GUAYNABO, PR

Understand RCRA.

McCoy's Three-Day Seminar in Puerto Rico

Seminar Fee

The seminar fee is \$1,475 for three days.

Registration

Register at www.mccoyseminars.com, or by fax, phone, or mail. See registration form on the back of this brochure.

Language

The McCoy RCRA seminar for Puerto Rico will be conducted in English.

Seminar Format and Hours

The 3-day seminar is from Tuesday through Thursday. Class begins at 8:00a.m. and ends at 5:00p.m. each day.

Meals

Light breakfast, lunch, and snacks are provided each day. All meals are included in the seminar fee.

Course Materials

Course materials include *McCoy's RCRA Reference*, which contains the full text of 40 CFR Parts 260-280 and Part 148, and *McCoy's RCRA Unraveled*, a detailed discussion of interpretations clarifying the regulations. We also provide extensive daily course notes that are updated before each seminar.

Post-Seminar Tech Support

We answer questions, review case studies, and clarify a range of examples during our seminars. However, if you have questions after completing the seminar, call 303-526-2674 and ask for technical assistance or email us at info@mccoyseminars.com.

Include a McCoy Sherpa

- Yes, I'd like to include a *McCoy Sherpa* in my registration fee (\$295 additional)

Our policy is to ship Sherpas when payment is received. Thus, to expedite shipment of your Sherpa, we recommend using a credit card to pay for your registration.

Certification

After completion of this seminar, you'll receive a McCoy certificate indicating hours attended, seminar dates, location, and continuing education units (CEUs). Certification maintenance points (CMPs) for certified hazardous materials managers, certified industrial hygienists, and limited continuing legal education (CLE) credits are available. Visit understandrcra.com, click on the "Certification" link, and download our document for details.

Multiperson Discounts

Discounts are available at two qualifying levels: 5-9 people from the same organization and location attending the seminar receive a 10% discount; and 10 or more people from the same organization and location attending the seminar receive a 25% discount. Please note, the discount will be applied after the seminar once the actual attendance has been reconciled.

Cancellations

Cancellations are handled on an individual basis. Please contact us at 303-526-2674 if your plans change.

Guarantee

If you are not completely satisfied with a McCoy seminar, simply return the course materials to the instructor who will arrange for a full refund of your registration payment.

Onsite Training Opportunities

McCoy offers two- or three-day seminars conducted at your facility and tailored to meet your specific needs. Contact us at 303-526-2674 for details.

Making hazardous waste determinations? McCoy's RCRA seminar is practical and informative.

Whether you're just getting started with the regs or you're a highly experienced professional, this seminar will expand your knowledge and provide a greater understanding of RCRA. Here's how. McCoy's expert instructors are engineers and scientists with extensive experience in analyzing and interpreting environmental regulations, so they're uniquely qualified to guide you through the material. Our books and course notes are the best in the business. And we use real-world examples following each topic to help solidify what you've learned. So you can apply your knowledge where it really counts—back on the job.

1 RCRA Fundamentals

Four questions every generator should ask.

Day 1 provides you with a good understanding of RCRA fundamentals and ways to avoid costly mistakes. We also explain how the major exemptions and exclusions work.

The agenda for Day 1 includes:

- Introduction
- RCRA Information Sources
- Discarded Materials
- Identifying “Solid Wastes”
- Regulatory Exclusions and Exemptions
- Listed Wastes
- Spent Solvent Issues, K-Wastes
- Commercial Chemical Products (P- and U-Wastes)
- Identifying Characteristic Wastes
- The Mixture and Derived-From Rules

2 Critical Generator Issues

Practical guidance for RCRA compliance.

On Day 2, you'll learn the most cost-effective ways to manage your hazardous wastes. We identify the key RCRA requirements for both small quantity and large quantity generators and provide practical guidance on how to comply.

On Day 2, you will learn about:

- Three Classes of Generators/Waste Counting
- Satellite Accumulation
- 90/180-Day Accumulation
- Hazardous Waste Container Issues
- Manifesting
- Recordkeeping
- Treating Wastes Without a Permit
- Universal Wastes
- Problem Wastes (e-Wastes, Aerosol Cans, and Wipes)
- Recycling, Including Solvent Recycling
- Enforcement—Most Common Violations
- Case Study

3 Advanced RCRA Topics/ Land Disposal Restrictions

Step-by-step procedures for LDR compliance.

Day 3 will help you understand some of the more complicated aspects of the regulations. These include land disposal restrictions (LDR), air emission standards, the contained-in policy, and how to prepare for a RCRA inspection.

On Day 3, you will learn about:

- RCRA Air Emission Standards (Subparts AA, BB, and CC)
- The Contained-In Policy
- Spills
- Preparing for a RCRA inspection
- “Point of Generation”
- LDR Treatment Standards for Hazardous Wastes
- LDR Notifications and Certifications
- Rules for Applying Characteristic Codes to Listed Wastes
- RCRA Training Requirements
- Determining If Dilution Is Allowable
- Review of Recent Changes in the RCRA Regulations
- Rules Under Development
