

SCAN MORE, FAX MORE WITH SCANNOW PLUS

THE **HYPAS™** APPLICATION TO **IMPROVE** THE **PRODUCTIVITY** OF YOUR **BUSINESS**.

With ScanNow Plus, scanning is as simple as logging into a device, inserting the document and hitting scan. Complete with an easy to use interface, ScanNow Plus offers scanning to various locations such as email, fax, folders, FTP and USB. The application enables businesses to improve productivity within the workplace by helping users to scan and fax quickly and easily.

Settings for scanning, such as file format, colour mode and individual scanning can be changed at the push of a button. ScanNow Plus also turns the MFP into a fax machine, simplifying the faxing process and without the need for a network card or fax line, helping businesses to reduce cost even further.

BUSINESS CHALLENGES

- > Finding the correct settings for scanning can be time consuming and difficult – **How can I make it easier?**
- > Faxing is expensive, and although used less these days, it is still an essential requirement – **How can I send faxes more economically?**
- > Documents that should be stored in a central folder are first scanned to the user's inbox and then saved in the folder manually – **How can I scan directly into the folder?**

YOUR ADVANTAGES WITH SMARTSCAN

- > **ScanNow Plus** offers one-click operations that are easy to use and save time.
- > **ScanNow Plus** enables the MFP to connect to the central fax server quickly and easily.
- > **ScanNow Plus** sends a file into a central folder, a user's home folder, an FTP location, or a USB with just one click.

HYPAS™ – TAILOR YOUR MFP TO SUIT YOUR BUSINESS

HyPAS™ is KYOCERA's platform to develop customised business applications. These are embedded inside the device and can extend functionality as required. Applications can connect to external server applications and integrate the MFP into company workflows for powerful functionality. With HyPAS™, we can meet individual customer requirements and provide the right solution for your business.

FEATURES & SPECIFICATIONS

Get to the heart of scanning or faxing with ScanNow Plus. With shortcuts for the most frequently used scan operations, including USB, FTP, Folders and email, users no longer need to click through menus trying to find the right settings. Instead, users enjoy an intuitive interface that enables them to scan to various locations with only a few clicks. Even complicated options, like scanning to personal folders or FTP become easy and quick tasks. Embedded on the KYOCERA device, ScanNow Plus is easy to set up and use, ideal for small and medium-sized organisations.

Scan to fax: Connect to a central fax server or internal fax server and use the MFP like a fax machine.

Scan to USB: Transfer physical documents to electronic and save direct to USB.

Scan to folder: Scan to a pre-defined network folder with just one click; ideal to centrally share or archive scans.

Scan to FTP: Scan to pre-defined FTP folders with just one click; ideal for sharing and archiving scans.

Scan to e-mail: Just enter an e-mail address to send a scan by e-mail.

Pagination: Enables the scanning of multiple documents at one time into individual scans.

Scan to personal folder or e-mail: Logged in users can scan to their private network folder or e-mail address with just one touch.

Scan settings: Enables users to change scan settings mid-scan from duplex to simplex amongst other scan settings.

FAXING WITH SCANNOW PLUS

By connecting the MFP to the central fax or internal fax server, ScanNow plus offers huge cost saving potential. Dedicated fax machines are no longer required, and the MFP can be used as a walk-up fax without investing in expensive fax network cards.
