

EXPOSURE X2 Compact

Waterproof, versatile, durable, white/red beam Search Light suitable for handheld use and line of sight helmet mounting.

FL1 STANDARD						
Light Output	Beam Distance	Peak Beam Intensity	RunTime	Impact Resistance	Waterproof & Submersible	Weight

Core Feature	Benefit
6 x Constant modes	Complete control over battery life and output
Fuel level indicator	Allows efficient battery management ensuring you don't ffor better battery management
Red mode	for preserving night adapted vision the red mode offers a low level, long-lasting output for the majority of operations.
High output	for search, spot and trimming
2 second output build	the two second stepped change gives your eyes a chance to adapt to a bright light. This reduces the effect of the light on people's eyes if the momentary switch is accidentally pressed.
Bi- colour front output with double button operation	Allows easy switching between red and white outputs
Tactile button location	Elevated and flush button for quick and easy operation of correct colour output.
Colour coded locator LED	for easy location of the light
Integrated rechargeable battery. 12V charger available as an accessory	long burn times and fuel indicator eliminate the need for external / interchangeable batteries
IPX8 Rated to 5 meters	for reliability in the toughest, wettest conditions
Bracket compatible	for easy attachment to helmets and headbands – compatible with Gecko torch mounts
Ergonomic shape	Allows comfortable grip when handheld

Specification

Primary LED	White
<i>Output</i>	573 Lumens
<i>Burntime</i>	1h High, 3h Medium, 13h Low
Secondary LED	Red
<i>Output</i>	120 Lumens
<i>Burntime</i>	3.5h High, 13h Medium, 70h Low
Casing	Aerospace 6000 series Aluminium
Anodising	Marine grade anodising
LED life	Lifetime warranty
Lens	Culminated polycarbonate

Description

A waterproof IPX8 rated, 116g, anodised aluminium body conceals a rapid charging Lithium-Ion battery that powers white or red LEDs on 3 power levels, lasting 1-13 hours on white and 3.5-70 hours on red. Ergonomically designed to fit comfortably on to helmet brackets, whilst maintaining the ability to offer high outputs in both red and white.

In the package:

1 x X2 Compact

1 x USB Charger

1 x 240V charger adaptor

1 x Lanyard
