A Global Food Company

Sun Impex is a global food company. We offer an extensive range of food products, sourced directly from the farmlands and processing zones across all corners of the world. Our procurement and quality processes are meticulous, as are our supply chain logistics.

Our **production front** closely monitors the yields, cropping patterns and commodity prices across continents; and has linkage to processing facilities that ensures consistency and continuity of supplies. While on the **delivery front**, we have a team of qualified professionals, tracking factors like quality, costs and customer satisfaction. We operate on bulk volumes that translate to scale efficiencies to benefit our customers.

Across the world, consumers' tastes are changing. Food is a passionate subject, and consumers look forward to innovation and excitement. We have presence in **Dubai, Rotterdam, Ukraine, Myanmar, India and Madagascar**. As a consolidator and supplier of food sourced from different parts of the world, this is precisely what stimulates us. New flavours, infused blends, world cuisines, local adaptations, customised orders, innovative pack formats - you can expect all this from us!

# Certifications

We make food safety and quality an unerring priority. To meet the international food safety standards we employ strict checks at critical points in the supply channel, adhere to stringent regulatory requirements and follow rigorous ISO standards. Our active participation in HACCP programs, accreditations and certifications, make us reliable exporters and suppliers, internationally.

Ensures our products and services are safe, reliable and of good quality.

Certifies our products, processes, systems and services are compliant with national and international regulations and standards.

Helps to connect, inspire, empower and inform about world's major nut and dried fruit ecosystem.

Brings common good, transparency and sustainability for all sectors of the global pulse industry.

An International Association which promotes the interests of traders worldwide.

A process control technique used internationally to assure that food is safe for consumption.

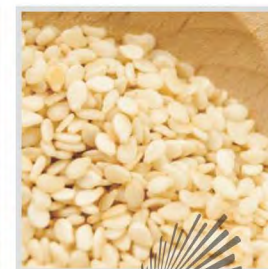

Our manufacturing subsidiary, Shimla Hills Offerings Pvt. Ltd. has been accredited with Food Safety and Standards Authority of India (FSSAI) certification for manufacturing flavours.

# Offerings

Sun Impex is a shopping basket for fine foods to the world. In fact, it is a kaleidoscope that mirrors food cultures around the world. We are consolidators and suppliers of food sourced from different parts of the world that is traded on diverse routes, across diverse cultures. This simply makes us euphoric. Take a look at our extensive product offerings. You are sure to be in for a very pleasant surprise!

# Global Footprints

Sun Impex an international presence world wide. Each location caters to the requirements of the region, while also increasing our global reach. Through an extensively spread global supply chain network, we are able to meet the demands of one region by sourcing products from another.

## Sun Impex (Dubai, UAE)

Sun Impex FZE is a Global Food Company. It anchors our presence as the global supplier and exporter of wide assortment of food products for the Middle East and the Gulf region, as well as other countries around the world. Dubai has grown into an influential cosmopolitan metropolis and global city over the years. The city is lined along emirate's northern coastline and has two very major commercial ports, one of which is world's 7th-busiest port.

## Sun Impex (Rotterdam, The Netherlands)

Sun Impex B.V. is a regional sales office and global sourcing hub of diverse agro products. Rotterdam is not only geographically viable, but also gives us commercial and business advantages. As Europe's largest and world's 5th largest port, it is a perfect gateway to the European market, thus strengthening our enterprise here!

## Sun Impex (Yangon, Myanmar)

We have been able to develop this place as a trading hub of commodities and quality pulses which helps us to source the best produce for our clients. In addition, Yangon is Myanmar's hub for domestic and international air, rail and road transportation.

## Sun Impex (Vinnytsia, Ukraine)

As Europe's second largest country, Ukraine is one of the major agriculture centres of the world. Natural conditions like climate, soil fertility, irrigation, farming systems are very conducive here for developing an agricultural and processing based industry. All these factors assist us in bringing efficiency and consistency in our supply chain for soya based animal feed and other important ingredients.

