News Letter No: 175December - 2018*Sub :: Installation of New Tool Pre-setter.*

## Happy New Year 2019.

Magna is pleased to announce the installation of a new Tool Pre-setter in its captive machine shop. This machine will help us to

- Reduce Operator dependency and Manual entries
- Optimize our machining process,
- Reduce the setup time
- Generate consistent quality in products
- Improve overall process reliability
- Minimize the idle time of machines
- Reduce scrap and tooling costs and
- Improve tool utilisation
- Validate the tool geometry and tool profile

**This Pre-setter was inaugurated by Mr. Valon Ahmetaj, Engineer - Technical Supply, ABB Turbo Systems Ltd, Baden, Switzerland on 7 2018.**

1. Make - KELCH GmbH
2. Model - KENOVA Setline V345C CoViS
3. Measuring range - Max dia 400mm, Z=500mm,  
Snap gauge dia 50mm
4. Accuracy - 2micron

Having modular precision spindle for holding BT40, BT50, HSK A50 and HSK A63 adapters.

This tool pre-setter is connected to all machines directly through Wi-Fi network to transfer tool related data.
