

Technology

Utilising new materials and patented '**venturi valve**' technologies, PAPA is able to deliver new products which are more compact, lighter and user friendly whilst maintaining and improving both efficiency and longevity.

High strength reinforced composite material

PAPA is continually developing a range of ancillary items which are designed to enhance the scope and operational ability of our pumping systems.

Example:

Seradisc filter screen:
Robust and adjustable filter screen to maximise service intervals.

The PAPA pump uses unique Latigloss composite material which is approved for drinking water applications by the following certification bodies.

Application Examples

Livestock

Humanitarian

Aquaculture

Irrigation

Flood Control

Livestock Erosion

Hydro Generation

Papa Pump[®]

Water Powered Technology

Your Long Term Water Solution!

**Pump, store and utilise water
from your natural flowing river,
stream or spring source
without the requirement for
fuel or electricity!**

www.waterpoweredtechnologies.com

The PAPA pump and Seradisc filter are registered trade marks of:

**Water Powered
Technologies**

History

Water powered pumping traditionally goes back 1000's of years where it was used primarily for low head irrigation. More recently from the late 1700's **hydraulic ram pumps** were developed as an efficient and effective means of transporting water over long distances and great heights where they have been utilised to provide water in most parts of the world prior to the advent of '**previously inexpensive**' mains water and electricity supplies. The Papa Pump represents a modern, smaller, lighter and more effective alternative.

How It Works

The Papa Pump is capable of transporting water to high heads and distances, delivering up to 16000 litres per day from your stream, river or spring using '**only the energy of the flowing water**'.

PAPA Pump Kit

All inclusive kit ready to install, complete with manual and technical information.

Exhaust insert

PAPA Pump

Pressure Vessel

Delivery Hose Assembly

Multi-purpose 'C' Spanner

2 x Seradisc filters

Spare valve & o ring set

Ball valve