## Sun Impex (Chittoor, India)

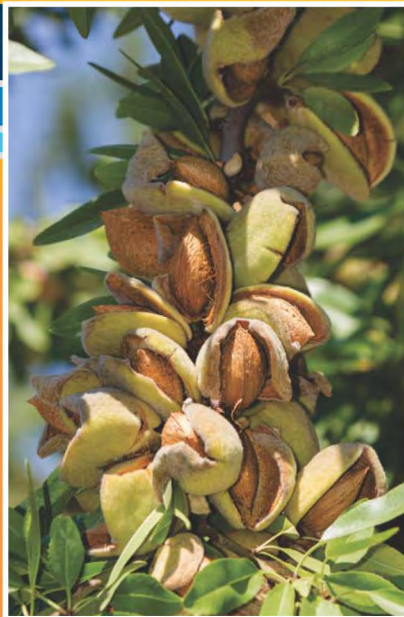

A new 5000 sq.ft. flavour compounding facility has been setup in India at Chittoor, Andhra Pradesh. The facility has been launched under the brand name of SNIFF. The brand delivers the essence of taste and aroma for the beverage, confectionary, bakery and dairy segments. It has been designed in line with GMP standards and includes facilities for analytical & microbial lab, application lab and warehousing.

# Farm Supplies

Thoughtfully sourcing and distributing food from best global destinations, while meeting our quality and safety standards.

- Almonds – USA and Australia
- Cashew – Vietnam and India
- Pulp - Tropical fruit belt, India
- IQF - India, Belgium and Egypt
- Oilseeds - Nigeria, Ethiopia and Sudan
- Spices – India and Madagascar
- Pulses - Myanmar, Canada, Ukraine and Australia
- Horeca - Products sourced from Europe and distributed throughout UAE at customer's doorstep via temperature controlled vans and trucks.

# Product Innovation & Customized Product Solutions

We have spearheaded a food diversification initiative to gratify changing taste and evolving food requirements of our customers worldwide. We have an in-built capability to create customised product offerings for our vendors/customers, owing to:

- The ability to consolidate and supply food sourced from different parts of the world.
- Presence in world's six leading food producing centres.
- Manufacturing and processing capability, driven by intensive R&D.
- Delicious innovative products, characterized by new flavours, infused blends, exciting world cuisines and local adaptations in creative pack formats – even if it means customising orders to any length!

# Manufacturing Roots

Sun Impex has its roots in strong backward integration that begins with Shimla Hills, our manufacturing subsidiary.

Shimla Hills, a Government Certified Export House is a manufacturer, exporter and global supplier of processed, fresh, frozen fruits and vegetables, spices, pulses, grains, flavours and oilseeds. In addition it has:-

- Yearly production capacity of 30,000 tons with 2,500 tons of warehousing facility.
- Strong Backward Integration with access to 20,000 acres of farmlands and tie-up with over 1000 farmers.
- First Indian company that uses wireless digital online temperature control system and precision engineered ( modified atmosphere and modified humidity) packaging for fresh produce.
- Quality accredited by certifications **BRC, HACCP, AIJN, SGF, IRA, GMP, APEDA, USFDA, FSSAI** and **ISO 22000:2005** for processing and packaging.

# Sustainable Environmental Initiatives

Striving to conserve resources, minimise food wastage, use renewable raw materials and use innovative ways to help protect environment. Preserve the wholesomeness of food so that its safety and integrity is fully ensured.

- Our plants use ETP (Effluent Treatment Plant) that recycles wastewater, making it suitable for gardening, flushing and cleaning purposes.
- Strict pollution control measures followed at our processing facilities under the state and central governmental authorities.
- Refuse material like fruits and vegetables peels, tit-bits left after sorting and fruit stones are used for making healthy animal feed, organic manure and fuel for boilers.
- Use of wooden pallets, made from heartwood of neem (Indian Lilac) for its strength, durability and most importantly pest and disease control properties.

# Logistics and Supply Chain

The farms and processing centres are located within a 150 km radius to reduce the processing time, cost and environmental impacts.

Testing labs and processing unit lie in close vicinity.

- Sun Impex has a 5000 sq.ft flavour compounding facility at Chittoor, Andhra Pradesh.
- Shimla Hills mango production hub and a high-tech analytical, microbiological and application labs are also located at Chittoor.

We have presence in world's most strategically viable locations that have production hub in close proximities to air and sea ports.

