

MOBILUX 2

Specifically designed for the bodyshop environment to increase lighting levels for close proximity work, detailing and final inspection, it can also be utilised for genral lighting for that "dark corner of the building"

Designed by our own technical department and manufactured in the UK, the product is not only robust to tackle any work environment, but also has the maneuverability to be positioned around the workshop.

- Solid 50mm x 50mm box section steel construction
- Aluminum construction to the lamp unit. A massive 15,000 lumen output. High CRI (Colour rendering index) for "true colour match"
- 150W total power.
- 100mm rubber wheels for ease of movement.
- Comes complete with 5m PVC cable and standard BS1363 Plug top
- Market leading Phillip's or Tridonic componants
