

# HomeSweetHome

Featuring **EXTERNAL COATINGS**   
COMPLETE EXTERNAL RENOVATIONS

# Give your home a fresh new look courtesy of External Coatings

**F**INE examples of work carried out by External Coatings can be seen across Huddersfield and beyond.

Karl Goodyear, who runs the Shepley based business and has 30 years experience in the industry, says: "The outside of your home is just as important as the inside. "Why not consider rendering to give your house a new lease of life?" As well as rendering work, External Coatings can renovate homes with pebble dashing, texture coats, stone cladding, plastering and brick/stone cleaning. All work carried out by Karl and his team is guaranteed for 10 years and can also include pointing, fascias and guttering. Rendering is available in a wide variety of colours and is expected to last around 30 years, being extremely strong and weatherproof. This method of protecting the exterior of a home has benefited from various technological advancements in recent years. Traditionally it was a simple sand and cement mix but today's rendering material has the addition of polymers, silicones, aggregates and crack fibres to make the rendering hardwearing and more durable. Work is regularly carried out on both private homes and on commercial premises across the North of England. All enquiries are welcome and no job is too small or too big. Karl says: "Once rendering work is completed,

a house can look totally different. "We guarantee a quality finish and today's state-of-the-art applications ensure a great finish." One of the latest additions to the External Coatings portfolio is authentic stone cladding which can transform the appearance of your home. Craftsmen use both traditional and modern methods to create a look which can cover damaged or tired looking brick or stone. The result is hardwearing and long lasting. For more information, take a look at the detailed website [www.externalcoatings.co.uk](http://www.externalcoatings.co.uk) or ring 0800 783 2096. The website has a range of testimonials from satisfied customers, all praising the work of External Coatings. Invest in the look that lasts and protects with help from External Coatings. This is a name you can trust your home with - Karl and his staff always give 100% plus to any job to ensure complete customer satisfaction.

■ **WORK:** Examples of houses (pictured right) which have received a makeover from External Coatings and now have a brand new look. Whether your house is big or small, old or relatively new, it can still benefit from the External Coatings treatment and benefit from a new lease of life