- The Netherlands – A stock-and-sales unit at Rotterdam, gateway to Europe.
- Africa - Our Madagascar base located around the primary commercial port city Tamatave, a perfect doorway for exchanging agro commodities.
- Gujarat, India – processing facility for peanuts and sesame.
- Kerela, India - a new cashew processing facility at Kollam.

# Processed Pulses

Processed dal are obtained from raw pulses after sorting, cleaning, conditioning, grading, bagging and sometimes dehusking and splitting them. Sun Impex is one of the prominent pulses suppliers for wholesalers and retailers. We offer hygienically cleaned, sortexed quality processed pulses that are prepared using best technology. The ready-to-cook utility of processed dal makes them ideal for use in various food preparations.

# Raw/Whole Pulses

We offer quality and well-cleaned raw pulses that are available with natural characteristics. Cultivated using best farming practices, each grain is allowed to reach its optimal maturity before harvesting. The crops are sufficiently dried before undergoing the threshing process to obtain the grains, i.e. the raw pulses. The grains, thus obtained are sent for pre-cleaning and drying so that it can be kept in storage until it is sent for further processing.

Variety/ Specification	Origin	Loadability (20' FCL)

# Sniff

# Sniff

SNIFF is the official brand of Shimla Hills Offering Pvt. Ltd, the manufacturing subsidiary of Sun Impex for its Flavours, Colours and Fragrances product line. The brand offers essence of taste, aroma and visual appeal for various food segments. SNIFF brand is represented by a Tagete flower (marigold flower) logo, which defines the core of our venture with its sweet aroma and subtle flavour. It also reflects our aim to bring right quality, delivered at right time for the right application.

A 5000 sq.ft flavour compounding facility has been setup for SNIFF in India at Chittoor, Andhra Pradesh. The facility is accredited with Food Safety and Standards Authority of India (FSSAI) certificate for flavour manufacturing. Designed in line with GMP standards this facility has an analytical & microbial lab, application lab and provision for warehousing. SNIFF is an endeavour to offer customised products for flavours, colours and fragrances using best creativity, innovation and technology.

*fssai*

The FSSAI logo is displayed in a white circular frame. It features the letters 'fssai' in a stylized, lowercase font with a green leaf-like element above the 'i'.

# Flavours

Appreciation of good food lies in its taste. Sun Impex offers a range of food flavours to heighten any culinary experience, and deliver a pleasant aftertaste sensation. You have high quality options that are designed to keep within your cost parameters.

We provide flavour products to match your needs. With a range that extends from traditional favourites, trendy tongue teasers to customised preparations as well.

## Beverages

- ✦ Select the right mix to add punch to beverages (both Alcoholic and Non-Alcoholic ) as well as fruit juices, tea and coffee products; and in soft drinks (with or without fizz)
- ✦ New and interesting variants from across the world, designed to suit and satisfy local tastes.

## Dairy

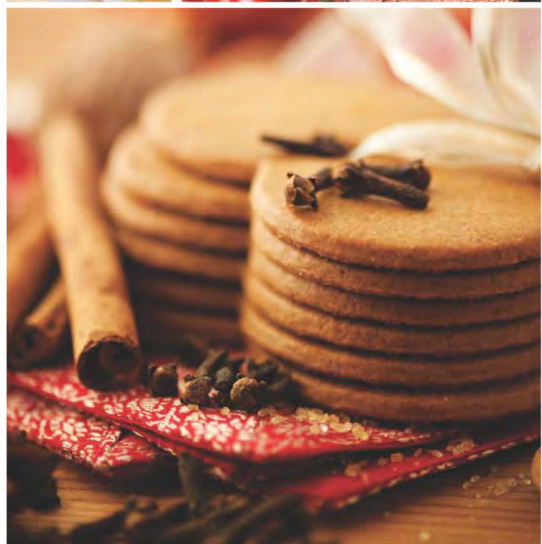

- ✦ Take advantage of our range of flavour profiles to whip up delicious ice-creams, desserts, milkshakes, cheese, yoghurts and spreads.
- ✦ We have all-time favourites like vanilla, strawberry and chocolate, as well as some delightful twistors for added interest.

