Molded Door Catalog

We're door people.

www.TMCobb.com

Made from molded high-density fiberboard, T.M. Cobb doors resist shrinking, swelling, cracking and joint separation.

Specify the Door That Makes the Grade

- All doors are available primed and ready to paint.
- T.M. Cobb doors can be specified in 1³/₈" and 1³/₄" thicknesses.
- Most 1³/₄" thick T.M. Cobb doors can be manufactured to meet 20-, 45- and 60- minute fire ratings as per Warnock Hersey specifications.

Make a Solid Choice

- For the heft and sound-deadening properties of solid wood, specify solid core construction.
- Most T.M. Cobb doors can be specified for either hollow or solid core construction and with either finger-joint or MDF stiles and rails.

Tough on the Inside

- T.M. Cobb Molded doors featuring door facings by Jeld-Wen are made from an engineered wood fiber mat that is molded under intense heat and pressure into an 1/8" (3.2mm) thick sheet of high-density fiberboard. The result assures consistent quality from door to door, room to room, and home to home.

Environmentally Responsible

- Due to their physical composition, Jeld-Wen molded door facings are not subject to the California Air Resource Board's Airborne Toxic Control Measure 93120 (ATCM). This measure enforces limits on formaldehyde emissions. If they were subject to the ATCM, Jeld-Wen door facings would meet the specification for the designation "ultra low formaldehyde emitter." Jeld-Wen door facings have demonstrated formaldehyde emissions equivalent to wood through repeated testing by the Composite Panel Association (CPA), a third party certifier for the CARB ATCM rule.
- No old growth timber is harvested for the manufacture of Jeld-Wen designs. Instead, by-products from sawmill operations are used to convert wood chip waste into designs of true beauty.
- Jeld-Wen molded door facings contain a minimum of 63% by weight, pre-consumer recycled content. This is certified by Scientific Certification Systems, certificate number SCS-MC-01801.
- Jeld-Wen molded door facings contain a minimum of 50% by weight, pre-consumer recycled content.
- Jeld-Wen uses a low VOC primer, among the most environmentally friendly paint products on the market.

Craftsman III®

Smooth or textured in a variety of designs

Colonist®

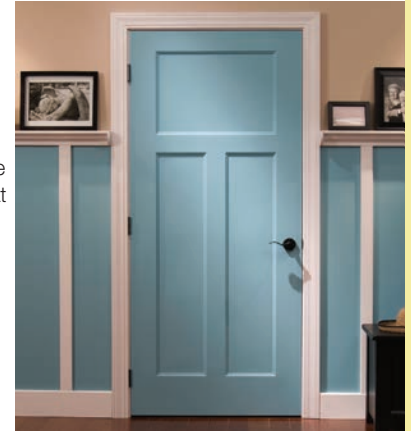

Pine wood grain texture or smooth finish

- Distinguished by more than a quarter century of precision craftsmanship and design, this classic design rises above all imitators.
- Available in 6'8", 7'0" and 8'0" passage and bifold sizes.

Craftsman III™

Smooth finish

- Created through advanced panel technology to create the only truly authentic molded flat panel door.
- Reflects traditional Craftsman architecture and beautifully simplistic Mission-style, yet its modern design is equally popular today.
- Available in 6'8" and 7'0" passage sizes.

Avalon®

Oak wood grain texture

- A simple, straightforward design versatile enough to contribute to any décor.
- Available in standard 6'8" passage and bifold sizes.

Madison®

Smooth finish

- A square top single-panel plank door that brings character and charm to any room.

Conmore®

Elegant smooth finish.

- The only truly authentic molded, flat 5-panel door.
- Available in standard 6'8" passage and bifold sizes.

Camden®

Oak wood grain texture

- Bold, sleek, stylish, this door brings chic to any room.
- Available in standard 6'8" passage and bifold sizes.

Smooth or textured in a variety of designs

Carrara®

Smooth finish

- Austere yet welcoming, this uncluttered design has limitless appeal.
- Available in 68", 70" and 80" passage and bifold sizes.

Caiman®

Smooth finish

- A two-panel, true arch design that's the picture of elegant simplicity.
- Available in 68", 70" and 80" passage and bifold sizes.

Cashal™

Smooth finish

- An arch top, two-panel plank door that brings character and charm to any room.
- Available in 68", 70" and 80" passage and bifold sizes.

Corvado®

Smooth finish

- The warmth and richness of a traditional plank door with a distinctive groove and modified sticking pattern for added detail.
- Covered by U.S. Patent D541947.
- Available in 68", 70" and 80" passage and bifold sizes.

Rockport™

Smooth finish

- Smooth surface and modified cove and bead sticking profiles add traditional warmth to any room.

Princeton®

Smooth finish

- Bold, sleek, stylish, this door brings chic to any room.
- Available in 68", 70" and 80" passage and bifold sizes.

Monroe™

Smooth finish

- This Flat Panel design is a simplistic mission-style design.
- Available 6'8", 7'0", and 8'0".

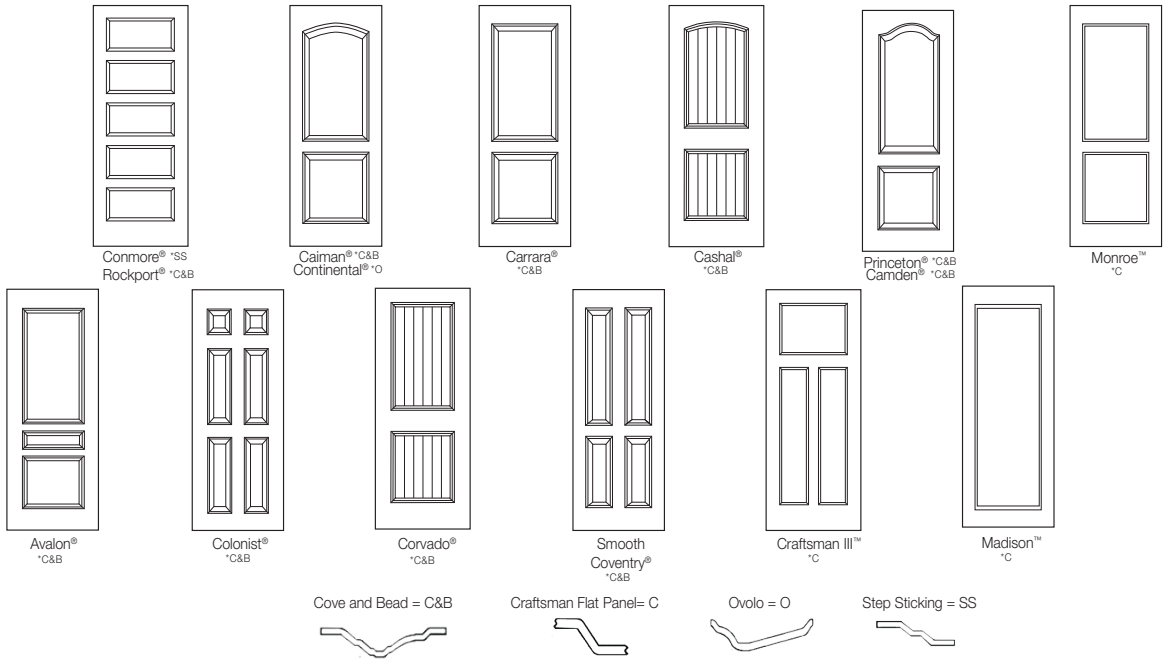

Coventry®

Smooth finish

- A classic design that manages to have both a unique character and a universal appeal.
- Available in 6'8", 7'0" and 8'0" passage and bifold sizes.
