

# AIR COOLERS 2017

## ORIENT ELECTRIC COOLER FOR EVERY HOUSE

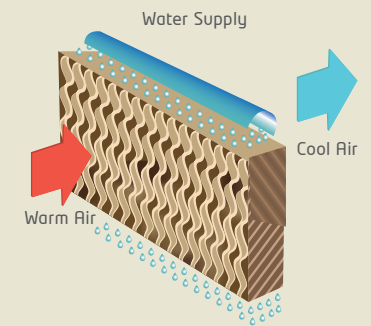

Orient Electric presents its smart, energy efficient range of air coolers, carefully designed and engineered to fulfil all your cooling needs. Orient Electric evaporative air coolers are the most cost-effective and natural method of indoor cooling. Electricity consumption of an evaporative cooler can be up to 80% less than that of an air conditioner.

Orient Electric is committed towards constant product innovation and constantly strives to make the best quality products for its consumers. All our air coolers are developed with a focus towards changing consumer needs and cooling requirements.

The range has been customised to suit all modern home interiors. All our air coolers run through a battery of tests internally and through external agencies, making sure that you receive a cooler that is fault-free and gives uninterrupted cooling for years together.

### **Our wide range of coolers offer many advantages**

- Honey comb pads with dense nest feature for enhanced cooling
- Motorised louvres for four way air circulation
- Specially designed fan blades and blowers for a class-leading air throw
- Compact and sleek design to suit room interiors
- Easy grip handles and strong castors for easy maneuvering
- Fully-functional remote control for ease of use
- Touch pad with timer function

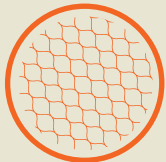

## ADVANCED FEATURES FOR CLASS LEADING COOLING EXPERIENCE

**HONEYCOMB PADS with DENSENEST feature**  
45% higher water retention with 25% more cooling.

**ANTI-MOSQUITO, ANTI-BACTERIA**  
Prevents mosquito breeding & bacteria.

**DUST PROTECTION**  
Provides clean air, prevents dust and pollen.

**POWERFUL AIR DELIVERY**  
Specially designed fans & blowers for best in class, air delivery.

**& MANY MORE**  
Motorised louvre for 4 way deflection, Rust proof body,  
Ice & fragrance chambers, Auto fill.

#Features/specifications/colours are subject to change.

This powerful high capacity cooler is uniquely designed with advanced manufacturing techniques using superior materials, enabling it to perform efficiently within a wide range of indoor and outdoor conditions. This rugged, durable and high performance cooler enables quick room cooling and ensure constant supply and circulation of fresh air. Its 85 Lts. tank capacity enables uninterrupted cooling for hours together without having to refill the tank at regular intervals. It comes with the benefits of Orient's ubiquitous Dense Nest feature for honey comb pads and a specially designed powerful fan providing quick respite from sweltering summer heat.

Cools Upto (Area Area) : 37sqmts (400 sqft)\*

## **More hot water. Less power consumption.**

Presenting water heaters from Orient with Whirlflow technology that gives you 20% more hot water at lesser power consumption.

**Fans • Home Appliances • Lighting • Switchgear**

# OUTSTANDING FEATURES FOR AN UNFORGETTABLE BATHING EXPERIENCE

Orient provides class leading quality products to its consumers. All our products are thoroughly tested on varying parameters not only by internal labs but also by top quality testing agencies. Orient products come with 7 year tank warranty and is supported by excellent after sales service through its toll free number 1800 103 7574 and dedicated service personnel.

## FEATURES

### WHIRLFLOW TECHNOLOGY

Now get 20% more hot water at less power consumption with Orient's Whirlflow technology. With this amazing feature, cold water can be marshaled effectively without affecting hot water layers within the tank.

### TITANIUM ENAMEL TANK

- Titanium offers excellent corrosion resistance of the inner tank, thus increasing the life of the tank and the water heater as well.
- Super thick Magnesium Anode keeps the tank rust proof for longer period of time.

### 7-4-2 WARRANTY

Orient water heaters come with a 7-year warranty on the tank, 4-year warranty on the heating element and 2-year warranty on the whole unit.

### Smart Features :

- Digital Temperature Display
- Auto timer
- Winter-Summer mode
- Flame failure devices
- Overheat protection

### Glassline Coated Incoloy Heating Element

- Faster heating
- Saves time
- Longer element life

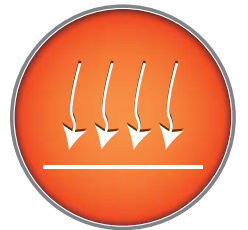

### SAFETY FEATURES (MULTI FUNCTION VALVE)

- PRV (Pressure release valve) : Releases extra pressure from inlet
- VRV (Vacuum release valve) : Guards against dry running of water heater
- Non Return Valve : Water exits only from the outlet that prevents water return
- High Pressure Bearing Tank : Withstands upto 8 Bars of pressure
- Double Thermal Protection Devices : Thermostat & thermal cutout two temperature sensing devices
- Fusible Valve : Acts when thermostat and thermal cutout fails
- Anti - Siphon hole : Prevents back flow of water

### VARIABLE PRESSURE COMPATIBILITY :

Orient water heaters are designed to handle varying water pressure conditions. They can handle water pressure from 0.1 Bar to 8 Bars which makes them suitable and very compatible for single and multi storied apartments.

Enamel Coated Heating Element

Warranty

### Durability Features

- Glassline coated tank
- Patented whirlflow technology - Gives 20% more heating
- With optional ELCB
- 27% thicker Magnesium anode
- Incoloy Glass line coated heating element
- Temperature display
- Japanese Anti bacteria technology with a life of 2 years

### Safety Features (Multi function valve)

- PRV (Pressure release valve)
- VRV (Vacuum release valve)
- Drain valve
- Non Return Valve

### 20% More Heating

#### Patented Whirlflow Technology

Most efficient, more hot water | Energy efficient, saves electricity, Saves times, faster heating | Longer product life

### Titanium Enamel Tank

Withstands high pressure (**8 Bars**), protects tank from scaling

### Anti bacterial tank

Japanese Anti- Bacterial technology

### Super thick Magnesium Anode

27% thicker for long life and enhanced protection against scaling

Durable 3 Pin Plug
