

The Wikaniko PartWork Income Plan

By Trevor and Karen Blake
Wikaniko Ltd

Do you really want to know what it takes to make money in our kind of business?
Do you want to know how much effort to put in, and what you can expect to get back for that effort?

First of all, remember that with Wikaniko, you are doing something so worthwhile. We don't sell items, services or products to others, hoping to line our own pockets as a result. That would create a short term business. Instead, we help make the world a far better place. Every time we do that, we get paid.

We also ask others to join us, as the world is a very big place, and we need a lot of help!

Simple.....and as a result, it is easy to both get retail orders, and recruit others.

However, most people who join this type of business don't actually know what to do, in order to get the income rolling in properly. As a result, many do little or nothing, and this is so silly! Furthermore, a lot of 'work from home' companies create a plan that you and I both know is never going to work in a month of Sundays, don't we! You know – the crazy plans that tell you to recruit 5 people a month who all recruit 5 a month, who all sell 500 pounds worth of product, and everyone does it perfectly so that you end up with a massive income..... That simply isn't going to happen. It is never ever going to happen, and these types of promises and earnings examples should be banned as far as we are concerned. What we are about to show you is an astonishing way of building a wonderful income for yourself, even on a very part time basis.

Would you like that?

Then, we are going to show you how to increase that potential considerably.....

So let's get started.

First of all, your task is to get to Qualified Distributor.

This means that you have to have a Group Volume of 100 CV.

Here's how to accomplish it.

Build up your retailing, eco events, etc., so that you can achieve 100 CV yourself in your 1st month and introduce 1 other distributor per month, repeat this in the second month each of you doing just 100 CV and sponsoring 1 other distributor each, each distributor gets promoted to Qualified Distributor in their first month

Is 100 CV easy to do?

Errr.....if you are not doing this amount in retail sales, then you are not really promoting the products and using the methods that we teach! There are many distributors retailing far more than that every month, part time.

Now for the second part of the plan.

After you become a Qualified Distributor, you would need to do at least 36 CV per month in order to receive the overrides on your team (the people that you are bringing in every month) This will be easily made up of your own personal requirements, from Internet customer sales and from repeat orders from customers. (The average figure for 2011 was 104 CV for each and every active distributor, and rising. However we shall use a conservative 75 CV based on the average of all Wikaniko distributors who do more than Zero CV in a month)

So again, we've said nothing outlandish or ridiculous here, apart from the fact that everyone would achieve Qualified Distributor, and then everyone would do at least 36 CV every month.

That's not going to happen, as much as we would all like it to! Bear with me though, and let's work it through to see what happens....

All you need to do apart from doing your minimum 36 CV, is introduce just **ONE** distributor in a month.

Yes, ONE. Not ten, not 20. Just **ONE**. And that can easily be accomplished using the methods we show you, especially as you have over 7 BILLION people to approach!

That's it.....

You simply keep doing this every month. You're not really going to break into a sweat doing it, and it will take just a couple of hours a week. So you have absolutely no need to turn your life upside down, spend lots of money, get ill, or forsake your family in your pursuit of wealth!

Unfortunately, as we have taken great pains to point out, not everyone will play ball. Some of your new distributors won't do what you want them to do. Some won't do anything at all. Some will do less than you want them to do, and some will do more. So let's factor this into your plan too.

I am going to be so bold as to suggest that in fact, a huge...

80%

of the distributors in your team will **NOT** do anything with their business!

Now that's honesty for you, isn't it? Someone, at last, has stood up and said that no matter what you do, your business isn't going to work like they said it would. In fact, it is actually going to work like I have just said it would, and how you knew it would!

So can we still make some sort of an income, even if most people in your business do not make a success of it?

Actually, yes.