## Bakery

- ✦ Add a delightful whiff of aroma to your hot breads, cakes and biscuits.
- ✦ Experience sensations ranging from sweet to piquant and from subtle to tangy.

## Confectionery

- ✦ Whip up some excitement while preparing chocolates, candies, chewing gum and cereals.

# Colours

Sun Impex brings you colour additives that are safe and suitable for commercial and domestic cooking. Choose from options in both natural and synthetic formats. Our products deliver consistent consumer appeal and support flavour association. Use them to add sparkle to beverages, beer and iced tea or present ice creams, desserts and yogurt in good light. Make candies, gum, confectionery, jam, jellies, marmalade, fruit crushes, ice cream toppings and baked products more attractive or use colours to add vibrancy to any variety of basic food items.

# Fragrances

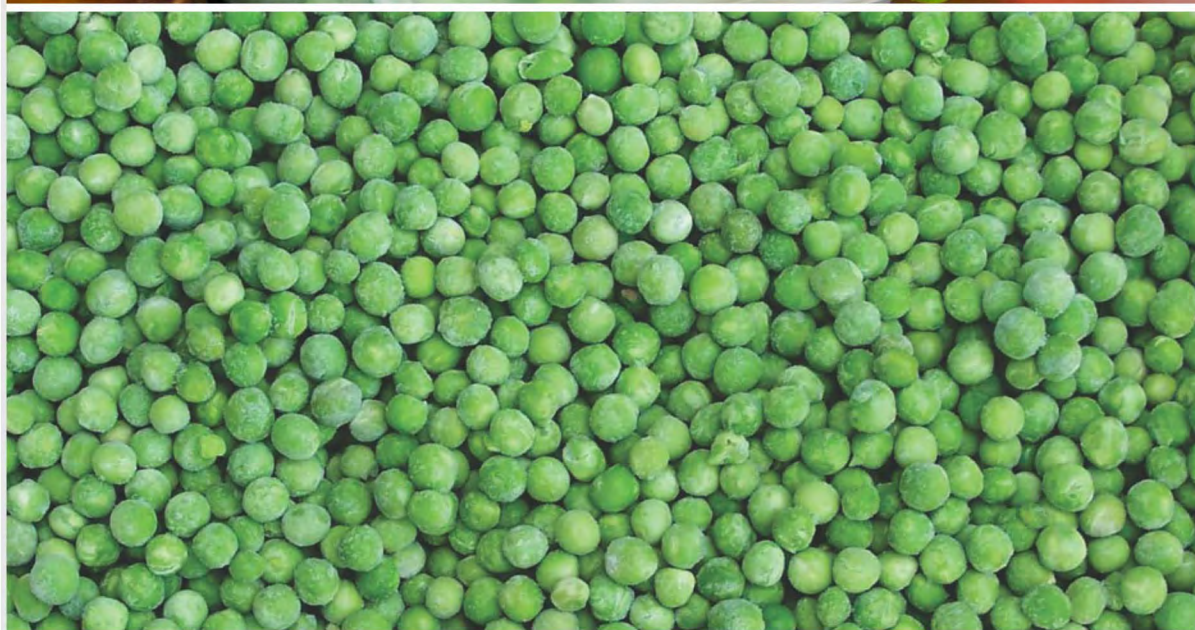

Sun Impex has an exclusive range of commercially successful fragrances for the following segments - personal care, home care and fabric care. With us you can find the right products that can also be customised to suit your unique requirement. We offer wide-variety of fragrances prepared using innovative technology for industrial purposes right from fine fragrance to personal care to laundry detergents and room freshening.

# Frozen / IQF

Sun Impex offers a really wide range of Individual Quick Frozen (IQF) fruits and vegetables. The IQF food range has completely changed the food industry and helps in retaining the flavour and nutritive qualities of food for longer.

# Dried Fruits

We offer quality dried fruits of various origins. Dried fruits are categorised as vine fruits and tree fruits. Dried fruits are fruits from which water content is removed, either through sun drying or by dehydrators. They are relished for their sweet taste and nutrition level having twice as much fibre, iron, potassium and antioxidants as fresh fruits. Dried fruits are used in bulk quantities in food processing industries for making bakery items, confectionery, ready-to-eat snacks and cereals.
