Recap of the abundance mentality series:

Abundance life is the main reason that Jesus came.

You have to change your thought pattern in order to have an abundance spirit.

The abundance spirit thinks win win. It gives room for others to excel.

The abundance spirit offers a helping hand for others to excel in whatever they do.

The abundance mentality believes that when others are enriched, it spreads to the whole.

The abundance mentality believes there is more from where the previous came from.

God will always provide. The abundance mentality is a giving spirit.

It shares without holding back. The abundance mentality is optimistic. The abundance mentality is easily identified by its generosity.

Life is like breathe; take and give.

**Today's Message:**

There is someone on earth who is grateful to God everyday on your behalf.

**Those you should be a blessing to:**

God

Family

Parents

Siblings (Brothers and sisters)

Pastors

Widows and orphans

Others (friends, neighbors, colleagues etc)

As a family, outdo each other in love.

As a husband and father, your family should be happy to have you in the house.

As a woman, you are supposed to bring favor to your husband. If things are not working out as planned, then it is time to kneel down in prayers.

Do not teach your children the scarcity mentality. Let them understand the abundance mentality.

Bless your parents, take good care of them. No parent should be neglected by their children. Before you judge your parents, be a blessing. You are not in the place to judge your parents. You owe them honor.

No matter how much your parents earn, always send them an allowance. It means a lot to them.

Take good care of your parents.

Your siblings are your first reference points from God. You must seek for them to win and succeed in life.

Watch out for them and give them the necessary support to be independent of you. Everybody is important from both families (in-laws).

Be generous to your pastors. Seek for their success and well being.

Bless your pastors with any opportunity you have. Let them be filled with the fruits/gifts from your blessing.
