

# 10 Reasons for Solar Frontier CIS Modules

1. High shading tolerance
2. Best behavior under low light and low angle irradiation
3. Temperature stability
4. Light Soaking Effect
5. No module grounding, no inverter restrictions
6. Resistance against Ammonia / Salt corrosion (TÜV-Cert.)
7. Free of lead and cadmium (RoHS compliant)
8. Mechanical stability - Framed Module
9. Superior appearance
10. Superior quality

The PV Module best optimized for real life conditions

**The highest output even under toughest conditions!**
