Project Description

etc Design Ltd were appointed as part of a consultancy team to develop conceptual proposals for a new flight training facility building for Qatar Airways.

The designated site is located within the development area of the new Doha International Airport in Qatar.

The building form draws inspiration from the middle east's leisure interest in falconry and in particular the form when it comes in to land.

The training centre is designed to house 8 full flight simulators with ancillary facilities including a 2500sq. m cabin trainer room and elevated swimming pool.

Client

Qatar Airways

Floor Area

16,500sq. m approx.

Construction Period

tbc

Project Team

Architect: etc Design Ltd, Client Representatives,
