

PROJECT MANAGER

CSO is currently looking for a Project Manager, with the ability to design, manage, and produce documents through all project phases, as well as experience managing clients, project teams, and consultants.

Requirements:

- Licensed Architect
- Minimum 6-10 years of experience managing commercial projects
- Strong design and graphic skills, exceptional knowledge of space programming, contract documents, detailing, specifications, team production management and contract administration
- Ability to communicate clearly and concisely; both verbally and in writing
- Strong interpersonal skills with the ability to build strong relationships with clients and associates
- Strong computer skills (AutoCAD, Microsoft Office, Revit)
- LEED accreditation a plus
