code>[tdfb_form id="251"]</code> Duplicate Edit Trash	2015/07/30 Published
---	-------------------------

Example: <https://theme-dutch.com/presents/dondo/models/>  
(booking request form on models pages)

Men booking form: `[tdfb_form id="114"]`

<input type="checkbox"/> Men Booking Form <code>[tdfb_form id="114"]</code> Duplicate Edit Trash	2015/07/29 Published

# 22. How to make your website multilingual

DONDO is WPML-ready. Upload, install and activate the (WPML plugin).

Then follow the instructions via your Wordpress admin.

**Need support to set up your own WPML site? Visit:**  
<http://wpml.org/documentation/> and <http://wpml.org/forums/forum/english-support/>

## 23. How to translate your website

### Translation Ready

English, Dutch, French, German or Spanish? Whatever your language is, we've got you covered. That's because we thought about the smallest details when we created DONDO. This theme's content can be translated to any major language you want.

We understand our theme will be sold worldwide. You can translate by using the pot file. Just follow the following steps:

- 1) Download Poedit from <http://www.poedit.net/>
- 2) Install poedit on your computer
- 3) Open poedit
- 4) Choose file > new catalogue from POT-file
- 5) Search your theme folder of DONDO > go to languages > Dondo.pot
- 6) Press ok
- 7) Poedit will ask you where to save the .po and .mo files. Choose the same folder. Name the files your language zone (example: nl-NL for the Netherlands)
- 8) Translate all the options (not all needed)
- 9) Upload the .mo and .po file to the languages folder on your website.
- 10) Change you wp-config-file with your language-code

## 24. Theme Dutch Support

If you need support, have suggestions, concerns or you just want to ask a question, please go <http://theme-dutch.com/> and register your account. Don't forget to fill out the purchase code or Transaction ID of your Theme Dutch product, which you've received via our marketplace partner after buying our theme. **(We will verify your purchase before we provide support)**. After registering you'll receive an e-mail notification with username and password. Use these to login to your account and to be able posting your queries via <http://theme-dutch.com>.

**IMPORTANT NOTICE:** PLEASE READ OUR BASIC FORUM RULES FIRST  
Login in, and then you're able to access our FREE support forum for DONDO.

**We DO NOT provide support via e-mail – only through our 'free' support forum and/or 'premium support forum including ticket system'.**

If you have 'sales related' questions about customization jobs, installation programs or otherwise, you're welcome to send an email to [sales@theme-dutch.com](mailto:sales@theme-dutch.com).

**Our support team's goal is to handle every request voluntarily, quickly and correctly.** During office hours we will try to answer your queries immediately. Most of the time, questions are answered within 24-48 hrs. on Monday – Friday.

## 25. Services

Our team of web designers and web developers are standby if you want to make adjustments to your website. Check our website for WordPress **Installation plans** and **Customization jobs**. If you need additional info you also can contact us via the contact form on our website.

### **Wordpress installation plans:**

For more detailed information please visit: <http://theme-dutch.com>

### **Customization plans:**

For more detailed information please visit: <http://theme-dutch.com>

## 26. Warranty

Upon purchase of the theme, DONDO will be given to you as a download file. We guarantee a fully functional DONDO theme if you follow our advice, guidelines and installation instructions.

Updates for DONDO we announce via [www.facebook/themedutch](http://www.facebook/themedutch) and <https://twitter.com/themedutch>

You also can opt for receiving messages regarding updates via your marketplace profile page though.

## 27. Contacting Theme Dutch

Theme Dutch Limited is based in the Netherlands. Our office address is:

Theme Dutch Ltd.

Koningin Regentesselaan 44

6043 CM Roermond

The Netherlands

[www.theme-dutch.com](http://www.theme-dutch.com)

## 28. How to set up Permalinks

Editing your WordPress Permalinks is good for SEO purposes. You can make the URL of your website more readable for your visitors. Tweaking your permalinks can also give you an advantage to search engines such as Google, Bing and Yahoo. This way your content can be easily found and indexed.

For more information and details on how to customize your permalinks, please visit:

[http://codex.wordpress.org/Using\\_Permalinks](http://codex.wordpress.org/Using_Permalinks)

## 29. Wordpress information

For all WordPress-related questions, inquiries and concerns (such as; how to create pages or posts, how to disable comments etc.), please visit:

[www.wordpress.org](http://www.wordpress.org)

## 30. DONDO – Update Notification

**Before you update the theme files make sure you have made an export from your settings and save it as a text file.**

- 1 – Create export (see Utility) and copy the settings into a text file for save keeping.**
- 2 – Upload the theme files by FTP or through the Wordpress Installer.**
- 3 – Go to Utility and import the settings, all your settings will be re-stored.**
