

Apple iPhone SE

- 4" Screen
- iOS 9.3.2, up to 9.3.3
- 12 megapixel camera
- 16GB or 64GB

Apple's iPhone SE is the first 4" iPhone released since the iPhone 5 in 2012, however it packs a lot more power. In fact, the SE has features on par with the iPhone 6S such as the advanced A9 Chip, Apple's best 12 mega-pixel iSight camera and even 4K video recording – *at a much smaller price tag.*

LG G5

- 5.3" Screen
- Android 6.0.1
- 16 megapixel camera
- 32GB expandable with MicroSD

The G5 is LG's first ever phone to feature a metal body, but it's not the updated exterior that makes the LG G5 stand out from the crowd. The latest flagship incorporates a changeable module with a slide-out battery that can be replaced with an LG "Friend" of your choice.

HTC 10

- 5.2" Screen
- Android 6.0.1
- 12 megapixel camera
- 32GB or 64GB expandable with MicroSD

The HTC 10 is HTC's latest flagship and tick's all the boxes. With improvements to design, moving over to a more premium look, a far better camera that features the World's first dual OIS, 4K Video and even a 2K 5.2" LCD display that is 50% more responsive than the previous M9.

Samsung Galaxy S7 & S7 Edge

- 5.1" Screen or 5.5" (Edge)
- Android 6.0
- 12 megapixel camera
- 32GB or 64GB, expandable with MicroSD

Samsung's S7 models offer the best of both worlds – with a premium looking design and high-level durability. In fact, both are water and dust resistant, allowing you to immerse the device in 1.5 metres of water for up to 30 metres, without any damage.

Google Nexus 6P

- 5.7" Screen
- Android
- 12.3 megapixel camera
- 32GB, 64GB or 128GB

Packed with a fingerprint sensor, a Qualcomm® Snapdragon™ 810 v2.1 processor, the most popular Google Apps and the best all-round camera Google has ever built into a Nexus, the 6P offers high-level performance in every aspect.

Microsoft Lumia 950 XL

- 5.7" Screen
- Microsoft Windows 10
- 20 megapixel camera
- 32GB expandable with MicroSD

Featuring the latest octa-core processor, the Microsoft Lumia 950 XL is the most powerful phone Microsoft has ever built to date. With further features including a 5.7" Quad HD display, USB-C fast charging and an extra-large battery, the Lumia 950 XL is designed to keep you productive all day long.

BlackBerry DTEK50

- 5.2" Screen
- Android 6.0
- 13 megapixel camera
- 16GB expandable with MicroSD

With security keys baked into the processor during manufacturing and full-disk encryption that's enabled by default, the DTEK50 is an ideal business phone thanks to BlackBerry's legendary security know-how.
