## Welcome to On The Surface

Welcome to the 19th edition of our Newsletter 'On the Surface'.

Christmas will soon be here, we hope 2018 has been a successful year for all our customers and we thank you for your business. Also a big thank you once again to all our staff who have worked so hard to provide the best possible service.

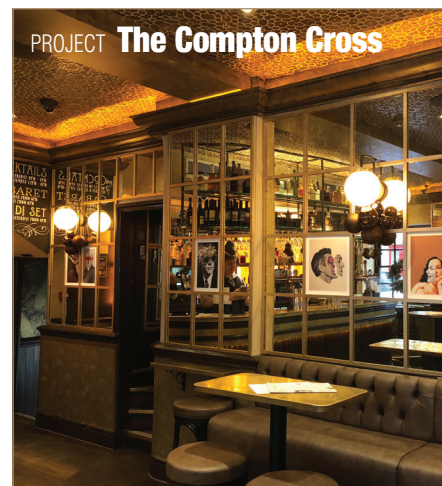

2019 with all its economic and political uncertainty's looks as if it will be a challenging year but one, we at David Clouting, are looking forward to as we continue to introduce innovative additions to our product ranges with some exciting colours and textures -helping us to maintain our position as the UK's leading surface material provider.

From everyone at David Clouting we wish you a very Happy Christmas and a Prosperous New Year.

To keep up to date with all our news please check our website or Facebook page [www.davidclouting.co.uk](http://www.davidclouting.co.uk)

## THE VERSATILE REFURBISHMENT SOLUTION

Examples of Interior Film's increasing popularity and versatility can be demonstrated by it being specified for a number of refurbishment projects including; the walls of a specialist hospital ward in Norfolk, a Waltham Abbey business centre, an apartment kitchen at the Olympic Park in London, a Landmark pub in London and a washroom facility at HMRC' offices in Watford.

Interior Film produced by our manufacturing partner LG Hausys, is an innovative self-adhesive, architectural film that is quick and easy to install and is so versatile it can be applied to almost any interior surface including: wood, metals, plasterboard, plastics and even melamine.

With over 400 designs and finishes, feature walls, office doors and desks, reception areas, kitchen units, skirting and architrave can be attractively and quickly refurbished at a fraction of the cost to replace them.

Offering excellent flexibility and adhesion, Interior Film provides the perfect finish, even to curved or complex shapes.

It's easy to clean and maintain, is hardwearing and remains stable if exposed to heat, humidity or low temperatures.

Interior Film is also CE and IMO Certified.

Note: E-Project Data Sheets for all the projects listed above are available on request. Please email:

## METAL DÉCORS WITH FINGER PRINT FREE PROPERTIES

Our latest on trend metal stainless steel effect décor foil range from LG Hausys feature a Hard Coat finish making them exceptionally durable, and unlike real stainless steel, are resistant to finger prints - a unique selling point for kitchen furniture manufactures and also end users.

These incredibly realistic décor foils featuring either a stratified brushing effect or more random softer brush strokes, have been specially adapted for application to MDF and importantly match the same finish as brand leading refrigerators and freezers.

The two embossed décors which are available in four colours including a warm tone that is stunning when matched with strong woodgrains, are 0.3mm thick and are quite rigid due to the metal contained in them.

For further information, please email: [marketing@davidclouting.co.uk](mailto:marketing@davidclouting.co.uk)

## DAVID CLOUTING AT SURFACE DESIGN STAND NO. 168

We will be exhibiting at Surface Design next year (5-7th February) where we will be featuring our innovative Interior Film range - we look forward to welcoming you onto our stand No 168.

Email: [marketing@davidclouting.co.uk](mailto:marketing@davidclouting.co.uk) for further details