George, our Finance Director, has carefully formulated the Wikaniko PartWork Income Plan, based on the following criteria

- 1) You personally achieve Qualified Distributor in your first month, whether or not your team do (surely you don't intend to be one of the 80% do you?)
- 2) You bring in 1 new distributor per month and help them do the same as you
- 3) Average 100 CV per month for the first 3 months, then do at least the minimum to qualify of 36 CV per month (we would suggest you do more than that, as it is rather nice for you to help save the planet and make an income as you go along)
- 4) Your Team follows the same plan
- 5) 80% of them fall by the wayside, doing little or nothing

Now here are the results, which will blow you away:

Retail 100 CV for first 3 months And sponsor 1 new ID every month

Month	ID's that are producing	GV	Typical earning in 1st 3 months	
M1	You	100	Qualified Distributor	M1 £38.00
M2	2	200	Qualified Distributor	M2 £43.00
M3	4	400	Qualified Distributor	M3 £52.00
M4	8	699	<p style="text-align: center;">----- 80/20 rule applied from month 6</p> <p style="text-align: center;">This chart applies the 80/20 rule from month 6 as follows:</p> <p style="text-align: center;">From every 100 Distributors 20 produce all the volume 80 do little or nothing, so are ignored</p> <p style="text-align: center;">Over the 36 months 20 in every 100 ID's stay the course, and that has been applied to the growth on the left</p>	
M5	16	1298		
M6	19	1537		
M7	23	1824		
M8	28	2169		
M9	33	2582		
M10	40	3079		
M11	48	3674		
M12	57	4389		
M13	69	5247		
M14	83	6276		
M15	99	7511		
M16	119	8993		
M17	143	10771		
M18	171	12905		
M19	205	15466		
M20	247	18539		
M21	296	22227		
M22	355	26652		
M23	426	31962		
M24	511	38334		
M25	613	45981		
M26	736	55157		
M27	883	66168		
M28	1060	79382		
M29	1272	95238		
M30	1526	114265		
M31	1832	137098		
M32	2198	164498		
M33	2638	197377		
M34	3165	236832		
M35	3798	284179		
M36	4558	340994		

Then as long as you do at least the pay plans minimum CV of: **36 CV per month**
and continued sponsoring 1 new ID per month, at the end of 36
months you could be an NTL with a monthly residual income of : **£14,036**

Average CV per Productive ID used for the calculations is: **75 CV per month** (in 2011)
(A productive ID is an ID who produces some CV in a month)

Producing ID's per level	Commission % as an National Team Leader (NTL)	Earnings by month 36		
You	Personal	33%	£12	Doing at least 36 CV
5	Level 1	5%	£19	Doing average CV
25	Level 2	5%	£93	Doing average CV
225	Level 3	4%	£673	Doing average CV
975	Level 4	6%	£4,376	Doing average CV
1350	Level 5	4%	£4,039	Doing average CV
975	Level 6	4%	£2,917	Doing average CV
625	Level 7	3%	£1,402	Doing average CV
225	Level 8	3%	£505	Doing average CV
With full compression		Total	£14,036	per month by month 36

Now – hands up anyone who wants around

£14,000 a month

rising every month, for putting in some regular, consistent effort? And remember – this figure is taking into consideration that **only 20%** of your team is going to be running their business properly!

Wow. When you know what the top people in MLM know, and you start to apply this to your own business, you start to make the income of your dreams.....

Summary

We think you can clearly see that you have the key to your financial future in your hands. The only thing you can change or improve in network marketing is your own efforts, and your own consistency. So now you have a plan to earn 14,000 pounds a month and rising after just a short while. Would you be happy with that? You will also see the point where you will achieve the top of the plan – National Team Leader (NTL)

Please keep this graphical plan where you can clearly see it, to remind you in the early days that in order for you to become wealthy, you actually don't mind having 80% of your distributors doing nothing, in order to have 20% of distributors building phenomenal businesses! This is what most people do not understand about MLM. They get a few people in, who do little or nothing, and the distributor thinks that their business is failing – whereas if they just carry on doing what they are doing, the snowball that they are pushing uphill finally gets to the top. One more little nudge, and - wheeeeeeeeeee!!!!!!! It goes down the other side, faster and faster, getting bigger and bigger. In fact, so big that you cannot stop it.

Okay. Let's begin your plan. First step Qualified Distributor!
See you at the top in 36 months time.....

Trevor and Karen Blake

The Wikaniko Team

PS

I did say that I would explain how you could increase your income within the rules of the Wikaniko Higher Income Plan.

You know that you will be working your business properly, and not as one of the 80%.

If you are smart, you will register your partner beneath you as your first distributor. (Some companies do not allow this for some reason, and distributors are then forced to go 'under cover' by signing up their partners under a maiden name. We only have distributors who are proud of their business, and who work within the rules. So feel free to register your partner as a distributor in their proper name!)

By doing this, you can get an extra income for your household for helping to build that branch of your business, under someone that you care about.
